**yearly audited business report (For period January 1<sup>st</sup>, 2012 – December 31<sup>st</sup>, 2012)**

### **Significant business matters**

On August 31, 2011, with legal effect from September 1, 2011, in the Commercial Court Rijeka Permanent office Pazin merger of companies RABAC d.d. and ZLATNI OTOK d.d. to company RIVIERA POREČ d.d. was recorded, all based on previously conducted legal prescribed procedures and decisions of General Assembly of ZLATNI OTOK d.d. since June 27, 2011, General Assembly of RABAC d.d. since June 28, 2011 and General Assembly of RIVIERA POREČ d.d. since June 29, 2011, as well as based on the Merger Agreement concluded on June 29, 2011. At the same time company changed name from RIVIERA POREČ d.d. to **Riviera Adria d.d.** (hereafter: Company) and that was also recorded.

Until August 31, 2011 Management Board composed of: Veljko Ostojčić – President, Tihomir Nikolaš – Member and Marko Čižmek – Member, and from September 1, 2011 one new MB Member was appointed - Edi Černjul. In this composition MB operated until mandate expiration on December 31, 2011. Supervisory Board for new mandate of four years, starting from January 1, 2012, appointed MB that is composed of three members: Edi Černjul – President and Marko Čižmek and Tihomir Nikolaš – Members.

After merger of companies ZLATNI OTOK d.d. and RABAC d.d., company Riviera Adria d.d. became the biggest tourist company in Croatia with a possibility of accommodation up to 34.000 guests in one day. In its unique portfolio Company has 17 hotels, 7 camps and 8 tourist villages on west and east Istria coast and Kvarner. During high season, the Company will have up to 2.100 employees, thus being one of the biggest employers in Istria and Croatia. Mentioned facilities, plus capacity of Dubrovnik Babin Kuk d.d. represent more than 10% of all categorized accommodation capacities of hotels, apartments and camps in Croatia, except private accommodation.

Company's permanent aim is continuous growth and development in all business segments. Expand of tourism and other assets portfolio due to merger allows further specialization and more clear positioning of tourist facilities and thus even better market recognition.

## Group results

The Management Board of the Company presents the yearly audited business report for 2012, with emphasis that presented statements have to be observed in context of forward stated changes due to result of mentioned merger

Riviera Adria d.d. Group is a tourist company consisting of company Riviera Adria d.d. from Poreč and company Dubrovnik-Babin kuk d.d. from Dubrovnik (hereinafter: Group). The business of the Group has mostly seasonal character and the main business volume Group realizes in period of second and third quarter, that is during the main tourist season.

**We emphasize that the data for the year in the income statement is not fully comparable with the previous period, as in the statements of the prior period have not been included data of the merged (then independent) companies, and now subsidiaries Rabac and Zlatni otok (data of the merged companies in the income statement of the previous period are included only in the period from September 1 till December 31, 2011).**

The Group from January 1, 2012 till December 31, 2012 realized total revenues in amount of 1,01 billion kuna, that is 263,6 million kuna or 35,19% more related to previous year 2011.

In total revenues of the Group, on the foreign market relates 86,39% (83,83% in 2011) and on the domestic 10,04% (12,96% in 2011). The revenues of the foreign market are higher in relation to 2011 for 39,33%, while the revenues of the domestic market increased for 4,66%.

Proportion of sales revenues in total revenues of Group is 96,43% (96,79% in 2011).

Sales revenues of the Group are higher for 251,5 million kuna (34,69%) in relation to same period of the previous year and amount 976,6 million kuna, out of which on the foreign market relates 875 million kuna, that is 89,59% (86,61% in 2011), while on the domestic market relates 101,6 million kuna, that is 10,41% (13,39% in 2011).

In mentioned period Group realized 4.093.740 overnights what represents an increase of 7,80% (Riviera Adria d.d. records increase of 7,66%, Dubrovnik-Babin kuk d.d. 8,74%). By destinations, in Poreč we record increase of overnights of 9%, in Dubrovnik almost 9%, in Rabac 5% and in Krk 2%.

Total revenue realized by available accommodation unit (RevPAR) significantly increased in relation to previous year; by destinations: in Poreč amounts 42.299 kuna (+13% in relation to previous year), in Dubrovnik 98.306 kuna (+13%), in Rabac 59.418 kuna (+6%) and in Krk 36.322 kuna (+6%).

Proportion of other revenues of Group (other operating revenues and financial revenues) in total revenues amounts 3,57% (3,21% in 2011). Other revenues amount 36,2 million kuna and they increased for 50,51%. Material expenses amount 307,8 million kuna with proportion in operating expenses of 33,14% (33,30% in 2011), what makes them higher for 28,51% in relation to 2011.

Personnel costs amount 233,2 million kuna with proportion of 25,11% in operating expenses (26,97% in 2011) and they increased for 20,19%.

Financial expenses amount 38,4 million kuna what is a decrease of 37,81% in relation to previous year and they represent 3,97% of total expenses (7,90% in 2011).

In mentioned period the Group realized gross profit in amount of 45,5 million kuna, net profit in amount of 44,1 million kuna and operating profit of 56,6 million kuna. A significant reduction in the loss of the company Dubrovnik-Babin kuk d.d. is noticed of 23,6 million kuna (8,5 million versus 32,1 million).

**Compared to numbers from published unaudited temporary yearly financial statements, and as a result of changes of final recordings, gross profit is shown in amount of 45,5 million kuna instead of earlier published profit of 48,8 million kuna. The decrease of gross profit is most influenced by depreciation and reservations.**

It is noted that in 2012 the depreciation rate for buildings is increased from 4% to 5% due to rapid technological obsolescence of accommodation facilities.

Gross margin of Group amounts 4,6% (-4,3% in 2011).

**As already mentioned, presented data from the statements have to be viewed in the context of the merger because the merged companies terminated their business on August 31, 2011 so in the income statement of the previous period were not included data of the merged companies (they were included only in the period from September 1 till December 31, 2011). Gross profit of the group is calculated on the equally comparable basis as explained below and is higher for 58,7 million kuna (45,5 million kuna of profit versus 13,2 million kuna of loss). Gross margin of Group, calculated on the equally comparable basis, amounts 4,6% (-1,5% in 2011).**

Total assets of the group on December 31, 2012 amount 2,66 billion kuna what is lower for 89,8 million kuna in relation to previous year.

### Company's results

The Management Board of the Company presents the yearly audited business report for 2012, with emphasis that presented statements have to be observed in context of forward stated changes due to result of mentioned merger.

**We emphasize that the data for the year in the income statement is not fully comparable with the previous period, as in the statements of the prior period have not been included data of the merged (then independent) companies, and now subsidiaries Rabac and Zlatni otok (data of the merged companies in the income statement of the previous period are included only in the period from September 1 till December 31, 2011).**

The Company in period from January 1, 2012 till December 31, 2012 realized total revenues in amount of 773,8 million kuna, that is 234,1 million kuna or 43,38% more compared to same period of 2011.

In mentioned period the Company realized gross profit in amount of 54,03 million kuna, net profit in amount of 52,67 million kuna and operating profit of 47,9 million kuna.

**Compared to numbers from published unaudited temporary yearly financial statements, and as a result of changes of final recordings, gross profit is shown in amount of 54,03 million kuna instead of earlier published profit of 55,2 million kuna. The decrease of gross profit is most influenced by item of reservations.**

It is noted that in 2012 the depreciation rate for buildings is increased from 4% to 5% due to rapid technological obsolescence of accommodation facilities.

Gross margin of Group amounts 7,2% (0,01% in 2011).

**As already mentioned, presented data from the statements have to be viewed in the context of the merger because the merged companies terminated their business on August 31, 2011 so in the income statement of the previous period were not included data of the merged companies (they were included only in the period from September 1 till December 31, 2011). When comparing non-consolidated operating income for the current period with added non-consolidated operating income of merged companies for the same period of last year, it is evident a real growth in amount of 69 million kuna (10,10%) after exclusion of interrelations. Gross profit of the Company if calculated on the equally comparable basis is higher for 35,1 million kuna (184,76%) if compared to same period last year (54 million kuna versus 18,9 million kuna). Amongst, this certainly points to positive effects of undertaken merger. Gross margin of Company, calculated on the equally comparable basis, amounts 7,2% (2,8% in 2011).**

Total assets of the Company on December 31, 2012 amount 2,17 billion kuna and is higher for 29 million kuna in relation to previous year.

### **Human resources**

On December 31, 2012 the Company was employing 1.262 employees. After successful completion of merger process a new organizational structure has been established in the central business functions, that is in Finance and accounting, Controlling, IT, Legal department and Human resources.

The existing collective agreements of merged companies remained effective until December 31, 2012 thereby guaranteed all the acquired employee rights while from January 1, 2013 applies a new unique collective agreement.

The Company plans to systematically and continuously invest in development of its human resources.

### **Risk exposure of Company and Group**

The Company's activities expose it to financial risks: market risk (including currency risk, interest rate risk, cash flow risk and price risk), credit risk and liquidity risk. In order to reduce and risks the Company uses instruments available on the market.

In order to manage price risk the Company continuously carries out activities of analyzing price movements and overall market trends.

Credit risk, i.e. the risk of loss resulting from non-payment of liabilities to Company is managed in a way of dealing with prudential companies and taking appropriate measures to ensure the proper collection of receivables.

Regarding the liquidity risk, the Company keeps a sufficient liquidity level by monitoring cash balance and harmonizing it with predicted cash flows.

The Group is also exposed to several financial risks which are usually for business and tourism companies in the Republic of Croatia. Those are market risk (foreign currency risks, interest risk of cash flow and price risk), credit risk and liquidity risk.

The Company operates on international level and is exposed to currency risk, so the movements of euro, franc or kuna can have an impact on future operating results and cash flows, especially on operating revenues and credit liabilities.

Interest rate risk mainly arises on the basis of long-term loans. Loans issued at variable rates expose the Group to cash flow interest rate risk.

In order to reduce and limit currency and interest risk, the Group uses derivatives available on the market.

The Group has no significant concentration of credit risk. Company's sales policy ensures that sales are made to customers with appropriate credit history.

Price risk exposes the Group to changes in input prices in the business.

Wise liquidity risk management implies maintaining sufficient cash amount, the availability of an adequate financial amount of credits and the ability of permanent obligations paying.

## **Independent Auditors' Report to the Shareholders of Riviera Adria d.d.**

We have audited the accompanying unconsolidated financial statements of Riviera Adria d.d. ("the Company"), which comprise the unconsolidated statement of financial position as at 31 December 2012, the unconsolidated statements of comprehensive income, changes in equity and cash flows for the year then ended, and notes, comprising a summary of significant accounting policies and other explanatory information.

### *Management's Responsibility for the Financial Statements*

Management is responsible for the preparation and fair presentation of these unconsolidated financial statements in accordance with International Financial Reporting Standards, and for such internal control as management determines is necessary to enable the preparation of unconsolidated financial statements that are free from material misstatement, whether due to fraud or error.

### *Auditors' Responsibility*

Our responsibility is to express an opinion on these financial statements based on our audit. We conducted our audit in accordance with International Standards on Auditing. Those standards require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the consolidated financial statements. The procedures selected depend on our judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, we consider internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

### *Opinion*

In our opinion, the unconsolidated financial statements give a true and fair view of the unconsolidated financial position of the Company as at 31 December 2012, and of its unconsolidated financial performance and its unconsolidated cash flows for the year then ended in accordance with International Financial Reporting Standards.

### *Other matter*

The unconsolidated financial statements of the Company as at and for the year ended 31 December 2011 were audited by another auditor who expressed an unmodified opinion on those unconsolidated financial statements on 3 April 2012.

Riviera Adria, ("the Company") is a joint-stock company for tourism services incorporated in the Republic of Croatia. The Company is registered at the Commercial Court in Rijeka –Pazin office. The ownership structure as at 31 December 2012 is disclosed in Note 26.

Parent company of Riviera Adria d.d. is Valamar Adria holding d.d. with a share of 71.89%. The ultimate controlling company is EPIC GmbH, Vienna, Austria.

The registered office of Riviera Adria d.d. is in Poreč, Stancija Kaligari 1, Croatia.

As at 31 December 2012 and 2011, the Company's shares were listed on the regular joint stock company listing on the Zagreb Stock Exchange.

As at 29 June 2011, a merger Agreement was concluded, whereby companies Zlatni Otok d.d. and Rabac d.d. were merged into Riviera Poreč d.d. The merger was registered in the Court Registry of the Commercial Court in Rijeka, Pazin office as at 31 August 2011, with legal effect as of 1 September 2011. By this registration, the merged companies Zlatni Otok d.d. and Rabac d.d. ceased to exist, and the company Riviera Poreč d.d. as the acquiring company, upon the merger changed its name to Riviera Adria d.d., and acquired all assets, all rights and all liabilities of the merged companies in exchange for shares of the acquiring company – Riviera Adria d.d. who is their sole legal successor. The effect of the merger of entities under common control is set out in Note on Merger of entities under common control.

Rabac d.d. and Zlatni Otok d.d. were both previously owned by Valamar Adria Holding d.d.

**NOTE 2 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES**

The principal accounting policies adopted in the preparation of these financial statements are set out below. These policies have been consistently applied to all the years presented.

**2.1 Basis of preparation**

The financial statements of the Company have been prepared in accordance with International Financial Reporting Standards (IFRS). The financial statements have been prepared on historical cost basis, except for the measurement of financial assets at fair value through profit or loss and available-for-sale financial assets.

The preparation of financial statements in conformity with IFRS requires the use of certain critical accounting estimates. It also requires management to exercise its judgement in the process of applying the Company's accounting policies. The areas involving a higher degree of judgement or complexity, or areas where assumptions and estimates are significant to the financial statements, are disclosed in Note 4.

The Company has also prepared consolidated financial statements in accordance with IFRS for the Company and its subsidiaries (the "Group"). In the consolidated financial statements, subsidiaries - which are those companies in which the Group, directly or indirectly, has an interest of more than one half of the voting rights or otherwise has power to exercise control over the operations - have been fully consolidated. The consolidated financial statements can be obtained from Riviera Adria d.d., Stancija Kaligari 1, Poreč.

Users of these unconsolidated financial statements should read them together with the Group's consolidated financial statements as at and for the year ended 31 December 2012 in order to obtain full information on the financial position, results of operations and changes in financial position of the Group as a whole.

**NOTE 2 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)**

**2.1 Basis of preparation (continued)**

**2.1.1 New standards and interpretations not yet adopted**

A number of new standards, amendments to standards and interpretations are effective but not mandatory for annual periods beginning after 1 January 2012, and have not been applied in preparing these unconsolidated financial statements. None of these are expected to have a significant effect on the unconsolidated financial statements of the Group or the Company and early adoption is not planned.

**2.2 Investments in subsidiaries**

Subsidiaries are those entities in which Riviera Adria d.d., directly or indirectly, has an interest of more than one half of the voting rights or otherwise has power to govern the financial and operating policies. The Company carries subsidiaries disclosed in Note on Investment in subsidiaries according to the cost method, less impairment, where required. The Company does not control any other enterprises.

**2.3 Merger of entities from parties under common control**

Merger of entities from parties under common control are accounted for using the pooling of interest method. Under this method, the assets and liabilities of the entity under common control transferred at the successor entity's carrying amounts. Related goodwill inherent in the predecessor entity's original acquisitions is also recorded in these financial statements. Any difference between the carrying amount of net assets, including the predecessor entity's goodwill, and the consideration paid is accounted for in these financial statements as an adjustment to equity.

**2.4 Foreign currencies**

*(a) Functional and presentation currency*

Items included in the financial statements of the Company are measured using the currency of the primary economic environment in which the Company operates ('the functional currency'). The financial statements are presented in Croatian kuna (HRK), which is the Company's functional and presentation currency, rounded to the nearest thousand.

*(b) Transactions and balances*

Foreign currency transactions are translated into the functional currency using the exchange rates prevailing at the dates of the transactions. Foreign exchange gains and losses resulting from the settlement of such transactions and from the translation at year-end exchange rates of monetary assets and liabilities denominated in foreign currencies are recognised in the statement of comprehensive income.

Foreign exchange gains and losses relating to borrowings and cash and cash equivalents are recorded in the statement of comprehensive income within 'finance costs – net'. All other foreign exchange losses and gains are recorded in the statement of comprehensive income within 'other (losses)/gains-net'

**2.5 Segment reporting**

Operating segments are reported in a manner consistent with the internal reporting provided to the chief operating decision-maker. The chief operating decision-maker is the person or group that allocates resources to and assesses the performance of the operating segments of an entity. The chief operating decision-maker is the Company's Management and the company Valamar hoteli i ljetovališta d.o.o. in the main segment (Tourism).

NOTE 2 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

**2.6 Property, plant and equipment**

2

3 Property, plant and equipment is included in the statement of financial position at historical cost less accumulated depreciation and provision for impairment, where required. Historical cost includes expenditure that is directly attributable to the acquisition of the items.

Subsequent costs are included in the asset's carrying amount or recognised as a separate asset, as appropriate, only when it is probable that future economic benefits associated with the item will flow to the Company and the cost of the item can be measured reliably. All other repairs and maintenance are charged to the statement of comprehensive income during the financial period in which they are incurred. The cost of replacement of larger items of property, plant and equipment is capitalised, and the carrying value of the replaced parts are derecognised.

Land, arts and assets under construction are not depreciated. Depreciation of other items of property, plant and equipment is calculated using the straight-line method to allocate their cost over their estimated useful lives, as follows:

Buildings	10 – 20 years (2011: 10-25)
Plant and equipment	4 – 10 years
Furniture, tools and horticulture	3 – 10 years

Depreciation is calculated for each asset until the asset is fully depreciated or to its residual values if significant. The residual value of an asset is the estimated amount that the Company would currently obtain from disposal of the asset less the estimated costs of disposal, if the asset were already of the age and in the condition expected at the end of its useful life. The residual value of an asset is nil if the Company expects to use the asset until the end of its physical life. The assets' residual values and useful lives are reviewed, and adjusted if appropriate, at each reporting date.

An asset's carrying amount is written down immediately to its recoverable amount if the asset's carrying amount is greater than its estimated recoverable amount.

Gains and losses on disposals are determined by comparing the proceeds with carrying amount, and are recognised within 'other (losses)/gains-net' in the statement of comprehensive income.

During 2012 the Company conducted a review of estimated useful life of buildings which resulted in the expected useful lives of buildings being reassessed from 25 to 20 years.

**2.7 Intangible assets**

Acquired computer software licences are capitalised on the basis of the costs incurred to acquire and bring to use the specific software. These costs are amortised over their estimated useful lives of up to 4 years.

**NOTE 2 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)**

**2.8 Non-current assets held for sale**

Non-current assets are classified in the statement of financial position as ‘Non-current assets held for sale’ if their carrying amount will be recovered principally through a sales transaction rather than through continuing use. Non-current assets classified as held for sale are measured at the lower of their carrying value and fair value less costs to sell. The assets should be available for immediate sale in their present condition and their sale should be very likely. Gains/losses realised upon disposal of non-current assets held for sale are recognised in ‘other (losses)/gains-net’ in the statement of comprehensive income.

**2.9 Impairment of non-financial assets**

Assets that have an indefinite useful life are not subject to amortisation and are tested annually for impairment. Assets that are subject to amortisation and depreciation are reviewed for impairment whenever events or changes in circumstances indicate that the carrying amount may not be recoverable. An impairment loss is recognised for the amount by which the asset’s carrying amount exceeds its recoverable amount. The recoverable amount is the higher of an asset’s fair value less costs to sell and value in use. For the purposes of assessing impairment, assets are grouped at the lowest levels for which there are separately identifiable cash flows (19 hotels, 9 apartments and 8 campsites as cash-generating units). Non-financial assets that suffered impairment are reviewed for possible reversal of the impairment at each reporting date.

**2.10 Financial assets**

**2.10.1 Classification**

The Company classifies its financial assets in the following categories: financial assets at fair value through profit or loss, loans and receivables and available for sale. The classification depends on the purpose for which the financial assets were acquired. Management determines the classification of its financial assets at initial recognition and re-evaluates this designation at every reporting date.

*(a) Financial assets at fair value through profit or loss*

This category includes financial assets held for trading. A financial asset is classified in this category if acquired principally for the purpose of selling in the short term or if so designated by management. Assets in this category are classified as current assets except derivative financial instruments stated in Note 2.12.

*(b) Loans and receivables*

Loans and receivables are non-derivative financial assets with fixed or determinable payments that are not quoted in an active market. They are included in current assets, except for maturities greater than 12 months after the reporting date. These are classified as non-current assets. Loans and receivables comprise trade and other receivables and cash and cash equivalents in the statement of financial position.

*(c) Available-for-sale financial assets*

Available-for-sale financial assets are non-derivative assets that are either designated in this category or not classified in any of the other categories. They are included in non-current assets unless management intends to dispose of the investment within 12 months from the reporting date. Available-for-sale financial assets are carried at fair value.

**NOTE 2 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)**

**2.10 Financial assets (continued)**

**2.10.2 Measurement and recognition**

Regular purchases and sales of financial assets are recognised on the trade-date – the date on which the Company commits to purchase or sell the asset. Investments are initially recognised at fair value plus transaction costs for all financial assets not carried at fair value through profit or loss. Financial assets carried at fair value through profit or loss are initially recognised at fair value and transaction costs are expensed in the statement of comprehensive income. Financial assets are derecognised when the rights to receive cash flows from the investments have expired or have been transferred and the Company has transferred substantially all risks and rewards of ownership. Available-for-sale financial assets and financial assets at fair value through profit or loss are subsequently carried at fair value. Loans and receivables are subsequently carried at amortised cost using the effective interest method.

Gains or losses arising from changes in the fair value of the ‘financial assets at fair value through profit or loss’ category are presented in the statement of comprehensive income within ‘other (losses)/gains- net’ in the period in which they arise. Gain and losses arising from changes in the fair value of interest rate swap are presented in the statement of comprehensive income within ‘financial costs/income’. Dividend income from financial assets at fair value through profit or loss is recognised in the statement of comprehensive income as part of ‘other income’ when the Company’s right to receive payment is established.

Changes in the fair value of monetary and non-monetary securities classified as available-for-sale are recognised in equity (other comprehensive income). When securities classified as available-for-sale are sold or impaired, the accumulated fair value adjustments recognised in equity are included in the statement of comprehensive income as ‘gains and losses from investment securities’.

Interest on available-for-sale securities calculated using the effective interest method is recognised in the statement of comprehensive income as part of other income. Dividends on available-for-sale equity instruments are recognised in the statement of comprehensive income as part of other income when the Company’s right to receive payments is established.

The fair values of quoted investments are based on current bid prices. If the market for a financial asset is not active (and for unlisted securities), the Company establishes fair value by using valuation techniques. These include the use of recent arm’s length transactions and references to other instruments that are substantially the same, discounted cash flow analysis and option pricing models, making maximum use of market inputs and relying as little as possible on entity-specific inputs.

**2.11 Impairment of financial assets**

*(a) Assets carried at amortised cost*

The Company assesses at each reporting date whether there is objective evidence that a financial asset or group of financial assets is impaired. A financial asset or a group of financial assets is impaired and impairment losses are incurred if, and only if, there is objective evidence of impairment as a result of one or more events that occurred after the initial recognition of the asset (a ‘loss event’) and that loss event (or events) has an impact on the estimated future cash flows of the financial asset or group of financial assets that can be reliably estimated.

**NOTES TO UNCONSOLIDATED FINANCIAL STATEMENTS**

**FOR THE YEAR ENDED 31 DECEMBER 2012**

---

**NOTE 2 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)**

**2.11 Impairment of financial assets (continued)**

*(a) Assets carried at amortised cost (continued)*

A provision for impairment of trade receivables is established when there is objective evidence that the Company will not be able to collect all amounts due according to the original terms of receivables. Significant financial difficulties of the debtor, probability that the debtor will enter bankruptcy, and default or delinquency in payments are considered indicators that the trade receivable is impaired. The amount of the provision is the difference between the asset's carrying amount and the present value of estimated future cash flows, discounted at the original effective interest rate. The amount of the provision is recognised in the statement of comprehensive income within "other operating expenses". Subsequent recoveries of amounts previously written off are credited against 'other operating expenses' in the statement of comprehensive income.

*(b) Assets classified as available for sale*

The Company assesses at each reporting date whether there is objective evidence that a financial asset or a group of financial assets is impaired. In the case of equity investments classified as available-for-sale, a significant or prolonged decline in the fair value of the security below its cost is considered in determining whether the assets are impaired. If any such evidence exists for available-for-sale financial assets, the cumulative loss – measured as the difference between the acquisition cost and the current fair value, less any impairment loss on that financial asset previously recognised in profit or loss – is removed from equity and recognised in the statement of comprehensive income. Impairment losses recognised in the statement of comprehensive income on equity instruments are not reversed through the statement of comprehensive income and is shown within 'other (losses)/gains-net'.

If, in a subsequent period, the fair value of a debt instrument classified as available for sale increases and the increase can be objectively related to an event occurring after the impairment loss was recognised in profit or loss, the impairment loss is reversed through the statement of comprehensive income.

**2.12 Derivative financial instruments**

Derivative financial instruments include foreign exchange forward contracts and Interest Rate Swap (IRSwap) contracts. Derivative financial instruments are initially recognised in the statement of financial position at fair value. Fair values are determined through pricing models, if appropriate. All derivatives are recognised in the statement of financial position as assets when their fair value is positive and as liabilities when their fair value is negative. These derivatives do not meet the conditions for hedge accounting and are therefore treated as derivatives held for trading

**NOTE 2 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)**

**2.13 Leases**

Leases in which a significant portion of risks and rewards of ownership are not retained by the Company are classified as operating leases. Payments made under operating leases are charged to the statement of comprehensive income on a straight-line basis over the period of the lease.

The Company leases certain property, plant and equipment. Leases of property, plant and equipment, where the Company has substantially all the risks and rewards of ownership, are classified as finance leases. Finance leases are capitalised at the lease's commencement at the lower of fair value of the leased property or the present value of minimum lease payments.

Each lease payment is allocated between the liability and finance charges so as to achieve a constant rate of interest on the finance balance outstanding. The corresponding rental obligations, net of finance charges, are included in other non-current liabilities. The interest element of the finance costs is charged to the statement of comprehensive income over the lease period so as to produce a constant periodic rate of interest on the remaining balance of the liability for each period. The property, plant and equipment acquired under finance leases are depreciated over the shorter of the useful life or the lease term.

**2.14 Inventories**

Inventories of raw materials and spare parts are stated at the lower of cost, determined using the weighted average method, and net realisable value. Net realisable value is the estimated selling price in the ordinary course of business, less applicable variable selling expenses.

**2.15 Trade and loan receivables**

Trade receivables are amounts due from customers for merchandise sold or services performed in the ordinary course of business. If collection is expected in one year or less, they are classified as current assets. If not, they are presented as non-current assets.

Trade receivables are recognised initially at fair value and subsequently measured at amortised cost using the effective interest method, less provision for impairment.

**2.16 Cash and cash equivalents**

Cash and cash equivalents comprise cash in hand, deposits held at call with banks and other short-term highly liquid instruments with original maturities of three months or less.

**NOTES TO UNCONSOLIDATED FINANCIAL STATEMENTS**

**FOR THE YEAR ENDED 31 DECEMBER 2012**

---

**NOTE 2 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)**

**2.17 Borrowings**

Borrowings are recognised initially at fair value, net of transaction costs incurred. Borrowings are subsequently stated at amortised cost; any difference between the proceeds (net of transaction costs) and the redemption value is recognised in the statement of comprehensive income over the period of the borrowings using the effective interest method.

Fees paid on the establishment of loan facilities are recognised as transaction costs of the loan to the extent that it is probable that some or all of the facility will be drawn down. In this case, the fee is deferred until the draw-down occurs. To the extent there is no evidence that it is probable that some or all of the facility will be drawn down, the fee is capitalised as a pre-payment for liquidity services and amortised over the period of the facility to which it relates.

Borrowings are classified as current liabilities unless the Company has an unconditional right to defer settlement of the liability for at least 12 months after the reporting date.

**2.18 Share capital**

Ordinary shares are classified as equity. Incremental costs directly attributable to the issue of new shares are shown in equity as a deduction, net of tax, from the proceeds. Where the Company purchases its equity share capital (treasury shares), the consideration paid, including any directly attributable incremental costs (net of income taxes) is deducted from equity attributable to the Company's equity holders until the shares are cancelled or reissued. Where such shares are subsequently reissued, any consideration received, net of any directly attributable incremental transaction costs and the related income tax effects, is included in equity attributable to the Company's equity holders.

**2.19 Trade payables**

Trade payables are obligations to pay for goods or services that have been acquired in the ordinary course of business from suppliers. Accounts payable are classified as current liabilities if payment is due within one year or less. If not, they are presented as non-current liabilities.

Trade payables are recognised initially at fair value and subsequently measured at amortised cost using the effective interest method.

**2.20 Current and deferred income tax**

The tax expense for the period comprises current and deferred tax. Tax is recognised in the statement of comprehensive income, except to the extent that it relates to items recognised in other comprehensive income or directly in equity. In that case tax is also recognised in other comprehensive income or directly in equity.

The current income tax charge is calculated at a rate of 20% according to Croatian laws and regulations. Management periodically evaluates positions taken in tax returns with respect to situations in which the applicable tax regulation is subject to interpretation. It establishes provisions where appropriate on the basis of amounts expected to be paid to the tax authorities.

NOTE 2 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

**2.20 Current and deferred income tax (continued)**

Deferred income tax is recognised using the liability method, on temporary differences arising between the tax bases of assets and liabilities and their carrying amounts in the financial statements. However, the deferred income tax is not accounted for if it arises from initial recognition of an asset or liability in a transaction other than a business combination that at the time of the transaction affects neither accounting nor taxable profit or loss. Deferred income tax is determined using tax rates (and laws) that have been enacted or substantially enacted by the reporting date and are expected to apply when the related deferred income tax asset is realised or the deferred income tax liability is settled.

Deferred income tax assets are recognised to the extent that it is probable that future taxable profit will be available against which the temporary differences can be utilised.

Deferred income tax is provided on temporary differences arising on investments in subsidiaries and associates, except where the timing of the reversal of the temporary difference is controlled by the Company and it is probable that the temporary difference will not reverse in the foreseeable future.

**2.21 Employee benefits**

*(a) Pension obligations and post-employment benefits*

In the normal course of business through salary deductions, the Company makes payments to mandatory pension funds on behalf of its employees as required by law. All contributions made to the mandatory pension funds are recorded as salary expense when incurred. The Company does not have any other pension scheme and consequently, has no other obligations in respect of employee pensions. In addition, the Company is not obliged to provide any other post-employment benefits.

*(b) Termination benefits*

Termination benefits are recognised when the Company terminates employment contracts of employees before their normal retirement date in accordance with pension and labour regulations. The Company recognises termination benefits when it has made an individual decision on the termination of an employment agreement due to business or personal reasons, whereby the liability to pay termination benefits is objectively determined, in accordance with regulations and by-laws. Benefits falling due more than 12 months after the reporting date are discounted to the present value.

*(c) Short-term employee benefits*

The Company recognises a provision for bonuses where contractually obliged or where there is a past practice that has created a constructive obligation. In addition, the Company recognises a liability for accumulated compensated absences based on unused vacation days at the reporting date.

**NOTE 2 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)**

**2.22 Revenue recognition**

Revenue comprises the fair value of the consideration received or receivable for the sale of services in the ordinary course of the Company's activities. Revenue is shown net of value-added tax. The Company recognises revenue when the amount of revenue can be reliably measured, it is probable that future economic benefits will flow to the entity and specific criteria have been met for each of the Company's activities as described below.

*(a) Sales of services*

Revenue from hotel and tourist services is generally recognised in the period the services are provided.

Revenue from fixed-price contracts for services is generally recognised in the period the services are provided, using a straight-line basis over the terms of contracts with tourist agencies and tour operators.

*b) Rental services*

Revenue from rental services is generally recognised in the period the services are provided, using a straight-line basis over the terms of contracts with lessees.

*(c) Interest income*

Interest income is recognised on a time-proportion basis using the effective interest method. When a receivable is impaired, the Company reduces the carrying amount to its recoverable amount, being the estimated future cash flow discounted at the original effective interest rate of the instrument, and continues unwinding the discount as interest income. Interest income on impaired loans is recognised using the original effective interest rate.

*(d) Dividend income*

Dividend income is recognised when the right to receive payment is established.

**2.23 Provisions**

Provisions are recognised when: the Company has a present legal or constructive obligation as a result of past events; it is more likely than not that an outflow of resources will be required to settle the obligation; and the amount has been reliably estimated.

Where there are a number of similar obligations, the likelihood that an outflow will be required in settlement is determined by considering the class of obligations as a whole. A provision is recognised even if the likelihood of an outflow with respect to any one item included in the same class of obligations may be small.

Provisions are measured at the present value of the expenditures expected to be required to settle the obligation using a pre-tax rate that reflects current market assessments of the time value of money and the risks specific to the obligation. The increase in the provision due to passage of time is recognised as interest expense.

**NOTES TO UNCONSOLIDATED FINANCIAL STATEMENTS**

**FOR THE YEAR ENDED 31 DECEMBER 2012**

---

**NOTE 2 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)**

**2.24 Earnings per share**

Earnings per share is determined by dividing the profit or loss attributable to equity holders of the Company by the weighted average number of participating shares outstanding during the reporting year.

**2.25 Value added tax**

The Tax Authorities require the settlement of VAT on a net basis. VAT related to sales and purchases is recognised and presented in the statement of financial position on a net basis. Where provision has been made for impairment of receivables, impairment loss is recorded for the gross amount of the debtor, including VAT.

**NOTE 3 – FINANCIAL RISK MANAGEMENT**

**3.1 Financial risk factors**

The Company's activities expose it to variety of financial risks: market risk (including currency risk, cash flow and fair value interest rate risk and price risk), credit risk and liquidity risk. The Company does not have a written risk management programme, but overall risk management in respect of these risks is carried out by the Company's Management. Meanwhile, the Company actively hedges interest rate and foreign exchange risks through instruments available in the market for the purpose of decreasing these risks. Internal objectives and policies of risk management relate to a hedge of foreign-currency inflows during the seasonal activity and a partial interest hedge of the loan principal.

*(a) Market risk*

*(i) Foreign exchange risk*

The Company operates internationally and is exposed to foreign exchange risk arising from various currency exposures, primarily with respect to the Euro (EUR) and Swiss franc (CHF). Foreign exchange risk arises from future commercial transactions, recognised assets and liabilities.

The majority of foreign sales revenue and long-term debt is denominated in EUROS and Swiss francs (Note 28). Therefore, movements in exchange rates between the EURO, Swiss franc and Croatian kuna may have an impact on the results of future operations and future cash flow. The Company uses derivative instruments in accordance with operating estimates and expected market movements.

At 31 December 2012, if the EUR had weakened/strengthened by 1% against the HRK, with all other variables held constant, the net profit for the year would have been HRK 124 thousand (lower)/higher mainly as a result of foreign exchange gains/(losses) on translation of EUR denominated trade receivables, borrowings, foreign cash funds and bonds of Republic of Croatia and bonds of Republic of Croatia.

At 31 December 2011, if the EUR had weakened/strengthened by 2% against the HRK, with all other variables held constant, the net profit for the year would have been HRK 397 thousand higher/(lower) mainly as a result of foreign exchange gains/(losses) on translation of EUR denominated trade receivables, borrowings, trade and other payables, foreign cash funds and bonds of Republic of Croatia.

**NOTES TO UNCONSOLIDATED FINANCIAL STATEMENTS**

**FOR THE YEAR ENDED 31 DECEMBER 2012**

---

**NOTE 3 – FINANCIAL RISK MANAGEMENT (continued)**

**3.1 Financial risk factors (continued)**

*(a) Market risk (continued)*

*(i) Foreign exchange risk (continued)*

At 31 December 2012, if the CHF had weakened/strengthened by 1% against the HRK, with all other variables held constant, the net profit for the year would have been HRK 1,002 thousand higher/(lower) mainly as a result of foreign exchange gains/(losses) on translation of CHF-denominated borrowings and foreign cash funds.

At 31 December 2011, if the CHF had weakened/strengthened by 4% against the HRK, with all other variables held constant, the net profit for the year would have been HRK 1,578 thousand (lower)/higher, mainly as a result of foreign exchange gains/(losses) on translation of CHF-denominated borrowings and foreign cash funds.

*(ii) Cash flow and fair value interest rate risk*

The Company has interest-bearing assets and the Company's income and operating cash flows are influenced by changes in market interest rates. The Company's interest rate risk arises from borrowings. Borrowings issued at variable rates expose the Company to cash flow interest rate risk. Borrowings issued at fixed rates expose the Company to fair value interest rate risk. The Company uses derivative instruments to actively hedge cash flow and fair value interest rate risk.

At 31 December 2012, if interest rates on currency-denominated borrowings had been higher/lower by 1%, with all other variables held constant, the profit for the year would have been HRK 2,122 thousand (lower)/higher, mainly as a result of higher/(lower) interest expense on variable-rate borrowings.

At 31 December 2011, if interest rates on currency-denominated borrowings had been higher/lower by 0.23%, with all other variables held constant, loss for the year would have been HRK 517 thousand higher/(lower), mainly as a result of higher/lower interest expense on variable-rate borrowings.

At 31 December 2012, if interest rates on currency-denominated deposits had been higher/lower by 1% and 0.48% for 2011, with all other variables held constant, the effect on the net profit for the year would have been HRK 406 thousand higher/(lower) (2011: HRK 283 thousand), mainly as a result of higher/lower interest income on variable-rate deposits.

*(iii) Price risk*

The Company owns equity securities and is exposed to price risk of listed equity securities, which are classified as financial assets available for sale and bonds of the Republic of Croatia and is exposed to price risk of listed debt securities, which are classified as financial assets at fair value through profit or loss. The Company invests in securities listed on the Zagreb Stock Exchange (ZSE).

As at 31 December 2012 and 2011, if the indices of the ZSE had been higher/lower by 16.63% for 2012 and 4.59% for 2011 (which was the average index movement), with all other variables held constant, reserves within equity and other comprehensive income would have been HRK 291 thousand (2011: HRK 101 thousand) higher/lower as a result of fair value gains/losses on equity securities available for sale.

**NOTE 3 – FINANCIAL RISK MANAGEMENT (continued)**

**3.1 Financial risk factors (continued)**

*a) Market risk (continued)*

*(iii) Price risk (continued)*

As at 31 December 2012, if the index of the ZSE had been higher/lower by 1.64%, (31 December 2011: 1.59%) with all other variables held constant, the net profit for the year would have been HRK 14 thousand (31 December 2011: HRK 13 thousand) higher/(lower) as a result of gains/losses on financial assets at fair value through profit or loss.

*(b) Credit risk*

The Company has no significant concentrations of credit risk. Credit risk arises from cash, time deposits and trade receivables. The Company has policies in place to ensure that sales of products are made to customers with an appropriate credit history, i.e. the Company's policy ensures that sales to customers are settled through advance payments, in cash or by major credit cards (individual customers). The Company holds advances, bills of exchange, promissory notes and periodically mortgage security for collection. Provisions for impairment of trade, loan and other receivables have been made based on credit risk assessment. Management monitors the collectability of receivables through weekly reports on individual balances of receivables. Impairment of trade receivables is performed when there is objective evidence that the Company will not be able to collect all amounts due according to the original terms of receivables. The amount of all trade and other receivables has been written down to their recoverable amount. The Company has policies that limit the amount of credit exposure to any financial institution. Cash transactions are carried out through high quality Croatian banks. The Company has only short-term highly liquid instruments with maturity periods of three months or less.

*(c) Liquidity risk*

Prudent liquidity risk management implies maintaining sufficient cash, the availability of funding through an adequate amount of committed credit facilities and the ability to meet all obligations. The Company aims to maintain flexibility in funding by keeping committed credit lines available. Management daily monitors available cash resources based on reports on the balance of cash and liabilities.

The table below analyses financial liabilities of the Company according to contracted maturities at the reporting date. The amounts stated below represent undiscounted cash flows. Balances due within 12 months equal their carrying balances as the impact of discounting is not significant.

## 3.2 Capital management

The Company's objectives when managing capital are to safeguard the Company's ability to continue as a going concern in order to provide returns for the owner and to maintain an optimal capital structure to reduce the cost of capital. In accordance with the Companies Act, the Company is committed to maintain the level of capital above HRK 200 thousand as required for joint stock companies. Over the past years, the Company seeks to realise positive financial results that are used to increase shareholder's equity.

## 3.3 Fair value estimation

The fair value of financial instruments traded in active markets is based on quoted market prices at the reporting date. The quoted market price used for financial assets held by the Company is the current bid price.

The fair value of financial instruments that are not traded in an active market is determined by using valuation techniques. The Company uses a variety of methods and makes assumptions that are based on market conditions existing at each reporting date.

The carrying value less impairment provision of trade receivables and payables are assumed to approximate their fair values.

Quoted market prices for similar instruments are used for long-term debt. The fair value of financial liabilities for disclosure purposes is estimated by discounting the future contractual cash flows at the current market interest rate that is available to the Company for similar financial instruments.

## NOTE 3 – FINANCIAL RISK MANAGEMENT (continued)

## 3.3 Fair value estimation (continued)

*Fair value hierarchy*

IFRS 7 specifies a hierarchy of valuation techniques based on whether the inputs to those valuation techniques are observable or unobservable. Observable inputs reflect market data obtained from independent sources; unobservable inputs reflect the Company's market assumptions. These two types of inputs have created the following fair value hierarchy:

- Level 1 – Quoted prices (unadjusted) in active markets for identical assets or liabilities.
- Level 2 – Inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly (that is, as prices) or indirectly (that is, derived from prices).
- Level 3 – inputs for the asset or liability that are not based on observable market data (unobservable inputs).

The following table presents assets measured at fair value as at:

**NOTE 4 – CRITICAL ACCOUNTING ESTIMATES**

Estimates are continually evaluated and are based on historical experience and other factors, including expectations of future events that are believed to be reasonable under the circumstances. The Company makes estimates and assumptions concerning the future. The resulting accounting estimates will, by definition, seldom equal the related actual results. The estimates and assumptions that have a significant risk of causing a material adjustment to the carrying amounts of assets and liabilities within the next financial year are discussed below.

*(a) Estimated useful life and impairment of property, plant and equipment*

By using a certain asset, the Company uses the economic benefits contained in this asset, which diminish more intensely with economic and technological aging. Consequently, in the process of determining the useful life of an asset, in addition to assessing the expected physical utilisation, it is necessary to consider the changes in demand on the tourism market, which will cause a faster economic obsolescence as well as a more intense development of new technologies. Current business operations in the hotel industry impose the need for more frequent investments, and this circumstance contributes to the fact that the useful life of an asset is decreasing.

Based on historical information, and in line with the technical department, the useful life of buildings was assessed by Management to be 10-20 years. The useful lives of equipment and other assets have also been assessed.

The useful lives will be periodically revised to reflect any changes in circumstances since the previous assessment. Changes in estimate, if any, will be reflected prospectively in a revised depreciation charge over the remaining, revised useful life.

If the depreciation rates on property, plant and equipment had been 5% higher/lower, with all other variables held constant, the profit for the year would have been HRK 8,025 thousand lower/higher (2011: loss for the year would have been HRK 5,662 thousand higher/lower), and the net carrying amount of property, plant and equipment would have been HRK 8,025 thousand (2011: HRK 5,662 thousand) lower/higher.

*(b) Land ownership*

The Law on Tourist and Other Construction Land unassessed during privatisation (Official Gazette No. 92/10, hereinafter the Law), which entered into force on 1 August 2010, mandates companies to submit the relevant requirements under this law within six months from the date of its entry into force (up to 1 February 2011) related to land not evaluated or not recorded in companies' registered capital. On 28 January 2011, regulations were issued elaborating in more detail the manner of complying with the stated law (Official Gazette No. 12/11). On 31 January 2011, in line with provisions of the Law and mentioned regulations for property not evaluated in the transformation and privatisation process (tourist land), the Company submitted the relevant requirements to the governing authorities for concessions on the tourist land in camps, hotels and tourist resorts and requirements for determining the forms and sizes of land (plots) that are in line with the ground plans of evaluated buildings constructed on them and land for regular use of these buildings. During 2011, in the procedures initiated, and in line with requirements of the governing authorities, the Company delivered various statements, documentation, made propositions for dividing the land, etc. During 2012, out of all procedures initiated, only four first instance decisions were made in the process of determining land parcels for which complaints were filed. The appellate body returned two subjects for retrial (for touristic camp Lanterna and Solaris in Poreč and hotel Valamar Sanfior in Rabac), while two procedures (for buildings in camps Ježevac and Politin on the island of Krk) are still in process on second instance. During the year 2012, invoices for part of concession fees were issued and paid according to Regulation (so called advances in amounting 50% of proposed fee). Until 31 December 2012 no legal proceedings for concessions and determining land parcels have been finalized. At the moment, negative impact on the financial position and results of the Company is not expected.

The Company reports to Management using the Uniform System of Accounts for the Lodging Industry (USALI) method. This methodology is an internationally recognised uniform hotel reporting system, which meets the preconditions for the comparison of data in an international setting. Reporting is performed on several hierarchical and organisational levels in the company, whereby the basis comprises responsibility centres that may be organised as cost, revenue, profit and investment centres. The Company's responsibility centres are profit centres whose operating results, i.e. profit is the responsibility of their directors. For the purposes of reporting under the USALI method the Company implemented an integral IT system, which is based on a detailed accounting system supported by appropriate IT application software.

**NOTE 12 – INCOME TAX (continued)**

In accordance with the regulations of the Republic of Croatia, the Tax Administration may at any time inspect the Company's books and records within 3 years following the year in which the tax liability was reported, and may impose additional tax assessments and penalties.

Tax Administration has issued a ruling concerning the tax audit for year 2010 for the company Rabac d.d. which was merged with the Company Riviera Adria d.d. on 1 September 2011. According to the Decision, it is required to increase the tax liability by HRK 4,428 thousand. The Company has appealed the aforementioned decision. The procedure is in progress, the Company believes that the outcome of the above will not have material effect on the financial position and performance of the Company.

**NOTE 13 – EARNINGS PER SHARE**

**Basic**

Basic earnings per share is calculated based on profit for the year and the weighted average number of shares ordinary in issue during the year, excluding ordinary shares purchased by the Company and held as treasury shares.

**Diluted**

Diluted earnings per share is equal to basic earnings per share, since the Company did not have any convertible instruments and share options outstanding during both years.

<b>Total</b>	<b>106,546,340</b>	<b>1,065,463</b>	<b>100.00</b>

/iii/ During the year 2012 there were no changes in shareholders' equity nor in the amount or in the nominal value of share compared to 31 December 2011.

Based on the decision of the Company's General Assembly held on 29 June 2011, registered capital was decreased by HRK 365,351,700.00 from HRK 1,096,055,100.00 to HRK 730,703,400.00. The registered capital was decreased by lowering nominal value per share by HRK 100.00 from HRK 300.00 to the amount of HRK 200.00. Also, the decision was made that one share with a nominal value of HRK 200.00 was divided into 20 ordinary shares with a nominal value of HRK 10.00 per share. Due to merger of companies Rabac d.d. and Zlatni Otok d.d., the registered capital was increased by HRK 334,760,000.00 from HRK 730,703,400.00 to HRK 1,065,463,400.00. The registered capital was increased by issuing 33,476,000 new ordinary shares with a nominal value of HRK 10 per share. As compensation for transferred assets of the merged companies, shareholders acquired new shares of the merged companies as follows: for 1 share of merged company Rabac, with a nominal value of HRK 370, they acquired 24.59 shares of the Company with a nominal value of HRK 10 (ratio 24.59:1) and shareholders of Zlatni Otok acquired 24.01 shares of the Company with a nominal value of HRK 10 for 1 share with a nominal value of HRK 360 (ratio 24.01:1). For shareholders of the merged companies that did not acquire a whole number of shares following the calculation, the Company rounded the appropriate number of shares to the next highest whole number and additional shares required for the purpose of merger were secured from the Company's treasury shares. For this purpose, 1,083 treasury shares amounting to HRK 28,099 were used, which resulted in total consideration in shares transferred of HRK 334,788,000. On 31 August 2011, all of the aforementioned changes were entered in the Court Registry, and corporative transaction was performed by Central Depository and Clearing Company (in line with effective regulations).

**NOTES TO UNCONSOLIDATED FINANCIAL STATEMENTS**

**FOR THE YEAR ENDED 31 DECEMBER 2012**

---

**NOTE 26 – EQUITY (continued)**

Based on the decision of the Company's General Assembly from 8 July 2010, in 2012 the Company, for the purpose of awarding employees according to the projects of work efficiency management, acquired and reissued treasury shares. In 2012, on the organised market a total of 2,927,602 treasury shares were acquired, which comprise 2.74% of the Company's registered capital, and 46,060 treasury shares were reissued, which comprise 0.04% of the Company's registered capital.

As at 31 December 2012, the Company holds 3,229,176 treasury shares, nominal value of HRK 32,291 thousand (2011: 347,634 treasury shares, nominal value of HRK 3,476 thousand), which represents 3.03% (2011: 0.32%) of the Company's registered capital. As at 31 December 2012, share premium for relating treasury shares amounted to HRK 13,129 thousand (2011: HRK 8,479 thousand).

**NOTE 27 – SHARE PREMIUM, RESERVES AND RETAINED EARNINGS**

**a) Share premium**

As at 31 December 2012 share premium amounts to HRK 465,108 thousand (2011: HRK 473,570 thousand). This amount comprise HRK 365,352 thousand (2011.: 365,352 thousand) which was created by reduction of the share capital, and of HRK 116 697 thousand (2011.: 116,697 thousand) which was created as a result of a company merger Zlatni Otok d.d. and Rabac d.d. to the Company Riviera Adria d.d., less HRK 16,941 thousand (2011.: 8479 thousand) which arose from transactions with treasury shares.

**b) Reserve for reinvested profit**

During 2012 the Company realised profit before tax of HRK 54,031 thousand. On 19 February 2013, the Management of the Company adopted a decision to reinvest profits in the amount of HRK 52,200 thousand, which will be registered during 2013 as an increase of the Company's share capital.

In accordance with the applicable tax regulations, the Company recognised the amount of reinvested profit amount as a tax incentive resulting in a decrease in current tax expense in the amount of HRK 10,440 thousand.

It should be noted that the decision to reinvest profits and consequent increase of share capital is subject to final approval by the General Assembly.

The management of the Company is assured that the above stated increase in share capital from reinvested profits will be approved by the General Assembly of the Company, after the required procedures will be carried out considering these procedures are in compliance with the policy of the Company that the profit for the year is not distributed but retained and invested, as in previous Supervisory board decisions regarding use of the profit.

Pursuant to the above, HRK 52,200 thousand relates to the amount of profit that will be reinvested and registered as an increase in the Company's share capital and as such is not considered distributable to the shareholders and is disclosed within 'reinvested profit reserves'. If the share capital increase is not registered by 31 October 2013, the tax incentive will be reversed, resulting in a tax expense of HRK 10,440 thousand, plus interests.

**NOTE 31 – CONTINGENCIES AND COMMITMENTS**

**Legal proceedings**

In the ordinary course of business, the Company is plaintiff and defendant in various legal actions. In the financial statements for the year ended 31 December 2012, provisions were made for certain legal proceedings have been made for which the Company anticipates outflows in the amount of HRK 1,645 thousand.

For the year ended 31 December 2011, provisions were made for certain legal proceedings have been made for which the Company anticipates outflows in the amount of HRK 358 thousand (taken over after the merger of company Zlatni Otok d.d. with balance as of 31 August 2011).

**Contingent liabilities**

During 2004, the Company provided guarantees in the form of blank promissory notes in the amount of HRK 21,000 thousand to the Croatian Bank for Reconstruction and Development (HBOR) with respect to the borrowing granted to the subsidiary Dubrovnik-Babin kuk d.d., Dubrovnik. The guarantee is secured by a blank promissory note of Dubrovnik-Babin kuk d.d. in the amount of HRK 21,000 thousand and a second-degree mortgage over property in the total estimated amount of HRK 31,872 thousand.

During 2008, the Company also provided guarantees in the form of blank promissory notes in the amount of HRK 25,000 thousand to the Croatian Bank for Reconstruction and Development (HBOR) with respect to the borrowing granted to the subsidiary Dubrovnik-Babin kuk d.d. The guarantee is secured by blank promissory notes of Dubrovnik-Babin kuk d.d. in the amount of HRK 25,000 thousand and a second-degree mortgage over property in the total estimated amount of HRK 172,978 thousand.

During 2009, the Company also provided guarantees in the form of blank promissory notes in the amount of HRK 82,000 thousand to the Croatian Bank for Reconstruction and Development (HBOR) with respect to the borrowing granted to the subsidiary Dubrovnik-Babin kuk d.d. The guarantee is secured by 82 blank promissory notes of Valamar Adria Holding d.d. (previously named Dom Holding d.d.) and Dubrovnik-Babin kuk d.d. in the amount of HRK 1,000 thousand per item totalling HRK 82,000 thousand and a mortgage over property of the subsidiary Dubrovnik-Babin kuk d.d. in the total estimated amount of HRK 633,846 thousand.

During 2010, the Company also issued guarantees in the form of blank promissory notes in the amount of HRK 25,000 thousand to PBZ/the Croatian Bank for Reconstruction and Development (HBOR) as a guarantor/payer in respect of signing the Club HRK Credit Agreement. As security for the guarantee, the Company received 25 blank promissory notes from the company Valamar Adria Holding d.d. (previously named Dom Holding d.d.) of HRK 1,000 thousand per item or in the total amount of HRK 25,000 thousand.

During 2011, the Company also issued guarantees in the form of blank promissory notes in the amount of EUR 6.1 mil. and HRK 15,000 thousand to PBZ/HBOR as guarantor, with respect to the borrowing granted to the subsidiary Dubrovnik-Babin kuk d.d. The guarantee is secured by blank promissory notes of Valamar Adria Holding d.d. in the same amount as the guarantees issued for the subsidiary's borrowings (EUR 6.1 mil. and HRK 15,000 thousand).

**NOTE 31 – CONTINGENCIES AND COMMITMENTS (continued)**

**Contingent liabilities (continued)**

During 2012, the Company issued long-term loan in the amount of EUR 8.4 million and short-term loan in the amount of EUR 4 million to subsidiary Dubrovnik Babin Kuk d.d. As security for the loan the Company received guarantees in the form of blank promissory note in the amount of EUR 12.4 million and a first-degree mortgage over property land register file 2929 cadastral municipalities Gruž land parcel 1060/1 to secure the amount of EUR 8.4 million

**Transformation and privatisation audit and ownership over land**

Transformation and privatisation audit for the Company was performed prior to the merger of companies Rabac d.d. and Zlatni Otok d.d. to company Riviera Poreč d.d., and procedures are recorded separately by legal predecessors:

- a) Riviera Adria d.d. – procedures related to Riviera Poreč d.d. prior to merger

On 29 January 2003, the State Audit Office, Local Office Pazin, issued a Report on the performed transformation and privatisation audit of the Company. The Report stated that the transformation and privatisation process was not performed completely in accordance with legal regulations. On 30 January 2003, the Company filed a complaint through a law firm on the grounds that the Report is incorrect and incomplete due to the fact that the Croatian Privatisation Fund (“CPF”) excluded land worth DEM 71 million or 2,357,779 square meters from the Company’s capital valuation. Such land was a construction site at the time of the privatisation process, and therefore, should have been included in the capital valuation. The Republic of Croatia (“RC”) and the Croatian Privatisation Fund also filed lawsuits against the Company regarding this issue. The stated land is utilised by the Company, but not recorded in its books. No reply from the State Audit Office was received to the date of the issue of these financial statements regarding the Company’s complaint, nor the court litigations with RC and CPF (now AUDIO) were finished. The results of the proceedings above are not expected to have negative impact on the financial position and results of the Company.

- b) Riviera Adria d.d. – procedures related to Rabac d.d. prior to merger

On 21 June 2002, the State Audit Office, Local Office Pazin, issued a Report on the performed transformation and privatisation audit of the socially-owned enterprise Rabac d.o.o., Rabac. The Report stated that the transformation and privatisation process was not performed completely in accordance with legal regulations, especially with respect to the transfer of certain properties into the estimated value of the enterprise. On 19 June 2002 the Company expressed its opinion on the mentioned Report. No reply from the State Audit Office was received to the date of the issue of these financial statements regarding the Company’s complaint. The results of the proceedings described above are not expected to have negative impact on the financial position and results of the Company.

---

**NOTE 31 – CONTINGENCIES AND COMMITMENTS (continued)**

c) Riviera Adria d.d. – procedures related to Zlatni Otok d.d. prior to merger (continued)

In 2000, the Croatian Privatisation Fund (the CPF) initiated legal proceedings against Zlatni otok d.d. for the registration of ownership title over properties at the campsites Ježevac and Politin in Krk. The Municipal Court in Krk dismissed the claim; the Croatian Privatisation Fund filed an appeal. In making a decision with respect to the appeal, the County Court in Rijeka adopted the appeal of the prosecutor, the CPF, and remanded the case for retrial to the first-instance court.

In the meantime, the plaintiff registered ownership title in two separate land-registry cases over the property in this dispute. Zlatni otok d.d. filed appeals against the stated registrations. The County Court in Koprivnica accepted one of the appeals, dismissing the CPF's proposal for registration and ordered the establishment of the previous status in the land registry, while the other appeal was dismissed by the same County Court in Koprivnica. As a result of the stated, in the civil court proceedings the CPF withdrew the claim in relation to the land plots over which it registered ownership title in the land-registry case. Zlatni otok d.d. consented to the withdrawal of the CPF's claim, but sought reimbursement of litigation costs that it is entitled to under the Law on Civil Procedure.

As the CPF registered its ownership title in the course of the land-registry case over most of the property subject to these proceedings, Zlatni otok d.d. filed a counterclaim against the CPF for the establishment of the rights of ownership title. In the repeated first-instance proceeding, the last hearing was held on 28 April 2010. At the stated hearing, the CPF insisted on the modification of the claim by surrendering the plots at the campsites Ježevac and Politin into ownership. However, the court issued a decision not to accept CPF's modification of the claim and concluded the hearing with respect to the remainder of the plaintiffs' claim, while in relation to the counterclaim the first-instance proceedings are still in progress. The verdict of the Municipal Court in Krk in relation to the remainder of the CPF's claim has not as yet been received. We estimate that the claim of the CPF will be dismissed, but the possibility of the court issuing a different decision cannot be excluded.

At this point it is not possible to estimate the ultimate outcome of the proceedings in respect of the claim and counterclaim, but we believe that in light of the new Law on Tourist and other Construction Land, not evaluated in the transformation and privatisation process, which entered into force on 1 August 2010, there is a risk that the court reaches an unfavourable decision in relation to the counterclaim of Zlatni otok d.d. At this point it is not possible to estimate when this legal matter will be finalised, but a legally valid finalisation is expected in several years. Furthermore, at this point it is also not possible to estimate the value of future contingent liabilities of Zlatni otok d.d. in this case, but we believe that even in the event of an unfavourable court decision regarding the counterclaim of Zlatni otok d.d., it will be possible to offset a large portion of the incurred litigation costs with the litigation costs that the CPF owes to Zlatni otok d.d. regarding the withdrawn part of the claim. The court will decide on this at the end of the court proceedings. However, the possibility of the court issuing a different decision cannot be excluded.

As at 31 December 2012, the net book value of the land at the campsites Ježevac and Politin recorded in the Company's books is HRK 10,284 thousand.

In addition, the Republic of Croatia filed a claim against Zlatni otok d.d. for the purpose of determining the ownership title over properties at the campsite "Škrila" in Stara Baška, claiming that the plot is agricultural land. Zlatni otok d.d. fully contested the claim. A hearing – an on-site investigation was held on 6 June 2008 in the presence of a surveyor expert in order to identify the properties that are the subject of this proceeding. Despite repeated reminders by the court, the expert witness findings have not as yet been received. A new hearing will be scheduled in writing.

**FOR THE YEAR ENDED 31 DECEMBER 2012**

---

**NOTE 31 – CONTINGENCIES AND COMMITMENTS (continued)**

- c) Riviera Adria d.d. – procedures related to Zlatni Otok d.d. prior to merger

The stated properties are located at the campsite Škrila in Stara Baška. Since the new Law on Tourist Land prescribes ownership rights of the Republic of Croatia over unevaluated land at campsites as well as establishing a co-ownership community between the company and the Republic of Croatia in proportion to the size of the evaluated and unevaluated part, we believe there is a risk of an unfavourable outcome of the proceedings for the defendant - the company Zlatni otok d.d.

As at 31 December 2012, the net book value of land at the campsite Stara Baška recorded in the Company's books is HRK 1,899 thousand.

Previously described proceedings for Zlatni Otok d.d. before the merger are not finished to the date of the issue of these financial statements. Regarding the application of the Law on Tourist and other Construction Land not assessed during privatization on these proceedings, we expect an impact of approximate 42% (total HRK 12,183 thousand) on net present value of the land in the campsites Ježevac, Politin and Stara Baška. Furthermore, in case of adverse outcome, no additional annual costs are expected as the land is already included in land under concession as the tourist land.

- d) Riviera Adria d.d.

Company Riviera Adria d.d. as the universal legal successor of the merged companies took over all initiated proceedings and all described balances as previously stated in this Note 31. The outcome and the result of the above mentioned legal proceedings stated under a), b) and c) cannot be reliably anticipated. Results of these proceedings are expected in accordance with the Law on Tourist and other Construction Land not assessed during privatization, and the Company does not expect to have significant influence on the financial position of the Company.

On 1 August 2010, *Law on Tourist and other Construction Land not assessed during privatization* ("the ZTZ"), entered into force in accordance with which and based on which the ownership and co-ownership over land not evaluated in the transformation and privatisation process will finally be determined. Within the prescribed period, on 31 January 2011, the Company initiated procedures for submitting requests for concessions and other prescribed requirements. After the outcome of these procedures, the ownership and/or co-ownership of the Company on the part of the land that was not evaluated in the transformation and privatisation process will finally be determined. During 2012, the Company continued with active participation in these procedures, according to the requests and/or instructions of authorities. During 2012, from all submitted requests, only four first instance decision were made in process of determining land parcel according to ZTZ on which appeal have been made and which were brought to retrial by second instance body in two cases (for tourist land Lanterna and Solaris in Poreč, and hotel Valamar Sanfior in Rabac), while the other two procedures (for buildings in campsites Ježevac and Politin on island Krk) are still in process. During 2012, bills for part of concession fees according to the Regulation were issued and paid (advance payment of 50% of assumed fee). By the 31 December 2012 not a single initiated proceedings for concessions and other prescribed requirements haven't been completed.

**FOR THE YEAR ENDED 31 DECEMBER 2012**

---

We have audited the accompanying consolidated financial statements of Riviera Adria d.d. and its subsidiaries (“the Group”), which comprise the consolidated statement of financial position as at 31 December 2012, the consolidated statements of comprehensive income, changes in equity and cash flows for the year then ended, and notes, comprising a summary of significant accounting policies and other explanatory information.

*Management’s Responsibility for the Consolidated Financial Statements*

Management is responsible for the preparation and fair presentation of these consolidated financial statements in accordance with International Financial Reporting Standards, and for such internal control as management determines is necessary to enable the preparation of consolidated financial statements that are free from material misstatement, whether due to fraud or error.

*Auditors’ Responsibility*

Our responsibility is to express an opinion on these consolidated financial statements based on our audit. We conducted our audit in accordance with International Standards on Auditing. Those standards require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether the consolidated financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the consolidated financial statements. The procedures selected depend on our judgment, including the assessment of the risks of material misstatement of the consolidated financial statements, whether due to fraud or error. In making those risk assessments, we consider internal control relevant to the entity’s preparation and fair presentation of the consolidated financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity’s internal control. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of accounting estimates made by management, as well as evaluating the overall presentation of the consolidated financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

*Opinion*

In our opinion, the consolidated financial statements give a true and fair view of the consolidated financial position of the Group as at 31 December 2012, and of its consolidated financial performance and its consolidated cash flows for the year then ended in accordance with International Financial Reporting Standards.

*Other matter*

The consolidated financial statements of the Group as at and for the year ended 31 December 2011 were audited by another auditor who expressed an unmodified opinion on those statements on 3 April 2012.

**NOTE 1 – GENERAL INFORMATION**

The Riviera Adria Group consists of Riviera Adria d.d., Poreč a joint-stock company registered for tourism services (the parent Company) and its subsidiaries (the Group):

- Dubrovnik-Babin kuk d.d., Dubrovnik, a joint-stock company registered for hospitality and tourism, in 94.11% ownership.

Dubrovnik- Babin kuk d.d., Dubrovnik has 100% ownership interest in the following subsidiaries: Elafiti Babin kuk d.o.o., Dubrovnik, Palme turizam d.o.o., Dubrovnik, Hotel Plakir d.o.o., Dubrovnik, Magične stijene d.o.o., Dubrovnik and a 49.67% share in the joint venture Pogača Babin kuk d.o.o., Dubrovnik. Based on Management decision, on 20 December 2010 Dubrovnik- Babin kuk d.d., Dubrovnik filed a request at the Commercial Court in Dubrovnik for initiating bankruptcy proceedings over Hotel Plakir d.o.o. This request has been rejected on 20 September 2012. At 30 October 2012, on the request of Ministry of Finance, the Company has received Ruling of the Commercial Court to initiate bankruptcy proceedings against Hotel Plakir d.o.o.

The Group's primary activities are hospitality services (hotels and apartments, camps, restaurants and other hospitality facilities). The Riviera Adria Group, Poreč is controlled by Valamar Adria holding d.d. (previously Dom Holding d.d.), Zagreb incorporated in the Republic of Croatia. Parent company of Riviera Adria d.d. is Valamar Adria Holding d.d. The ultimate controlling company is Epic GmbH, Vienna. The equity ownership structure as at 31 December 2012 and 2011 is presented in Note 25.

As at 29 June 2011, a merger Agreement was concluded, whereby companies Zlatni Otok d.d. and Rabac d.d. were merged into Riviera Porec d.d. The merger was registered in the Court Registry of the Commercial Court in Rijeka, Pazin office as at 31 August 2011, with legal effect as of 1 September 2011. By this registration, merged companies Zlatni Otok d.d. and Rabac d.d. ceased to exist, and company Riviera Porec d.d. as the takeover company, which simultaneously with the registration of the merger changed its name into Riviera Adria d.d., took over all assets, all rights and all liabilities of the merged companies in exchange for shares of the takeover company – Riviera Adria d.d. and is the universal legal successor. The effect of the merger is set out in Note 35.

The registered office of the Riviera Adria d.d. Group is in Poreč, Stancija Kaligari 1, Croatia.

As at 31 December 2012 and 2011, the Company's shares were listed on the regular joint stock company listing on the Zagreb Stock Exchange.

**NOTE 2 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES**

The principal accounting policies adopted in the preparation of these consolidated financial statements are set out below. These policies have been consistently applied to all the years presented.

**2.1 Basis of preparation**

The consolidated financial statements of the Group have been prepared in accordance with International Financial Reporting Standards (IFRS). The consolidated financial statements have been prepared under the historical cost convention, as modified by the revaluation of available-for sale investments, and financial assets at fair value through profit or loss.

The preparation of consolidated financial statements in conformity with International Financial Reporting Standards (IFRS) requires the use of certain critical accounting estimates. It also requires management to exercise its judgment in the process of applying the Group's accounting policies. The areas involving a higher degree of judgment or complexity, or areas where assumptions and estimates are significant to the separate financial statements, are disclosed in Note 4.

**NOTE 2 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)**

**2.1 Basis of preparation (continued)**

**2.1.1 Changes in accounting policy and disclosures**

A number of new standards, amendments to standards and interpretations are effective for annual periods beginning after 1 January 2012, and have not been applied in preparing these consolidated financial statements. The application of new standards is not expected to have significant influence on the financial statements of the Group and their early adoption is not planned.

**2.2 Consolidation**

*(a) Subsidiaries*

Subsidiaries are all entities (including special purpose entities) over which the Group has the power to govern the financial and operating policies generally accompanying a shareholding of more than one half of the voting rights. The existence and effect of potential voting rights that are currently exercisable or convertible are considered when assessing whether the Group controls another entity. Subsidiaries are fully consolidated from the date on which control is transferred to the Group. They are de-consolidated from the date that control ceases.

Inter-company transactions, balances and unrealised gains on transactions between Group companies are eliminated. Unrealised losses are also eliminated. Accounting policies of subsidiaries have been changed where necessary to ensure consistency with the policies adopted by the Group.

*(b) Changes in ownership interests in subsidiaries without change of control*

Transactions with non-controlling interests that do not result in loss of control are accounted for as equity transactions – that is, as transactions with the owners in their capacity as owners. The difference between fair value of any consideration paid and the relevant share acquired of the carrying value of net assets of the subsidiary is recorded in equity. Gains or losses on disposals to non-controlling interests are also recorded in equity.

*(c) Joint ventures*

The Group's interests in joint ventures are accounted for the equity method. Under this method, an interest in a jointly controlled entity is initially recorded at cost and adjusted thereafter for the post-acquisition change in the venturer's share of net assets of the jointly controlled entity. The profit or loss of the venturer includes the venturer's share of the profit or loss of the jointly controlled entity.

**2.3 Merger of entities from parties under common control**

Merger of entities from parties under common control are accounted for using the pooling of interest method. Under this method, the assets and liabilities of the entities under common control are transferred at the successor entity's carrying amounts. Related goodwill inherent in the predecessor entity's original acquisitions is also recorded in these financial statements. Any difference between the carrying amount of net assets, and the consideration paid is accounted for in these financial statements as an adjustment to equity.

**NOTE 2 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)**

**2.4 Segment reporting**

Operating segments are reported in a manner consistent with the internal reporting provided to the chief operating decision-maker. The chief operating decision-maker is a person or group responsible for allocating resources and assessing performance of the operating segments. The chief operating decision-maker is the Group Management and the company Valamar hoteli i ljetovališta d.o.o. which is in charge of managing hotel and tourist facilities and contents (Tourism).

**2.5 Foreign currencies**

*(a) Functional and presentation currency*

Items included in the financial statements of each of the Group's entities are measured using the currency of the primary economic environment in which the entity operates ('the functional currency'). The consolidated financial statements are presented in Croatian kuna (HRK), which is the Company's functional and Group's presentation currency.

*(b) Transactions and balances*

Foreign currency transactions are translated into the functional currency using the exchange rates prevailing at the dates of the transactions. Foreign exchange gains and losses resulting from the settlement of such transactions and from the translation at year-end exchange rates of monetary assets and liabilities denominated in foreign currencies are recognised in the statement of comprehensive income.

Foreign exchange gains and losses relating to borrowings and cash and cash equivalents are recorded in the statement of comprehensive income within 'finance costs – net'. All other foreign exchange losses and gains are recorded in the statement of comprehensive income within 'other(losses)/ gains – net'.

**2.6 Property, plant and equipment**

Property, plant and equipment is included in the statement of financial position at historical cost less accumulated depreciation and provision for impairment, where required. Historical cost includes expenditure that is directly attributable to the acquisition of the items.

Subsequent costs are included in the asset's carrying amount or recognised as a separate asset, as appropriate, only when it is probable that future economic benefits associated with the item will flow to the Group and the cost of the item can be measured reliably. All other repairs and maintenance are charged to the statement of comprehensive income during the financial period in which they are incurred. The cost of replacement of larger items of property, plant and equipment is capitalised, and the carrying amount of replaced parts is derecognised.

Land, arts and assets under construction are not depreciated. Depreciation of other items of property, plant and equipment is calculated using the straight-line method to allocate their cost over their estimated useful lives, as follows:

Buildings	10-20 years (2011: 10-25)
Machinery and equipment	4-10 years
Furniture, tools and horticulture	3-10 years

**NOTE 2 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)**

**2.6 Property, plant and equipment (continued)**

Depreciation is calculated for each asset until the asset is fully depreciated or to its residual values. The residual value of an asset is the estimated amount that the Group would currently obtain from disposal of the asset less the estimated costs of disposal, if the asset were already of the age and in the condition expected at the end of its useful life. The residual value of an asset is nil if the Group expects to use the asset until the end of its physical life. The assets' residual values and useful lives are reviewed, and adjusted if appropriate, at each reporting date.

An asset's carrying amount is written down immediately to its recoverable amount if the asset's carrying amount is greater than its estimated recoverable amount.

Gains and losses on disposals are determined by comparing the proceeds with carrying amount, and are recognised within 'other (losses)/gains – net' in the statement of comprehensive income.

During the year 2012 the Group has reviewed the estimated useful life of buildings. Following this review, management has decreased the estimated useful life of the buildings.

**2.7 Intangible assets**

Separately acquired computer software licences are capitalised on the basis of the costs incurred to acquire and bring to use the specific software. These costs are amortised over their estimated useful lives of up to 4 years.

**2.8 Impairment of non-financial assets**

Assets that have an indefinite useful life are not subject to amortisation and are tested annually for impairment. Assets that are subject to amortisation and depreciation are reviewed for impairment whenever events or changes in circumstances indicate that the carrying amount may not be recoverable. An impairment loss is recognised for the amount by which the asset's carrying amount exceeds its recoverable amount. The recoverable amount is the higher of an asset's fair value less costs to sell and value in use. For the purposes of assessing impairment, assets are grouped at the lowest levels for which there are separately identifiable cash flows (24 hotels, 9 apartments and 9 campsites as cash-generating units). Non-financial assets other than goodwill that suffered an impairment are reviewed for possible reversal of the impairment at each reporting date.

**2.9 Non-current assets classified as held for sale**

Non-current assets are classified in the statement of financial position as 'Non-current assets held for sale' if their carrying amount will be recovered principally through a sale transaction rather than through continuing use. Non-current assets classified as held for sale are measured at the lower of their carrying and fair value, less costs to sell. The assets should be available for immediate sale in their present condition and their sale should be very likely. Gains and losses on sale of non-current assets held for sale are included in the statement of comprehensive income within 'other (losses)/gains-net'.

**NOTE 2 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)**

**2.10 Financial assets**

**2.10.1 Classification**

The Group classifies its financial assets in the following categories: at fair value through profit or loss, loans and receivables and available for sale. The classification depends on the purpose for which the financial assets were acquired. Management determines the classification of its financial assets at initial recognition and re-evaluates this designation at every reporting date.

*(a) Financial assets at fair value through profit or loss*

This category includes financial assets held for trading. A financial asset is classified in this category if acquired principally for the purpose of selling in the short term or if so designated by management. Assets in this category are classified as current assets except derivative financial instruments stated in Note 2.12.

*(b) Loans and receivables*

Loans and receivables are non-derivative financial assets with fixed or determinable payments that are not quoted in an active market. They are included in current assets, except for maturities greater than 12 months after the reporting date. These are classified as non-current assets. Loans and receivables comprise trade and other receivables, as well as cash and cash equivalents in the statement of financial position.

*(c) Available-for-sale financial assets*

Available-for-sale financial assets are non-derivatives that are either designated in this category or not classified in any of the other categories. They are included in non-current assets unless management intends to dispose of the investment within 12 months from the reporting date. Available-for-sale financial assets are carried at fair value.

**2.10.2 Measurement and recognition**

Regular purchases and sales of financial assets are recognised on the trade-date – the date on which the Group commits to purchase or sell the asset. Investments are initially recognised at fair value plus transaction costs for all financial assets not carried at fair value through profit or loss. Financial assets carried at fair value through profit or loss are initially recognised at fair value and transaction costs are expensed in the statement of comprehensive income. Financial assets are derecognised when the rights to receive cash flows from the investments have expired or have been transferred and the Group has transferred substantially all risks and rewards of ownership. Available-for-sale financial assets and financial assets at fair value through profit or loss are subsequently carried at fair value. Loans and receivables are initially recognised at fair value and subsequently carried at amortised cost using the effective interest method.

**NOTE 2 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)**

**2.10 Financial assets (continued)**

**2.10.2 Measurement and recognition (continued)**

Gains or losses arising from changes in the fair value of the 'financial assets at fair value through profit or loss' category are presented in the statement of comprehensive income within 'other (losses)/gains- net' in the period in which they arise. Gain and losses arising from changes in the fair value of interest rate swap are presented in the statement of comprehensive income within 'financial costs/income'. Dividend income from financial assets at fair value through profit or loss is recognised in the statement of comprehensive income as part of 'other income' when the Group's right to receive payment is established.

Changes in the fair value of monetary and non-monetary securities classified as available-for-sale are recognised in equity (other comprehensive income). When securities classified as available-for-sale are sold or impaired, the accumulated fair value adjustments recognised in equity are included in the statement of comprehensive income as 'gains and losses from investment securities'.

Interest on available-for-sale securities calculated using the effective interest method is recognised in the statement of comprehensive income as part of other income. Dividends on available-for-sale equity instruments are recognised in the statement of comprehensive income as part of other income when the Group's right to receive payments is established.

The fair values of quoted investments are based on current bid prices. If the market for a financial asset is not active (and for unlisted securities), the Group establishes fair value by using valuation techniques. These include the use of recent arm's length transactions and references to other instruments that are substantially the same, discounted cash flow analysis and option pricing models, making maximum use of market inputs and relying as little as possible on entity-specific inputs.

**2.11 Impairment of financial assets**

*(a) Assets carried at amortised cost*

The Group assesses at each reporting date whether there is objective evidence that a financial asset or group of financial assets is impaired. A financial asset or a group of financial assets is impaired and impairment losses are incurred if, and only if, there is objective evidence of impairment as a result of one or more events that occurred after the initial recognition of the asset (a 'loss event') and that loss event (or events) has an impact on the estimated future cash flows of the financial asset or group of financial assets that can be reliably estimated.

A provision for impairment of trade receivables is established when there is objective evidence that the Group will not be able to collect all amounts due according to the original terms of receivables. Significant financial difficulties of the debtor, probability that the debtor will enter bankruptcy, and default or delinquency in payments are considered indicators that the trade receivable is impaired. The amount of the provision is the difference between the asset's carrying amount and the present value of estimated future cash flows, discounted at the original effective interest rate. The amount of the provision is recognised in the statement of comprehensive income within "other operating expenses". Subsequent recoveries of amounts previously written off are credited against 'other operating expenses' in the statement of comprehensive income.

**NOTE 2 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)**

**2.11 Impairment of financial assets (continued)**

*(b) Assets classified as available for sale*

The Group assesses at each reporting date whether there is objective evidence that a financial asset or a group of financial assets is impaired. In the case of equity investments classified as available-for-sale, a significant or prolonged decline in the fair value of the security below its cost is considered in determining whether the assets are impaired. If any such evidence exists for available-for-sale financial assets, the cumulative loss – measured as the difference between the acquisition cost and the current fair value, less any impairment loss on that financial asset previously recognised in the statement of comprehensive income – is removed from equity and recognised in the statement of comprehensive income. Impairment losses recognised in the statement of comprehensive income on equity instruments are not reversed through the statement of comprehensive income.

If, in a subsequent period, the fair value of a debt instrument classified as available for sale increases and the increase can be objectively related to an event occurring after the impairment loss was recognised in the statement of comprehensive income, the impairment loss is reversed through the statement of comprehensive income and recognised within ‘other (losses)/gains-net’.

**2.12 Derivative financial instruments**

Derivative financial instruments include foreign currency forward contracts in foreign currencies and interest rate swaps. Derivative financial instruments are recognised in the statement of financial position at fair value. The fair value is determined according to the market value or MTM (Mark to market) value of market transactions at the valuation date, if appropriate. All derivatives are recorded in the statement of financial position as assets when their fair value is positive, and as liabilities when their fair value is negative. These derivatives do not classify as hedge accounting and are recognised as derivatives held for trading.

**2.13 Leases**

Leases in which a significant portion of risks and rewards of ownership are not retained by the Group are classified as operating leases. Payments made under operating leases are charged to the statement of comprehensive income on a straight-line basis over the period of the lease.

The Group leases certain property, plant and equipment. Leases of property, plant and equipment, where the Group has substantially all the risks and rewards of ownership, are classified as finance leases. Finance leases are capitalised at the lease’s commencement at the lower of fair value of the leased property or the present value of minimum lease payments.

Each lease payment is allocated between the liability and finance charges so as to achieve a constant interest rate on the finance balance outstanding. The corresponding rental obligations, net of finance charges, are included in other non-current liabilities. The interest element of the finance costs is charged to the statement of comprehensive income over the lease period so as to produce a constant periodic rate of interest on the remaining balance of the liability for each period. The property, plant and equipment acquired under finance leases are depreciated over the shorter of the useful life or the lease term.

**NOTE 2 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)**

**2.14 Inventories**

Inventories of raw materials and spare parts are stated at the lower of cost, determined using the weighted average method, and net realisable value. Net realisable value is the estimated selling price in the ordinary course of business, less applicable variable selling expenses.

**2.15 Trade receivables**

Trade receivables are amounts due from customers for services performed in the ordinary course of business. If collection is expected in one year or less, they are classified as current assets. If not, they are presented as non-current assets.

Trade receivables are recognised initially at fair value and subsequently measured at amortised cost using the effective interest method, less provision for impairment.

**2.16 Cash and cash equivalents**

Cash and cash equivalents comprise cash in hand, deposits held at call with banks and other short-term highly liquid instruments with original maturities of three months or less.

**2.17 Share capital**

Ordinary shares are classified as equity. Incremental costs directly attributable to the issue of new shares are shown in equity as a deduction, net of tax, from the proceeds. Where the Group purchases its equity share capital (treasury shares), the consideration paid, including any directly attributable incremental costs (net of income taxes) is deducted from equity attributable to the Group's equity holders until the shares are cancelled or reissued. Where such shares are subsequently reissued, any consideration received, net of any directly attributable incremental transaction costs and the related income tax effects, is included in equity attributable to the Group's equity holders.

**2.18 Borrowings**

Borrowings are recognised initially at fair value, net of transaction costs incurred. Borrowings are subsequently stated at amortised cost; any difference between the proceeds (net of transaction costs) and the redemption value is recognised in the statement of comprehensive income over the period of the borrowings using the effective interest method.

Fees paid on the establishment of loan facilities are recognised as transaction costs of the loan to the extent that it is probable that some or all of the facility will be drawn down. In this case, the fee is deferred until the draw-down occurs. To the extent there is no evidence that it is probable that some or all of the facility will be drawn down, the fee is capitalised as a pre-payment for liquidity services and amortised over the period of the facility to which it relates.

Borrowings are classified as current liabilities unless the Group has an unconditional right to defer settlement of the liability for at least 12 months after the reporting date.

**NOTE 2 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)**

**2.19 Trade payables**

Trade payables are obligations to pay for goods or services that have been acquired in the ordinary course of business from suppliers. Accounts payable are classified as current liabilities if payment is due within one year or less. If not, they are presented as non-current liabilities. Trade payables are recognised initially at fair value and subsequently measured at amortised cost using the effective interest method.

**2.20 Current and deferred income tax**

The tax expense for the period comprises current and deferred tax. Tax is recognised in the statement of comprehensive income, except to the extent that it relates to items recognised in equity. In that case tax is also recognised in equity.

The current income tax charge is calculated at a rate of 20% according to Croatian laws and regulations. Management periodically evaluates positions taken in tax returns with respect to situations in which the applicable tax regulation is subject to interpretation. It establishes provisions where appropriate on the basis of amounts expected to be paid to the tax authorities.

Deferred income tax is recognised using the liability method, on temporary differences arising between the tax bases of assets and liabilities and their carrying amounts in the financial statements. However, the deferred income tax is not accounted for if it arises from initial recognition of an asset or liability in a transaction other than a business combination that at the time of the transaction affects neither accounting nor taxable profit or loss. Deferred income tax is determined using tax rates (and laws) that have been enacted or substantially enacted by the reporting date and are expected to apply when the related deferred income tax asset is realised or the deferred income tax liability is settled.

Deferred income tax assets are recognised to the extent that it is probable that future taxable profit will be available against which the temporary differences can be utilised. Deferred income tax is provided on temporary differences arising on investments in subsidiaries and associates, except where the timing of the reversal of the temporary difference is controlled by the Group and it is probable that the temporary difference will not reverse in the foreseeable future.

**2.21 Employee benefits**

*(a) Pension obligations and post-employment benefits*

In the normal course of business through salary deductions, the Group makes payments to mandatory pension funds on behalf of its employees as required by law. All contributions made to the mandatory pension funds are recorded as salary expense when incurred. The Group does not have any other pension scheme and consequently, has no other obligations in respect of employee pensions. In addition, the Group is not obliged to provide any other post-employment benefits.

**NOTE 2 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)**

**2.21 Employee benefits (continued)**

*(b) Termination benefits*

Termination benefits are recognised when the Group terminates employment contracts of employees before their normal retirement date in accordance with pension and labour regulations. The Group recognises termination benefits when it has made an individual decision on the termination of an employment agreement due to business or personal reasons, whereby the liability to pay termination benefits are objectively determined, in accordance with regulations and by-laws. Benefits falling due more than 12 months after the reporting date are discounted to the present value.

*(c) Short-term employee benefits*

The Group recognises a provision for bonuses where contractually obliged or where there is a past practice that has created a constructive obligation. In addition, the Group recognises a liability for accumulated compensated absences based on unused vacation days at the reporting date.

**2.22 Provisions**

Provisions are recognised when: the Group has a present legal or constructive obligation as a result of past events; it is more likely than not that an outflow of resources will be required to settle the obligation; and the amount has been reliably estimated.

Where there are a number of similar obligations, the likelihood that an outflow will be required in settlement is determined by considering the class of obligations as a whole. A provision is recognised even if the likelihood of an outflow with respect to any one item included in the same class of obligations may be small.

Provisions are measured at the present value of the expenditures expected to be required to settle the obligation using a pre-tax rate that reflects current market assessments of the time value of money and the risks specific to the obligation. The increase in the provision due to passage of time is recognised as interest expense.

**2.23 Revenue recognition**

Revenue comprises the fair value of the consideration received or receivable for the sale of services in the ordinary course of Group's activities. Revenue is shown net of value-added tax and after eliminating sales within the Group.

The Group recognises revenue when the amount of revenue can be reliably measured, it is probable that future economic benefits will flow to the entity and specific criteria have been met for each of the Group's activities as described below.

**NOTE 2 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)**

**2.23 Revenue recognition (continued)**

*(a) Sales of services*

Revenue from hotel and tourist services is recognised in the period the services are provided.

Revenue from fixed-price contracts for services is generally recognised in the period the services are provided, using a straight-line basis over the terms of contracts with tourist agencies and tour operators.

*b) Rental of services*

Revenue for rental services is generally recognised in the period the services are provided, using a straight-line basis over the terms of contracts with lesser.

*(c) Interest income*

Interest income is recognised on a time-proportion basis using the effective interest method. When a receivable is impaired, the Group reduces the carrying amount to its recoverable amount, being the estimated future cash flow discounted at original effective interest rate of the instrument, and continues unwinding the discount as interest income. Interest income on impaired loans is recognised using the original effective interest rate.

*(c) Dividend income*

Dividend income is recognised when the right to receive payment is established.

**2.24 Earnings per share**

Earnings per share is determined by dividing the profit or loss attributable to equity holders of the Company by the weighted average number of participating shares outstanding during the reporting year.

**2.25 Value added tax**

The Tax Authorities require the settlement of VAT on a net basis. VAT related to sales and purchases is recognised and disclosed in the statement of financial position on a net basis. Where provision has been made for impairment of receivables, impairment loss is recorded for the gross amount of the debtor, including VAT.

**NOTE 3 – FINANCIAL RISK MANAGEMENT**

**3.1 Financial risk factors**

The Group's activities expose it to variety of financial risks: market risk (including currency risk, cash flow and fair value interest rate risk and price risk), credit risk and liquidity risk. The Group does not have a written risk management programme, but overall risk management in respect of these risks is carried out by the Group management. However, the Group actively hedges interest rate and foreign exchange risks through instruments available in the market for the purpose of mitigating these risks. Internal objectives and risk management policies relate to hedging foreign exchange inflows during the seasonal activity and a partial interest rate hedge of loan principal.

*(a) Market risk*

*(i) Foreign exchange risk*

The Group operates internationally and is exposed to foreign exchange risk arising from various currency exposures, primarily with respect to the Euro (EUR) and Swiss franc (CHF). Foreign exchange risk arises from future commercial transactions, recognised assets and liabilities.

The majority of foreign sales revenue and long-term debt is denominated in EUROS and Swiss francs. Therefore, movements in exchange rates between the EURO, Swiss franc and Croatian kuna may have an impact on the results of future operations and future cash flow. The Group uses derivative instruments in accordance with operating estimates and expected market movements.

At 31 December 2012, if the EURO had weakened/strengthened by 1% against the HRK, with all other variables held constant, the net profit for the year would have been HRK 2,645 thousand higher/(lower) mainly as a result of foreign exchange gains/(losses) on translation of EURO denominated trade receivables, borrowings, foreign cash funds and bonds of Republic of Croatia.

At 31 December 2011, if the EURO had weakened/strengthened by 2% against the HRK, with all other variables held constant, the net profit for the year would have been HRK 5,865 thousand (lower)/higher, mainly as a result of foreign exchange gains/(losses) on translation of EURO denominated trade receivables, borrowings, foreign cash funds and bonds of Republic of Croatia.

At 31 December 2012, if the CHF had weakened/strengthened by 1% against the HRK, with all other variables held constant, the net profit for the year would have been HRK 2,178 thousand (lower)/higher mainly as a result of foreign exchange gains/(losses) on translation of CHF-denominated borrowings and foreign cash funds.

At 31 December 2011, if the CHF had weakened/strengthened by 4% against the HRK, with all other variables held constant, the net profit for the year would have been HRK 4,673 thousand (lower)/higher, mainly as a result of foreign exchange gains/(losses) on translation of CHF-denominated borrowings and foreign cash funds.

**NOTE 3 – FINANCIAL RISK MANAGEMENT (continued)**

**3.1 Financial risk factors (continued)**

(ii) Cash flow and fair value interest rate risk

The Group has interest-bearing assets, and therefore the Group's income and operating cash flows are influenced by changes in market interest rates.

The Group's interest rate risk arises from borrowings. Borrowings issued at variable rates expose the Group to cash flow interest rate risk. The Group uses derivative instruments to actively hedge cash flow and fair value interest rate risk exposure.

At 31 December 2012, if interest rates on currency-denominated borrowings had been higher/(lower) by 1%, with all other variables held constant, the profit for the year would have been HRK 3,483 thousand lower/(higher), mainly as a result of higher/(lower) interest expense on variable-rate borrowings.

At 31 December 2011, if interest rates on currency-denominated borrowings had been higher/(lower) by 0.18%, with all other variables held constant, the net profit for the year would have been HRK 728 thousand higher/(lower), mainly as a result of higher/(lower) interest expense on variable-rate borrowings.

At 31 December 2012, if interest rates on currency-denominated deposits had been 1% (2011: 0.48%) higher/(lower), with all other variables held constant, the profit for the year would have been HRK 406 thousand (2011: HRK 284 thousand) higher/(lower), mainly as a result of higher/(lower) interest income on variable rate deposits.

(iii) Price risk

The Group owns equity securities and is exposed to price risk of listed equity securities, which are classified as financial assets available for sale and at fair value through profit or loss. The Group invests in securities listed on the Zagreb Stock Exchange (ZSE).

As at 31 December 2012 and 2011, if the indices of the ZSE had been higher/lower by 16.63% for 2012 and 4.59% for 2011 (which was the average index movement), with all other variables held constant, reserves within equity and other comprehensive income would have been HRK 291 thousand (2011: HRK 101 thousand) higher/lower as a result of gains/losses on equity securities available for sale, whereas within changes of the Group's profit in the statement of comprehensive income they would have been HRK 25 thousand (2011: HRK 7 thousand) (lower)/ higher as a result of losses/gains on equity securities in portfolios classified as financial assets at fair value through profit or loss.

As at 31 December 2012, if the index of the ZSE had been higher/lower by 1.64%, (31 December 2011: 1.59%) with all other variables held constant, the profit for the year would have been HRK 14 thousand (31 December 2011: the loss for the year would have been HRK 13 thousand) higher/(lower) as a result of gains/losses on financial assets at fair value through profit or loss.

## NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

## FOR THE YEAR ENDED 31 DECEMBER 2012

## NOTE 3 – FINANCIAL RISK MANAGEMENT (continued)

## 3.1 Financial risk factors (continued)

*(b) Credit risk*

The Group has no significant concentrations of credit risk. Credit risk arises from cash, time deposits and trade receivables. The Group has policies in place to ensure that sales of products are made to customers with an appropriate credit history, i.e. the Group's policy ensures that sales to customers are settled through advance payments, in cash or by major credit cards (individual customers). The Group holds advances, bills of exchange, promissory notes and periodically mortgage security for collection.

Provisions for impairment of trade, loan and other receivables have been made on the basis of credit risk assessment. Management monitors the collectability of receivables through weekly reports on individual balances of receivables. Impairment of trade receivables is performed when there is objective evidence that the Group will not be able to collect all amounts due according to the original terms of receivables. The amount of trade and other receivables has been written down to their recoverable amount. The Group has policies that limit the amount of credit exposure to any financial institution. Cash transactions are carried out through high quality Croatian banks. The Group has only short-term highly liquid instruments with maturity periods of three months or less.

*(c) Liquidity risk*

Prudent liquidity risk management implies maintaining sufficient cash (Note 18 and 24), the availability of funding through an adequate amount of committed credit facilities (Note 27) and the ability to meet all obligations. The Group aims to maintain flexibility in funding by keeping committed credit lines available. Management daily monitors available cash resources based on reports on the balance of cash and liabilities.

The table below analyses financial liabilities of the Group according to contracted maturities. The amounts stated below represent undiscounted cash flows. Balances due within 12 months equal their carrying balances as the impact of discounting is not significant.

**NOTE 3 – FINANCIAL RISK MANAGEMENT (continued)**

**3.2 Capital management**

The Group's objectives when managing capital are to safeguard the Group's ability to continue as a going concern in order to provide returns for the owner and to maintain an optimal capital structure to reduce the cost of capital. In accordance with the Companies Act, the Company is committed to maintain the level of capital above HRK 200 thousand as required for joint stock companies.

**3.3 Fair value estimation**

The fair value of financial instruments traded in active markets is based on quoted market prices at the reporting date. The quoted market price used for financial assets held by the Group is the current bid price. The fair value of financial instruments that are not traded in an active market is determined by using valuation techniques. The Group uses a variety of methods and makes assumptions that are based on market conditions existing at each reporting date.

The carrying value less impairment provision of trade receivables and payables are assumed to approximate their fair values.

Quoted market prices for similar instruments are used for long-term debt. The fair value of financial liabilities for disclosure purposes is estimated by discounting the future contractual cash flows at the current market interest rate that is available to the Group for similar financial instruments.

*Fair value hierarchy*

IFRS 7 specifies a hierarchy of valuation techniques based on whether the inputs to those valuation techniques are observable or unobservable. Observable inputs reflect market data obtained from independent sources; unobservable inputs reflect the Company's market assumptions. These two types of inputs have created the following fair value hierarchy:

- Level 1 – Quoted prices (unadjusted) in active markets for identical assets or liabilities.
- Level 2 – Inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly (that is, as prices) or indirectly (that is, derived from prices).
- Level 3 – inputs for the asset or liability that are not based on observable market data (unobservable inputs).

## NOTE 4 – CRITICAL ACCOUNTING ESTIMATES

Estimates are continually evaluated and are based on historical experience and other factors, including expectations of future events that are believed to be reasonable under the circumstances. The Group makes estimates and assumptions concerning the future. The resulting accounting estimates will, by definition, seldom equal the related actual results. The estimates and assumptions that have a significant risk of causing a material adjustment to the carrying amounts of assets and liabilities within the next financial year are discussed below.

**NOTE 4 – CRITICAL ACCOUNTING ESTIMATES (continued)**

*(a) Estimated useful lives*

By using a certain asset, the Group uses the economic benefits contained in this asset, which diminish more intensely with economic and technological aging. Consequently, in the process of determining the useful life of an asset, in addition to assessing the expected physical utilisation, it is necessary to consider the changes in demand on the tourist market, which will cause a faster economic obsolescence as well as a more intense development of new technologies. Current business operations in the hotel industry impose the need for more frequent investments, and this circumstance contributes to the fact that the useful life of an asset is decreasing.

Based on historical information, and in line with the technical department, the useful life of buildings was assessed by Management to be 10-20 years. The useful lives of equipment and other assets have also been assessed.

The useful life of property, plant and equipment will be periodically revised to reflect any changes in circumstances since the previous assessment. Changes in estimate, if any, will be reflected prospectively in a revised depreciation charge over the remaining, revised useful life.

If the depreciation rates of property, plant and equipment had been 5% higher/(lower), with all other variables held constant, the profit for the year would have been HRK 10,943 thousand (lower)/higher (2011: HRK 8,247 thousand), and the net carrying amount of property, plant and equipment would have been (lower)/higher by the same amount.

Value in use is calculated based on cash flow plans (5 years plus residual value and average growth rate of 5.5%) using a discount rate for hotels of 10.5%.

*(b) Land ownership*

The Law on Tourist and Other Construction Land not evaluated in the transformation and privatisation process (Official Gazette No. 92/10, hereinafter the Law), which entered into force on 1 August 2010, mandates companies to submit the relevant requirements under this law within six months from the date of its entry into force (up to 1 February 2011) related to land not evaluated or not recorded in companies' registered capital. On 28 January 2011, regulations were issued elaborating in more detail the manner of complying with the stated law (Official Gazette No. 12/11). On 31 January 2011, in line with provisions of the Law and mentioned regulations for property not evaluated in the transformation and privatisation process (tourist land), the Group submitted the relevant requirements to the governing authorities for concessions on the tourist land in camps, hotels and tourist resorts and requirements for determining the forms and sizes of land (plots) that are in line with the ground plans of evaluated buildings constructed on them and land for regular use of these buildings. During 2011, in the procedures initiated, and in line with requirements of the governing authorities, the Group delivered various statements, documentation, made propositions for dividing the land, etc. Until 31 December 2012, none of the procedures according to the Law on Tourism and Other Construction Land was finalised. At the moment, negative impact on the financial position and results of the Group is not expected.

## NOTE 5 – SEGMENT INFORMATION

Following the management approach of IFRS 8, operating segments are reported in accordance with the internal reporting provided to the Group's Management and the company Valamar hoteli i ljetovališta d.o.o. (together the chief operating decision-makers), which are responsible for allocating resources to the reportable segments and assessing its performance.

The Group records operating revenues and expenses by types of services rendered in two basic segments: tourism and other business segments. Other business segments include tourist agency services, "à la carte" services, rental services and other similar services.

The segment information provided to the Group's Management and the company Valamar hoteli i ljetovališta d.o.o. for the year ended 31 December 2012 is as follows:

The Company reports to Management using the Uniform System of Accounts for the Lodging Industry (USALI) method. This methodology is an internationally recognised uniform hotel reporting system, which meets the preconditions for the comparison of data in an international setting. Reporting is performed on several hierarchical and organisational levels in the company, whereby the basis comprises responsibility centres that may be organised as cost, revenue, profit and investment centres. The Company's responsibility centres are profit centres whose operating results, i.e. profit is the responsibility of their directors. For the purposes of reporting under the USALI method the Company implemented an integral IT system, which is based on a detailed accounting system supported by an appropriate IT application software.

Deferred tax assets relating to the carry forward of unused tax losses have not been recognised in the financial statements of subsidiary, as it is not certain that future taxable profit will be available against which the unused tax losses can be utilised. The same assessment of the probability of deferred tax assets is made on Group level as on the level of subsidiary.

Croatian tax legislation does not allow tax losses to be transferred among group companies.

In accordance with the regulations of the Republic of Croatia, the Tax Authority may at any time inspect the Group companies books and records within 3 years following the year in which the tax liability was reported, and may impose additional tax assessments and penalties.

Tax Administration has issued a ruling concerning the tax audit for year 2010 for the company Rabac dd which was merged with the Company Riviera Adria d.d. on 1 September 2011. According to the Decision, it is required to increase the tax liability by HRK 4,428 thousand. The Company has appealed the aforementioned decision. The procedure is in progress, the Company believes that the outcome of the above will not have material effect on the financial position and performance of the Company.

**NOTE 25 – EQUITY (continued)**

/iii/ In 2012, no changes in share capital, number of shares and par value of the Company occurred. Based on the decision of the Company's General Assembly held on 29 June 2011, registered capital was decreased in 2011 from HRK 1,096,055,100.00 by HRK 365,351,700.00 to HRK 730,703,400.00.

The registered capital was decreased by decreasing the nominal value per shares from HRK 300.00 by HRK 100.00 to the amount of HRK 200.00. Also, the Decision on split of shares was made, so that one share with a nominal value of HRK 200.00 was divided into 20 ordinary shares with a nominal value of HRK 10.00 per share. For the purpose of merging companies Rabac d.d. and Zlatni Otok d.d., the registered capital was increased from HRK 730,703,400.00 by HRK 334,760,000.00 to HRK 1,065,463,400.00. The registered capital was increased by issuing 33,476,000 new ordinary shares with a nominal value of HRK 10 per share. As compensation for transferred assets of the merged companies, new shares were acquired by shareholders of the merged companies as follows: for 1 share of merged company Rabac, with a nominal value of HRK 370, they acquired 24.59 shares of the Company with a nominal value of HRK 10 (ratio 24.59:1), and shareholders of Zlatni Otok for 1 share with a nominal value of HRK 360 acquired 24.01 shares of the Company with a nominal value of HRK 10 (ratio 24.01:1). For shareholders of the merged companies that did not acquire a whole number of shares following the calculation, the Company rounded the appropriate number of shares for exchange to the next highest whole number and additional shares required for the purpose of merger were secured from the Company's treasury shares. For this purpose, 1,083 treasury shares were used, with a value, including share premium of HRK 28,099, and resulted in total consideration in shares transferred of HRK 334,788,000. All of the aforementioned changes were entered in the Court Registry, and corporative transaction was performed by SKDD in line with effective regulations.

Based on the decision of the Company's General Assembly from 8 July 2010, in 2012 the Company, for the purpose of awarding employees according to the projects of work efficiency management, acquired and reissued treasury shares. In 2012, on the organised market a total of 2,927,602 treasury shares were acquired, which comprise 2.74% of the Company's registered capital, and 46,060 treasury shares were reissued, which comprise 0.04% of the Company's registered capital.

As at 31 December 2012, the Group holds 3,229,176 treasury shares, nominal value of HRK 32,291 thousand (2011: 347,634 treasury shares, nominal value of HRK 3,476 thousand), which represents 3.03% (2011: 0.33%) of the Company's registered capital and Subsidiary's 2,936 treasury shares, nominal value of HRK 199 thousand. As at 31 December 2012, share premium for relating treasury shares amounted to HRK 13,129 thousand (2011: HRK 8,479 thousand).

**NOTE 26 – SHARE PREMIUM, RESERVES AND ACCUMULATED LOSSES**

**d) Share premium**

As at 31 December 2012 share premium amounts to HRK 466,291 thousand (2011: HRK 473,570 thousand). This amount comprise HRK 365,352 thousand (2011: 365,352 thousand) which was created by reduction of the share capital, and of HRK 116 697 thousand (2011: 116,697 thousand) which was created as a result of a company merger Zlatni Otok d.d. and Rabac d.d. to the Company Riviera Adria d.d., less HRK 16,941 thousand (2011: 8,479 thousand) which arose from transactions with treasury shares. Effect of the acquisition of non-controlling interest amounts to HRK 1,183 thousand (2011: HRK 1,125 thousand).

**e) Reserve for reinvested profit**

During 2012 the Company realised profit before tax of HRK 54,031 thousand. The Management of the Company adopted a decision to reinvest profits in the amount of HRK 52,200 thousand, which will be registered during 2013 as an increase of the Company's share capital.

In accordance with the applicable tax regulations, the Company recognised the amount of reinvested profit amount as a tax incentive resulting in a decrease in current tax expense in the amount of HRK 10,440 thousand.

It should be noted that the decision to reinvest profits and consequent increase of share capital is subject to final approval by the General Assembly.

The management of the Company believes it is certain that the above stated increase in share capital from reinvested profits will be approved by the General Assembly of the Company, after the required procedures are carried out. These procedures are in compliance with the business policy of the Company that the profit for the year is not distributed, it is retained and invested, the same as in previous Supervisory board decisions regarding use of the profit.

Pursuant to the above, HRK 52,200 thousand relates to the amount of profit that will be reinvested and registered as an increase in the Company's share capital and as such is not considered distributable to the shareholders and is disclosed within the reserves for the reinvested profit. If the share capital increase is not registered by 31 October 2013, the tax incentive will be reversed, resulting in a tax expense of HRK 10,440 thousand, plus interests.

Provisions for legal proceedings primarily relate to land sold for construction purposes with a total surface area of 11,239 sq.m., which was not included in the share capital of subsidiary Dubrovnik – Babin kuk d.d.. A number of buyers were not able to register their ownership title over the stated land, and consequently initiated legal proceedings at the Municipal Court in Dubrovnik with the aim of terminating the purchase and sale contract. The Group's provisions are based on the estimate of market value of the aforementioned land.

In previous year, provision were made for several legal disputes that the subsidiary has initiated against the company Glavice d.o.o. in bankruptcy before the arbitration court, in order to resolve all mutual relations in respect of the augmentation and reconstruction of the hotel Valamar Lacroma Dubrovnik. These provisions were made because the company Glavice d.o.o. is in bankruptcy, and in case of a favourable outcome of these disputes for the Group, the collection from the bankruptcy estate is uncertain.

## NOTE 32 – CONTINGENCIES AND COMMITMENTS

**Legal proceedings**

In the ordinary course of business, the Group companies are plaintiff and defendant in various legal actions. In the financial statements for the year ended 31 December 2012 provisions for certain legal proceedings have been made for which the Group company anticipates damages in the amount of HRK 28,390 thousand (2011: HRK 25,615 thousand), as set out in Note 29.

**Transformation and privatisation audit and ownership over land**

Transformation and privatisation audit for the Company was performed prior to the merger of companies Rabac d.d. and Zlatni Otok d.d. to company Riviera Poreč d.d., and procedures are recorded separately by legal predecessors:

- d) Riviera Adria d.d. – procedures related to Riviera Poreč d.d. prior to merger

On 29 January 2003, the State Audit Office, Local Office Pazin, issued a Report on the performed transformation and privatisation audit of the Company. The Report stated that the transformation and privatisation process was not performed completely in accordance with legal regulations. On 30 January 2003, the Company filed a complaint through a law firm on the grounds that the Report is incorrect and incomplete due to the fact that the Croatian Privatisation Fund (“CPF”) excluded land worth DEM 71 million or 2,357,779 square meters from the Company’s capital valuation. Such land was a construction site at the time of the privatisation process, and therefore, should have been included in the capital valuation. The Republic of Croatia (“RC”) and the Croatian Privatisation Fund also filed lawsuits in 2003 against the Company regarding this issue. The stated land is utilised by the Company and registered in the land registry, but not recorded in its books. No reply from the State Audit Office was received to the date of the issue of these financial statements regarding the Company’s complaint, nor the court litigations with RC and CPF (now AUDIO) were finished. The results of the proceedings above are not expected to have negative impact on the financial position and results of the Company.

**NOTE 32 – CONTINGENCIES AND COMMITMENTS (continued)**

e) Riviera Adria d.d. – procedures related to RABAC d.d. prior to merger

On 21 June 2002, the State Audit Office, Local Office Pazin, issued a Report on the performed transformation and privatisation audit of the socially-owned enterprise Rabac p.o., Rabac. The Report stated that the transformation and privatisation process was not performed completely in accordance with legal regulations, especially with respect to the transfer of certain properties into the estimated value of the enterprise. On 19 June 2002 the Company expressed its opinion on the mentioned Report. No reply from the State Audit Office was received to the date of the issue of these financial statements regarding the Company's complaint. The results of the proceedings above are not expected to have negative impact on the financial position and results of the Company.

f) Riviera Adria d.d. – procedures related to ZLATNI OTOK d.d. prior to merger

In 2000, the Croatian Privatisation Fund (the CPF) initiated legal proceedings against Zlatni otok d.d. for the registration of ownership title over properties at the campsites Ježevac and Politin in Krk. The Municipal Court in Krk dismissed the claim; the Croatian Privatisation Fund filed an appeal. In making a decision with respect to the appeal, the County Court in Rijeka adopted the appeal of the prosecutor, the CPF, and remanded the case for retrial to the first-instance court.

In the meantime, the plaintiff registered ownership title in two separate land-registry cases over the property in this dispute. Zlatni otok d.d. filed appeals against the stated registrations. The County Court in Koprivnica accepted one of the appeals, dismissing the CPF's proposal for registration and ordered the establishment of the previous status in the land registry, while the other appeal was dismissed by the same County Court in Koprivnica. As a result of the stated, in the civil court proceedings the CPF withdrew the claim in relation to the land plots over which it registered ownership title in the land-registry case. Zlatni otok d.d. consented to the withdrawal of the CPF's claim, but sought reimbursement of litigation costs that it is entitled to under the Law on Civil Procedure.

As the CPF registered its ownership title in the course of the land-registry case over most of the property subject to these proceedings, Zlatni otok d.d. filed a counterclaim against the CPF for the establishment of the rights of ownership title. In the repeated first-instance proceeding, the last hearing was held on 28 April 2010. At the stated hearing, the CPF insisted on the modification of the claim by surrendering the plots at the campsites Ježevac and Politin into ownership. However, the court issued a decision not to accept CPF's modification of the claim and concluded the hearing with respect to the remainder of the plaintiffs' claim, while in relation to the counterclaim the first-instance proceedings are still in progress. The verdict of the Municipal Court in Krk in relation to the remainder of the CPF's claim has not as yet been received. We estimate that the claim of the CPF will be dismissed, but the possibility of the court issuing a different decision cannot be excluded.

**NOTE 32 – CONTINGENCIES AND COMMITMENTS (continued)**

c) Riviera Adria d.d. – procedures related to Zlatni Otok d.d. prior to merger (continued)

At this point it is not possible to estimate the ultimate outcome of the proceedings in respect of the claim and counterclaim, but we believe that in light of the new Law on Tourist and other Construction Land, not evaluated in the transformation and privatisation process, which entered into force on 1 August 2010, there is a risk that the court reaches an unfavourable decision in relation to the counterclaim of Zlatni otok d.d. At this point it is not possible to estimate when this legal matter will be finalised, but a legally valid finalisation is expected in several years. Furthermore, at this point it is also not possible to estimate the value of future contingent liabilities of Zlatni otok d.d. in this case, but we believe that even in the event of an unfavourable court decision regarding the counterclaim of Zlatni otok d.d., it will be possible to offset a large portion of the incurred litigation costs with the litigation costs that the CPF owes to Zlatni otok d.d. regarding the withdrawn part of the claim. The court will decide on this at the end of the court proceedings. However, the possibility of the court issuing a different decision cannot be excluded.

As at 31 December 2012, the net book value of the land at the campsites Ježevac and Politin recorded in the Company's books is HRK 10,284 thousand.

In addition, the Republic of Croatia filed a claim against Zlatni otok d.d. for the purpose of determining the ownership title over properties at the campsite "Škrila" in Stara Baška, claiming that the plot is agricultural land. Zlatni otok d.d. fully contested the claim. A hearing – an on-site investigation was held on 6 June 2008 in the presence of a surveyor expert in order to identify the properties that are the subject of this proceeding. Despite repeated reminders by the court, the expert witness findings have not as yet been received. A new hearing will be scheduled in writing.

The stated properties are located at the campsite Škrila in Stara Baška. Since the new Law on Tourist Land prescribes ownership rights of the Republic of Croatia over unevaluated land at campsites as well as establishing a co-ownership community between the company and the Republic of Croatia in proportion to the size of the evaluated and unevaluated part, we believe there is a risk of an unfavourable outcome of the proceedings for the defendant - the company Zlatni otok d.d.

As at 31 December 2012, the net book value of land at the campsite Stara Baška recorded in the Company's books is HRK 1,899 thousand.

Previously described proceedings for Zlatni Otok d.d. before the merger are not finished to the date of the issue of these financial statements. Regarding the application of the Law on Tourist and other Construction Land not assessed during privatization on these proceedings, we expect an impact of approximate 42% on net present value of the land in the campsites Ježevac, Politin and Stara Baška. Furthermore, in case of adverse outcome, no additional annual costs are expected as the land is already included in land under concession as the tourist land.

d) Riviera Adria d.d.

Company Riviera Adria d.d. as the universal legal successor of the merged companies took over all initiated proceedings and all described balances as previously stated in this Note 32. The outcome and the result of the above mentioned legal proceedings stated under a), b) and c) cannot be reliably anticipated. Result of these proceedings are expected in accordance with the Law on Tourist and other Construction Land not assessed during privatization, and the Company does not expect to have significant influence on the financial position of the Company.

**NOTE 32 – CONTINGENCIES AND COMMITMENTS (continued)**

d) Riviera Adria d.d. (continued)

On 1 August 2010, Law on Tourist and other Construction Land not assessed during privatization (“the ZTZ“), entered into force in accordance with which and based on which the ownership and co-ownership over land not evaluated in the transformation and privatisation process will finally be determined and under which the legal proceedings regarding unvalued tourist land would be settled. Within the prescribed period, on 31 January 2011, the Company initiated procedures for submitting requests for concessions on tourist land for campsites and tourist estates, as well as for determination requests on land plots/ground plans of evaluated buildings (hotels, apartments and other evaluated buildings) and other prescribed requirements. After the outcome of these procedures, the ownership and/or co-ownership of the Company on the part of the land that was not evaluated in the transformation and privatisation process will finally be determined. During 2012, the Company continued with active participation in these procedures, according to the requests and/or instructions of authorities. During 2012, from all submitted requests, only four first instance decision were made in process of determining land parcel according to ZTZ on which appeal have been made and which were brought to retrial by second instance body in two cases (for tourist land Lanterna and Solaris in Poreč, and hotel Valamar Sanfior in Rabac), while the other two procedures (for buildings in campsites Ježevac and Politin on island Krk) are still in process. During 2012, bills for part of concession fees according to the Regulation were issued and paid (advance payment of 50% of assumed fee). By the 31 December 2012 not a single initiated proceedings for concessions and other prescribed requirements haven’t been completed.

d) Transformation and privatisation audit of Dubrovnik - Babin kuk d.d. (the Subsidiary)

On 15 May 2003, the State Audit Office (in Dubrovnik) issued a Report on the performed transformation and privatisation audit of the Subsidiary. The Report states that the transformation and privatisation procedure was not entirely executed in accordance with the law. The Report did not include an assessment of whether the valuation of land with a surface area of 646,543 sq.m., which was included in the Subsidiary's founding capital, was performed correctly and in line with legal provisions. In addition, the Report also did not include an assessment of construction land, which was excluded from the Subsidiary 's capital. On 20 May 2003, the Subsidiary filed a complaint against the Report. Up to the date of these financial statements, there has been no reply from the State Audit Office on the Subsidiary 's complaint.

In 1999, the Subsidiary requested from the Croatian Privatisation Fund (CPF) a renewed transformation procedure with the aim of including land with a surface area of 84,521 sq.m. in the Subsidiary's capital. The stated land is used by the Subsidiary, but it is not entered into the Subsidiary's books. On 3 July 2002, the CPF reached a partial decision according to which the Subsidiary's proposal was denied and land with a surface area of 61,376 sq.m. was transferred to the ownership of the CPF based on the Law on Privatisation and the stated decision of the CPF. The Subsidiary initiated an administrative dispute at the Administrative Court against the decision of the CPF. On 25 January 2006, the Court reached a decision according to which the Subsidiary's request was denied and the property was transferred to the ownership of the CPF. After several years of negotiations between representatives of the Subsidiary and the CPF, the CPF reached a decision on 20 July 2009 which proposes the capital increase of the Subsidiary by transferring properties. This decision was not accepted by the General Assembly held on 17 February 2010.

**NOTE 32 – CONTINGENCIES AND COMMITMENTS (continued)**

**Land ownership**

The Subsidiary does not have legal ownership title over 27,393 sq.m. of land, which amounts to HRK 12,727 thousand. Land with a surface area of 11,329 sq.m. in the amount of HRK 5,263 thousand is currently subject to procedures of establishing the borders of the maritime demesne. The ownership title for land of 16,064 sq.m. amounting to HRK 7,464 thousand has not been registered. The land registry office of the Municipal Court in Dubrovnik denied the Subsidiary's registration of ownership title based on the decision of the Croatian Privatisation Fund according to which these properties are included in the Subsidiary's capital. Namely, the stated land is partly public property, partly maritime demesne and partly owned by third parties (during 2009, the Republic of Croatia registered on a part of the stated land, to which the Subsidiary appealed). The financial statements have been prepared under the assumption of full registration of ownership title of the assets, which became part of owner's equity of Dubrovnik-Babin kuk d.d. in the transformation process.

In 1994, the Croatian Privatisation Fund (CPF) issued a decision on the ownership transformation of the company Dubrovnik-Babin kuk d.d. In the period from 1996 to 2002, the CPF reached 6 partial and complementary decisions (and conclusions) on including properties into the Subsidiary's capital. Since these decisions did not cover all of the Subsidiary's properties and since there were numerous errors (with respect to surface areas, failure to distinguish between the old and the new land survey), in 1999 the Subsidiary initiated a renewed transformation process at the CPF, which intensified since 2005. After five-year negotiations between representatives of the Subsidiary and the CPF almost on a weekly basis, which was included in previous financial statements, the CPF reached a decision on 20 July of 2009. The stated decision proposes the capital increase of the Subsidiary by transferring seven properties with a total area of 12,884 sq.m., which form a self-contained unit. Thus, the Subsidiary's share capital would increase by the amount of HRK 52,637,000, by issuing 175,457 ordinary shares with a nominal value of HRK 300.00 per share for the benefit of the Croatian Privatisation Fund. By implementing the stated decision, the Subsidiary's share capital would increase from HRK 529,503,000 by the amount of HRK 52,637,000 to HRK 582,140,000. After implementing the above decision at the General Assembly, the CPF would issue a single decision on including the properties in the Subsidiary's capital. This would correct the mistakes and irregularities in the existing decisions of the CPF, it would resolve the status of the military barracks, 10,046 sq.m. would be included in the camp grounds element of the Subsidiary's capital.

In August 2009, the Subsidiary filed an administrative claim with the Administrative Court of the Croatian Republic against the decision of the Croatian Privatisation Fund dated 20 July 2009. The claim, on which a court decision is still outstanding, requests the annulment of the CPF's decision in its entirety. Among the main reasons for filing an administrative claim was the opinion of the Law Firm Bogdanović, Dolički & Partners according to which the Croatian Privatisation Fund had no authority to make such a decision, based on which the defined self-contained unit is transferred to the CPF, and whereby the determined property value proposed by the CPF to be recorded in the Subsidiary's capital is too high.

Namely, instead of accepting the realistic value of the land identified by an expert witness, selected from the list of expert witnesses of the Dubrovnik County Court and appointed by the CPF, the CPF accepted the value of the land assessed by the Tax Authority in Dubrovnik, which made a number of omissions in the valuation process and which the Subsidiary repeatedly objected to in the course of the administrative procedure.

On 17 February 2010, an extraordinary General Assembly Meeting of the company Dubrovnik-Babin kuk d.d. was held and the resolution of the Croatian Privatisation Fund of 20 July 2009, requiring a capital increase of the Subsidiary, was not accepted. Due to the above decision, the Subsidiary already increased the provision for legal claims in 2009, since the Subsidiary expects further action of the CPF in the coming period and the CPF entered a notification into the land registry of legal proceedings in respect of the specified land.
