ABOUT VALAMAR

Valamar is Croatia's leading tourism company operating in prime destinations – Istria, the islands of Krk, Rab and Hvar, Makarska, Dubrovnik, and Obertauern in Austria.

Valamar's 36 hotels and resorts and 15 camping resorts with a capacity of about 21 thousand accommodation units, can accommodate around 58 thousand guests daily and provide perfect holidays and authentic experiences for each guest. The company believes in a growth-driving strategy focused on investments in high added-value products, talents, innovative services and destination development. With investments around EUR 915 million in the last 20 years, Valamar is one of the top Croatian and regional investors in tourism.

Valamar is Croatia's top employer in tourism, focused on creating a stimulating corporate culture where guests, employees and investors come first. Valamar leads the innovative management of leisure tourism and creates new value for guests, employees, shareholders and local communities in its destinations.

Valamar Group consists of following companies: Valamar Riviera d.d. (Parent company), Imperial Riviera d.d. (a subsidiary in 46.27% ownership) and Bugenvilia d.o.o. (100% owned subsidiary). Valamar holds minority ownership positions in following companies: Helios Faros 20% and Valamar A GmbH 24.54%.

KEY MESSAGES

BUSINESS RESULTS

Due to the seasonal nature of Croatian tourism, the share of the first quarter in the total annual revenues is commonly very small. The results of the first quarter are thus not indicative for the whole year. Additionally, the number of operating days in most hotels and campsites was higher compared to last year given that this year's Easter holidays were earlier than last year starting at the very end of the first quarter. This year, the Group started preparations for the opening of its properties earlier than last year, which resulted in increased costs for the first quarter of 2024.

The continuing trend of increase in average prices (+30.9%) and a significant increase in overnights (+44.7%) has had a positive impact on operating revenues (+56.1%) compared to the first quarter of 2023. Mainly due to an earlier start of preparations for the season and corresponding higher employment, operating profit (adjusted EBITDA) is EUR 1.7 million lower than last year and amounts to EUR -20.7 million. Following new Regulation from February 2024 costs for the lease of tourist land have increased. These costs are booked in the first quarter this year (which was not the case in previous years).

The good trends in booking point to yet another successful tourist season. We are especially pleased about a significant improvement in the booking for Dubrovnik versus last year. Market expectations about a considerable increase in the number of flights to this destination compared to last year have surely contributed to this.

One of the indicators of a potentially good tourist year is the successful completion of the winter season in Obertauern, where, after renovation and rebranding, a third hotel under Valamar's management - Obertauern [PLACESHOTEL] 4* - opened in December 2023. All three Valamar hotels in Obertauern saw certain improvements in their business operations, and 165 of our employees from Croatia were employed there. The Group and the MICE segment in Austria recorded a particularly large increase in revenues. Certainly, a good winter season does not necessarily mean that the summer season will be successful.

TOURIST LAND

We welcome the adoption of regulations for leasing tourist land enabling us in the tourism sector to enable further development and investment in the camping segment. We believe the benefits of clarity will significantly outweigh the additional cost over the long run. The Regulations set the prices of leasing tourist land for 50 years and define the legal framework that enables companies in the tourism sector to make concrete strategic plans and prepare investments and long-term development. Also, the framework will significantly reduce the challenges of the legal uncertainty concerning tourist land and disposal of tourist land and catering facilities (e.g. purchasing and mortgaging).

BUSINESS STRATEGY UNTIL 2026

Valamar has adopted a sustainable business strategy until 2026, which is based on a EUR 450 million investment plan aimed at building the premium resorts of Pical and Rab, continuing to enhance the quality of its hotels and campsites, internationalising its business operations and investing in socially responsible and sustainable tourism projects.

Valamar's strategic goals include achieving double-digit annual growth of its business operations and company value according to the relative multiple method. The targeted operational profit (EBITDA), following the implementation of strategic initiatives in 2026, amounts to EUR 150 million. It represents an increase in average annual profit of approximately 11% on 2022. Targeted dividend yield for Valamar's shareholders in the following period amounts to around 4%. The dividend payment will depend on realisation of Valamar's annual business plans and the development of Valamar share price (as well as current but also expected future earnings, investment plans and financial position of the Company and similar). Revenues are planned to increase to EUR 500 million, of which 50% will be realised outside the main tourist season and as much as two-thirds to come from direct sales.

INVESTMENTS

Investments for the 2023/24 season in Group's hotels, resorts and campsites amount to EUR 83 million. They represent an important further step in improving service quality and enabling the Group's growth. On top of that amount, an investment in the Pical project with a total investment value of EUR 139 million is planned within this year and next year.

Valamar Riviera d.d. will invest EUR 7.7 million in renovation of 180 accommodation units at Allegro Sunny Hotel 3* in Rabac and 90 of total 120 accommodation units at Miramar Sunny Hotel 3* in Rabac, where 30 accommodation units were already renovated in 2021. The merger of these two hotels has created a new Sunny brand product called Allegro Sunny Hotel & Residence 3*. Another significant investment of EUR 5.7 million relates to the renovation of accommodation units at Koralj Sunny Hotel 3* on the island of Krk and the introduction of children's facilities. This investment includes a complete renovation and redesign of 194 accommodation units and an increase in the hotel's bed capacity by 120, which is an increase from 429 to 549 beds.

The most significant investment of Imperial Riviera d.d. concerns the first phase of reconstruction of the existing Suha Punta resort (Valamar Collection Rab Resort 4*/5*) in the destination of Rab. This is a multi-phase project whose goal is to firmly position this destination among the best destinations for family holidays in the Adriatic. The renovation of the existing complex of Rivijera Sunny Resort by Valamar 2* (Makarska Sunny Resort 3*) in the destination of Makarska is also underway, to reposition the resort to the Sunny brand. Sunny is a brand which has already been recognised on the market as a brand offering economical and simple holidays with excellent service quality and the best value for money.

Apart from the above, Valamar Riviera d.d. has started investing in the Pical project. This project is the largest single investment in the Croatian tourism industry, and the hotel will offer top-quality tourism services all year round. resort was signed in Poreč on 14 March 2024. The contract value amounts to EUR 81.7 million, with the value of the total investment being EUR 139 million. Works began on 18 March 2024 and the planned deadline for the completion of all works is December 2025. Hotel Pical 5* will have 513 accommodation units, 10 themed restaurants and bars, a wellness centre, refurbished beaches and beach clubs, outdoor and indoor pools and facilities for various types of vacation. For families, Pical will offer the Maro World educational playroom spanning more than 1,200 m², Maro clubs, children's playgrounds and a family-friendly entertainment programme. The hotel will also showcase one of the best congress centres with a multifunctional hall whose capacity will be up to 1,200 participants. Pical Beach, all sports and entertainment services, indoor swimming pool, and other recreational facilities will be available to guests, visitors, and residents alike. Hotel Pical will boast around 600 permanent employees and provide an excellent opportunity to grow a career in hospitality.

HUMAN RESOURCES

This year Valamar, the most desirable employer in the Croatian tourism industry, also continues with significant investments in its employees. In agreement with the social partners, Valamar has increased the basic salary for more than 5,000 employees. Salaries in the high season from June to August for professional positions, i.e. chefs, waiters and receptionists at Valamar's hotels, campsites and resorts, will range from EUR 1,400 to 2,000 net, while salaries for housekeepers, assistant chefs, assistant waiters, kitchen workers, servers and many others will range from EUR 1,000 to 1,300 net. Valamar also continues with its several reward programmes that are designed to reward excellence, commitment and outstanding results.

SUSTAINABILITY

In January Valamar was awarded the silver medal of EcoVadis, a global agency for rating a wide range of business sustainability practices. Valamar thus became the first Croatian tourism company whose sustainable practices have been recognised globally. In January, Valamar also achieved the best ESG rating in Croatia according to Bloomberg Adria, which analysed

the largest Croatian companies listed on the Zagreb Stock Exchange. Valamar stood out with the highest total ESG score of 4.41, being the only tourism company on the list and the only company that achieved a total score above 4.

In 2024, Valamar will continue to invest heavily in its strategic projects and initiatives within the ESG strategy. Investments in reducing the carbon footprint relate to further decarbonisation, investing in renewable energy sources, with a focus on solar energy, electric vehicles, bio-composting and others. We encourage biodiversity through afforestation and care projects for 80,000 trees, so an additional 883 trees will be planted at Valamar. Together with our guests, we plan to plant 10,000 trees in other parts of Croatia. We have continued our partnerships with local food producers and our focus remains on improving further cooperation in sustainable business practices with our suppliers. We have introduced a policy of responsible practices and behaviours to increase the number of sustainable suppliers.

Valamar Riviera has also become a member of the Energy & Environment Alliance (EEA), a global coalition of hospitality business managers working to transition hospitality businesses to net zero carbon emissions and to provide environmental, social and governance (ESG) leadership in a timely, scientifically robust and commercially sustainable way.

GENERAL ASSEMBLY

The General Assembly was held on 24 April 2024 and it adopted the decision on the utilisation of profit realised in 2023, on approving actions of the members of the Management Board and Supervisory Board, approval of the report on the remuneration to members of the Management Board and Supervisory Board for 2023, and appointment of Ernst & Young d.o.o. za reviziju and UHY RUDAN d.o.o as the Company's

Due to the seasonal nature of Croatian tourism, the share of the first quarter in the total annual revenues is commonly very small. In the first quarter of last year, the number of operating days in most hotels and campsites was significantly reduced after a multifold increase in electricity costs. On the other hand, this year's Easter holidays were earlier than last year, with a major part of these holidays happening at the very end of the first quarter. The good trends in booking point to yet another successful tourist season. We are especially pleased about a significant improvement in the booking for Dubrovnik versus last year.

REVENUES

In the first quarter of 2024, total revenues amounted to EUR 13.1 million, which represents an increase of 72.0% (EUR 5.5 million). The total generated revenues have been influenced by:

a) growth in sales revenue by 57.6% (3.9 million euros) to the amount of 10.7 million euros, which is primarily made up of board revenue (6.1 million euros). There was a slight change in the revenue structure: sales in the country amounted to EUR 5.0 million with a share of 47.0% in total sales (49.1% in the first quarter of 2023) and compared to 2023 higher by 1.7 million euros. With a share of 53.0% in total sales (50.9% in the first quarter of 2023), sales on foreign markets amount to EUR 5.7 million and are higher by EUR 2.2 million.

b) increase in other operating revenue by EUR 135 thousand compared to 2023 to EUR 550 thousand mainly due to recognized revenue from previous periods

c) financial revenue amounts to EUR 1.4 million and is 224.6% higher than realized in 2023, mostly as a result of unrealized revenue from financial assets (on the basis of the increase in the fair value of interest rate swaps).

TOTAL OPERATING EXPENSES

In the first quarter of 2024, after two regulations defining the prices and the legal framework relating to tourist land were adopted in February 2024, Valamar Group did the following:

- assessed the value of the right-of-use assets and liabilities according to IFRS 16 as of 1 January 2024 in the amount of EUR 62.5 million for the Group (EUR 57.7 million for the Company) and booked the expenses on that basis as follows:

- depreciation amounting to EUR 339 thousand for the Group (EUR 313 thousand for the Company)

- interest rate amounting to EUR 877 thousand for the Group (EUR 782 thousand for the Company)

- concerning the variable part of the lease, the Group booked the lease costs of EUR 223 thousand for the Group (EUR 223 thousand for the Company) under item Other External Costs within Material Costs.

In the first quarter of 2023, the Company did not book any costs relating to tourist land.

Total operating expenses amount to EUR 48.9 million and are 16.2% higher than last year. The development of operating expenses is as follows:

a) material costs amount to EUR 10.6 million and are higher by 15.6%, mainly as a result of increased costs of raw materials, maintenance, consumables, costs of promotional activities and marketing, and costs of lease of tourist land (explained earlier)

b) personnel costs increased by 19.5% and amount to EUR 15.8 million, after a higher average number of employees and additional investments in increasing wages for employees

c) depreciation amounts to 17.2 million euros, which represents an increase of 8.4%, mostly due to increased capital investments in 2023 and depreciation related to tourist land

d) other expenses increased by 33.1% to the amount of 4.7 million euros. The increase is mainly due to increased costs for food, accommodation and education of employees and travel costs

e) other operating expenses amount to 557 thousand euros, which represents an increase of 303 thousand euros, mostly due to the recognition of expenses from past periods.

¹² Classified according to Annual Financial Statements standard (GFI POD-RDG).

¹³ Operating costs include material costs, staff costs, other costs, and other operating costs reduced by extraordinary expenses and one-off items.

EBITDA AND PROFIT FOR THE PERIOD

The first quarter is generally marked by a characteristic negative EBITDA due to seasonally decreased business volume. Thus, in the first quarter of 2024, a negative adjusted EBITDA of -20.7 million euros was realized. It represents a deterioration of 8.7% (or by 1.7 million euros) compared to the negative adjusted EBITDA realized in the first quarter of 2023 in the amount of -19.0 million euros. The main reasons for this are the earlier start of preparations for the season and thus higher employment. An additional negative impact came from the costs related to the lease of tourist land (EUR 223 thousand), which, in accordance with the new Regulations from February 2024, were increased and this year are booked already in the first quarter (which was not the case in previous years).

After increased depreciation and a slightly improved net financial result (explained in more detail in the next chapter), earnings before tax (EBT) amount to -39.2 million euros, which is 2.1 million euros lower than last year. The Group estimated the increase in deferred tax assets on the realized loss and recognised tax revenue of EUR 7.1 million accordingly. The net loss for the period is EUR 32.1 million. Due to the highly pronounced seasonality of business, the profit tax estimate for the quarterly reports is not an indicator of the final profit tax on 31 December 2024.

Valamar Carolina Hotel & Villas 4*, Krk Island

RESULT FROM FINANCIAL ACTIVITIES

The result of financial activities for the first three months of 2024 is -2.0 million euros, which is 0.2 million euros higher than in the same period of 2023, when it was -2.2 million euros.

The better net financial result was mostly influenced by unrealized income from financial assets (based on the increase in the fair value of interest rate swaps) of EUR 0.9 million compared to the same period last year. The growth of interest rates on deposits resulted in 0.2 million euros higher other income from interest.

The growth in interest expenses of EUR 0.9 million is almost entirely due to the interest expense under the liability item for IFRS 16 Rent of tourist land, which is included in the balance sheet of the Company and the Group as of 1 January 2024 (explained in chapter Total operating expenses).

Financial income and expenses

Net debt ¹⁴

¹⁴ Net debt: non-current and current liabilities to banks and other financial institutions + liabilities for loans, deposits and other + other liabilities according to IFRS 16 (leases) – cash and cash equivalents – long-term and short-term investments in securities – current loans given, deposits, etc. Liabilities for tourist land under IFRS 16 excluded.

ASSETS AND LIABILITIES

On 31 Mar 2024, the total value of the Group's assets is EUR 867.6 million, which is 5.0% higher than on 31 Dec 2023. The total share capital and reserves amount to EUR 411.3 million and are lower by 8.0% as a result of the realized loss in the first quarter of 2024.

As explained earlier in the chapter Total operating expenses, in the first quarter of 2024, Valamar Group carried out an assessment of the value of assets and liabilities with the right of use in accordance with IFRS 16 on 1 January 2024 in the amount of EUR 62.5 million. By this, the balance sheet of the Group increased by the stated amount: assets in the position Land (within Tangible assets) and liabilities in the position Other long-term liabilities (within Long-term liabilities) and Other short-term liabilities (within Short-term liabilities).

Total long-term and short-term liabilities to banks and other financial institutions as of 31 Mar 2024 amount to EUR 285.1 million and are 3.0% lower than on 31 Dec 2023 as a result of loan repayment.

Almost entire loan portfolio consists of long-term loans with an agreed fixed interest rate or loans protected by derivative instruments (IRS) for the purpose of protection against interest rate risk. This largely eliminated the interest rate risk. Additionally, most of the Group's cash receipts are in euros, as is the entire credit portfolio, which largely eliminates currency risk.

Assets and liabilities

On 31 Mar 2024 the Group's cash balance is EUR 38.0 million, which represents a decrease of 31.2% compared to 31 Dec 2023. The main reasons for the decrease in cash in the first quarter of 2024, in which high seasonal inflows are usually absent, are loan repayments, investments in long-term assets and expenses needed to prepare for the high season. High cash balance of the Group together with i) the contracted credit lines, ii) valuable tourism assets and iii) a strong operational business model made the Group's balance sheet position stable.

Results of the Company

In the first quarter of 2024, total revenues amount to 11.6 million euros, which is an increase of 43.6% or 3.5 million euros compared to the same period in 2023, when they amounted to 8.1 million euros. Sales revenues amount to 8.2 million euros and are 47.4% higher than in the same period last year.

Material costs amount to 8.5 million euros with a growth of 9.0% as a result of increased costs of raw materials, maintenance, consumables, costs of promotional activities and marketing and costs of renting tourist land (explained in chapter Total operating expenses).

Personnel costs amount to EUR 13.1 million and are 15.0% higher compared to last year, after a higher average number of employees and additional investments in increasing salaries and rewards for employees. Depreciation amounts to EUR 3.7 million and is 28.1% higher than last year, mostly due to increased capital investments in 2023 and depreciation related to tourist land (explained in chapter Total operating expenses).

In the first quarter of 2024, net financial result is -1.5 million euros (-1.2 million euros in the same period of 2022). Lower net financial result was mostly influenced by the growth of interest expenses of EUR 0.6 million, which is entirely the result of the interest expense under the liability item for IFRS 16 Rental of tourist land. On the other hand, the largest positive effect of EUR 0.3 million comes from net unrealized income from financial assets (on the basis of the increase in the fair value of interest rate swaps).

The first quarter generally has a characteristic negative EBITDA due to the significantly lower seasonal business. Thus, in the first quarter of 2024, a negative EBITDA was realized in the amount of -14.9 million euros, which represents a deterioration of 0.3 million euros compared to the EBITDA realized in the first quarter of 2023. This is primarily the result of the previously described increase in costs. After increased depreciation and a slightly weaker net financial result, earnings before taxation (EBT) amounts to -28.5 million euros. The Company estimated the increase in deferred tax assets on the realized loss and recognized tax revenue

of EUR 5.1 million, accordingly. The net loss for the period is EUR 23.4 million. Due to the highly pronounced seasonality of business, the profit tax estimate for the quarterly reports is not an indicator of the final profit tax on 31 December 2024.

On 31 Mar 2024 the total value of the Company's assets is EUR 707.3 million, which is 7.1% higher than on 31 Dec 2023. The total share capital and reserves amount to EUR 385.8 million and are 5.3% lower as a result of the realized loss in the observed period. On 31 Mar 2024 the Company's cash balance amounts to EUR 31.4 million, which represents a decrease of 32.1% compared to 31 Dec 2023.

Investment cycle 2023/24

Valamar Riviera's continued success and growth is a result of investing in products, employees and tourist destinations, always ensuring sustainable and socially responsible development through Valamar's commitment to reducing its carbon footprint and constant investment in renewable energy sources. Along with enhancing our tourist offering, we have also been developing Valamar's service concepts to meet the current market demands and guest expectations. The planned portfolio repositioning and development toward high added-value offerings and services, with emphasis on the premium resorts and campsites segment, has been appropriately adjusted to a reduced investment intensity all the while preparing for the new growth and development projects. Following the harmonisation of our planned portfolio and development with the tourist flows and a proactive approach to cash flow management and financing, we have focused the implementation of our investments in the 2023/24 cycle mostly on realising new investments aimed at boosting our quality level and guest satisfaction.

The total of the approved investments for the 2023/24 investment cycle at the Valamar Group level amounts to EUR 83 million. Investments are mainly directed towards renovating accommodation units in hotels and campsites. Apart from that, Valamar is also actively investing in environmental protection and energy efficiency, safety and digitalisation, and innovation for a new period of growth.

VALAMAR RIVIERA

Valamar Riviera d.d. continues its 2023/24 investment cycle worth EUR 44.1 million. The planned investments aim to improve business processes, enhance operations, raise the quality of facilities and services, and increase energy efficiency and digitalisation.

The largest single capital investment in 2023/2024 amounts to EUR 7.7 million and relates to the renovation of 180

Rabac Sunny Hotel & Residence 3, Rabac (Vizulizacijatra)*

accommodation units at Allegro Sunny Hotel 3* in Rabac and 90 of the total 120 accommodation units at Miramar Sunny Hotel 3* in Rabac, while the remaining 30 accommodation units were renovated in 2021. The merger of these two hotels has created a new Sunny brand product called Rabac Sunny Hotel & Residence 3*. In addition to room renovations, this investment also includes investing in children's facilities in both hotels, an outdoor trampoline park and the expansion and increase in the capacity of the restaurant for hotel guests by adding an outdoor terrace with an additional 80 seats due to the enhancement of the hotel's total accommodation capacity. The F&B service concept will be Sunny Breakfast & Brunch and Sunny Dinner. This unique Sunny brand product will provide accommodation in a fantastic location and focus primarily on families.

Another significant investment of EUR 5.7 million pertains to reconstructing accommodation units at Koralj Sunny Hotel 3* on the island of Krk and installing children's facilities. The investment includes a complete renovation and redesign of 194 accommodation units and an increase in the hotel's bed capacity by 120, whereby the hotel's capacity will increase from 429 to 549 beds. The implementation of children's facilities on the ground floor includes a new children's playroom, a Multimedia Game Lounge, a Family Lounge, Maro Smart Play Rooms and an upgrade of the Chill and Play Zone.

The plans for Isabella Valamar Collection Island Resort 4*/5* Hotel in Poreč include upgrading the level of its Oliva Grill restaurant and expanding the outdoor terrace and kitchen. Meanwhile, at Valamar Argosy Hotel 4* in Dubrovnik, an investment has commenced to cover its Mezzino Pool Bar with a roof.

In addition to investing in hotels, Valamar actively invests in its campsites. Given the growing demand for camping tourism, this investment cycle has started with the plan to invest more than EUR 2.5 million in expanding and enhancing the standard of our campsites and their facilities. At our Lanterna Premium Camping Resort 4* in Poreč, two supermarkets are being reconstructed, along with two sanitary blocks, and quality improvement is ongoing for 24 existing pitches in Zones A and C from Standard to Comfort as well as quality improvement of 2 pitches in Zone K from Comfort Mare to Premium Mare. 12 new Premium mobile homes

with terraces are being set up at Marina Camping Resort 4* in Rabac, 7 new mobile homes are being set up at Baška Beach Camping Resort 4* in Baška, and 20 pitches for mobile homes and 5 Mega Comfort pitches are being built at Solaris Camping Resort 3* in Poreč. Apart from that, quality enhancement of 15 existing pitches in Zone A to Mega Comfort pitches is ongoing at Orsera Camping Resort 3* in Poreč, as well as of 10 pitches in Zones A and B at Istra Premium Camping Resort 5* in Poreč and of 7 Comfort pitches to Premium Mare pitches in Zone F at Škrila Sunny Camping 3* on the island of Krk.

Valamar Riviera is committed to sustainable and socially responsible business practices. Therefore, we are investing more than one million euros in various energy efficiency projects and EUR 3.7 million in sustainability projects by purchasing electric vehicles, planting trees, recycling bio-waste and other initiatives. Notable ongoing investments include the continuation of the 'Eco Corners' project at Lanterna campsite and the bio-waste projects at Lanterna apartments, Diamant Hotel and President Hotel in Dubrovnik, along with the installation of the new heat pumps at hotels Sanfior and Girandella.

In addition to environmental protection and energy efficiency, we pay particular attention to the investment maintenance of all our destinations by investing in the regular maintenance of properties and facilities for the safety of our guests. In the 2023/2024 investment cycle, we plan to invest about EUR 11.7 million. Notable investments that have been initiated include the reconstruction of two sanitary blocks at Lanterna campsite and the construction of the Maro playground. At Tamaris Hotel, the reconstruction of Vila, Casa Agava and Casa Palma has begun, valued at one million euros. Accommodation units are being refurbished, bathrooms reconstructed and the pool area revamped. We are additionally investing in the reconstruction of the terraces of the Spinnaker restaurant in Poreč and Miramare restaurant on Isabella Island, as well as the arrangement of Piazza at Baška Beach campsite. We also place great importance on investing in accommodation for our seasonal workers. In the destination of Dubrovnik, the third phase of accommodation refurbishment has been completed, which included interior decoration and furnishing of an additional 36 rooms (72 beds) valued at EUR 980 thousand. Additionally, the interior decoration and furnishing of the Lanterna and Diamant apartments have been

finalized, with an investment exceeding EUR 400 thousand. We are investing about 600 thousand euros in the purchase of furniture and equipment, with an additional 800 thousand euros in an upgrade of beaches and over 800 thousand in safety improvements.

With the development of digitalisation, we have been making continuous efforts to enhance our service quality. For this reason, in this investment cycle, we are investing over EUR 5.8 million in digitalisation and innovation projects, with the largest allocation being earmarked for the development of the Valamar.com website. In addition to investments in digitalisation, an additional EUR 1.7 million are being invested in IT maintenance projects, and more than 200 thousand euros in branding and signage.

On top of above investments, an investment in the Pical project with a total investment value of EUR 139 million is planned within this year and next year. The Pical project is the largest single investment in Croatian tourism, which will offer top-quality tourism services all year round. A contract between the investor Valamar Riviera d.d. and the contractor Kamgrad d.o.o. to continue the construction of the Pical resort was officially signed in Poreč, on 14 March 2024. The value of the contract is EUR 81.7 million, with the total investment valued at EUR 139 million. Construction began on 18 March 2024, with the planned completion date for all works being December 2025. In addition to the reconstruction of this hotel, a plan of investing in beaches in the upcoming period 2024 – 2026 is also being prepared.

Hotel Pical 5* will feature 513 accommodation units, 10 themed restaurants and bars, a wellness centre, landscaped beaches and beach clubs, outdoor and indoor pools and facilities for various types of vacation. For families, Pical will offer the educational Maro World playroom spanning more than 1,200 m², Maro clubs, children's playgrounds and an entertainment programme tailored for families. There will also be a range of facilities for an active vacation, such as the new Bike Centre Parenzana, outdoor running trails, water sports and an indoor 25m swimming pool. Pical Beach, all sports and entertainment facilities, indoor pool, promenades and other recreational facilities will be open to the public and available for the use of our guests and visitors as well as the local community. The Pical Zone will become the most attractive tourist zone in Croatia and will showcase one of the best congress centres with a multifunctional hall capable of accommodating up to 1,200 participants.

IMPERIAL RIVIERA

Imperial Riviera d.d. continues its 2023/2024 investment cycle worth EUR 38.4 million with the key objective being a further improvement of the company's offerings in all of its destinations.

The most significant investments are focused on repositioning and improving service quality, digitalisation, green building, sustainable energy sources and tourism infrastructure in all destinations. They primarily relate to the first phase of the reconstruction of the existing tourist resort Suha Punta (Punta Arba Resort 4*/5* Valamar Collection in the destination of Rab). This project is foreseen to be carried out in several phases and is aimed at firmly positioning this destination among the top family vacation destinations on the Adriatic. In early March, a contract was signed with the main contractor, the construction company Radnik d.d., for building that tourist resort Punta Arba Resort 4*/5* Valamar Collection in Suha Punta on Rab. Works on the pool have begun (excavation and concrete works) as well as works on demolishing the existing and constructing a new and larger hotel wing. Craftsmanship and installation works on existing rooms, facades, and roofing are planned to begin soon.

Renovations are currently underway at the existing complex of Rivijera Sunny Resort by Valamar 2* (now rebranded to Makarska Sunny Resort 3*) in the destination of Makarska, where this complex will also be repositioned under the Sunny brand, which has been already recognised by the market as a brand offering economical and simple vacation with excellent service quality and the best value for money. Additionally, construction has begun on the Bike Centre Valamar at Parentino Hotel 4* in Poreč, while further investments continue in the destination of Rab to enhance the offering of Imperial Valamar Collection 4*, along with the renovation of the new Brdo Zone at Padova Premium Camping Resort 4*. The additional refurbishment of Valamar Padova 4* Hotel was completed, and it opened its doors to guests on 1 March 2024. In the destination of Dubrovnik, further investments are being made to enhance the offering of Valamar Lacroma 4* Hotel and construction work is being carried out in a part of Solitudo Sunny Camping, which is planned for the accommodation of our workers.

The company continues to intensively work on the preparation of project and zoning documentation for investments in the destination of Rab concerning the complex of Suha Punta, San Marino Sunny Resort by Valamar 3* and San Marino Premium Camping Resort by Valamar 4*.

SUSTAINABILITY

Valamar has been awarded the prestigious silver medal from EcoVadis, a leading global agency renowned for evaluating business sustainability practices. This recognition marks a significant milestone for Valamar as the first Croatian tourism company to earn global acclaim for its sustainable initiatives. EcoVadis assesses companies based on environmental impact, labor and human rights, ethics, and sustainable procurement, earning recognition from international institutions, investors, and banks. Valamar's achievement of the silver medal places it among the top 15% of companies evaluated by EcoVadis.

In January, Valamar Riviera also secured the highest ESG rating in Croatia according to Bloomberg Adria, after an analysis of major Croatian companies listed on the Zagreb Stock Exchange. Valamar distinguished itself with an outstanding overall ESG score of 4.41, standing as the sole tourism company on the list and achieving the only overall score surpassing 4. The company excelled across all categories including environment, society, and governance.

Throughout 2024, Valamar continued to invest in strategic ESG projects and initiatives. Investments were directed towards reducing the company's carbon footprint through decarbonization efforts, investments in renewable energy sources—particularly solar energy—deployment of electric vehicles, and biocomposting initiatives. Valamar actively promoted biodiversity through afforestation projects, caring for over 80,000 trees, with plans to plant an additional 883 trees on its properties and engage guests in planting 10,000 trees across Croatia. The company continued to foster partnerships with local food producers, enhancing collaboration with suppliers to promote sustainable business practices, and implementing responsible policies to expand its network of sustainable suppliers.

In 2024, Valamar allocated around EUR 20 million towards employee development and reward programs, encompassing various educational, developmental, and housing incentive initiatives at its destinations. Investments were also channeled into enhancing tourism infrastructure such as promenades, bike paths, playgrounds, and beaches, alongside support for destination events, community outreach, and local CSR organizations.

Noteworthy projects such as “Valamar brine za marende fine” in Labin and the Valamar Kindergarten in Poreč continued to thrive.

Furthermore, Valamar joined key global initiatives for sustainable development, including the Science Based Targets initiative and the UN Global Compact. By partnering with the UN Global Compact (the world's largest sustainable development and corporate sustainability initiative encompassing over 15,000 members in 162 countries and 69 local networks worldwide) Valamar commits to conducting business in accordance with its Ten Principles, which emphasize human rights, labor standards, environmental protection, and anti-corruption measures. Joining the Science Based Targets initiative underscores Valamar's dedication to reducing emissions in alignment with global climate goals. In the period between 2015 and 2022, Valamar achieved in reducing greenhouse gas emissions by 67% and implementing photovoltaic power plants to cover 6% of its electricity needs, and reducing total waste per overnight.

Valamar Riviera has also become a member of the Energy & Environment Alliance (EEA), a global coalition of hoteliers dedicated to transitioning hospitality businesses to net-zero carbon operations while prioritizing ESG management in a scientifically sound and commercially viable manner.

ESG STRATEGY

At the beginning of 2024, Valamar adopted a new strategy for sustainable business development until 2026, which will also be presented as part of the integrated report for 2023. The sustainability strategy covers 12 key objectives in the field of environment (E), society (S) and governance (G). Valamar is the first tourism company in Croatia to integrate sustainable development into business and development management and to announce sustainability goals according to the ESG framework.

ESG PROJECTS AND ACHIEVEMENTS

Environment

Reducing greenhouse gas emissions stands as one of the 12 key Environmental, Social, and Governance (ESG) targets outlined in Valamar's strategic framework. Valamar is committed to reducing its carbon footprint

by progressively transitioning from fossil fuels to electricity sourced from renewable channels. Initiatives such as the deployment of heat pumps, installation of photovoltaic power plants across its properties, and adoption of various energy-efficient practices contribute significantly to this endeavour. In collaboration with E.ON, Valamar has successfully installed photovoltaic power plants at its tourist facilities, covering 6% of our total electricity demand. In 2024, our focus persists on upgrading to LED lighting, integrating electric vehicles, furthering decarbonization

efforts, and ensuring that 100% of our electricity derives from renewable sources. Additionally, rigorous measurement and management of scope 3 emissions remain integral to our strategy, with defined actions set to achieve scope 1 and 2 decarbonization targets by 2026. Valamar remains dedicated to Valfresco Direkt platform – Valamar’s online platform for showcasing products from local family farms, wineries, olive orchards, and other domestic producers. This initiative not only safeguards local biodiversity but also fosters socio-economic sustainability by promoting regional production and consumption.

Efforts to minimize waste generation and promote responsible disposal practices remain a priority. With additional investments in our own biocomposting facilities, we’ve scaled up biocompost production to 347 tons in 2023, maintaining this momentum. Notably, Valamar has made significant strides in eliminating single-use plastics across its hotels and campings. Cosmetic amenities are provided in eco-conscious packaging, made from natural or biodegradable materials such as wood, bamboo, and cotton. Digital menus have replaced paper counterparts, while environmentally friendly alternatives have supplanted plastic straws since 2018. Ongoing communication with guests, employees, and suppliers underscores our commitment to effective waste management.

Valamar oversees the care of over 80,000 trees and remains dedicated to conservation efforts through initiatives like the “Easy as One, Two, Tree” campaign, which aims to plant over 10,000 trees in Croatia in 2024—1,000 more than the previous year. Collaborating with BioM, we’ve installed 250 bird nesting houses, alongside 70 insect hotels, 90 bat houses, and 30 hedgehog dwellings across our properties, totalling more than 400 habitats. Furthermore, our partnership with WWF involves rigorous analysis of seafood products within our supply chain to prioritize those with minimal impact on biodiversity and marine ecosystems.

Society

As the leading investor in Croatian tourism, Valamar has invested over one billion euros into the sector over the past two decades, repositioning the portfolio towards high-quality with added value. Over the last seven years, Valamar has remained the best employer in Croatian tourism.

In the current year alone, an additional EUR 25 million has been allocated towards enhancing employee wages and benefits. Socially responsible investments, comprising 3-5% of annual revenue, are prioritized for employee advancement, student scholarships, and the development of tourism infrastructure such as promenades, bike paths, playgrounds, and beaches. Additionally, support for cultural and sporting events in destination, alongside numerous community initiatives, underscore Valamar’s commitment to enhancing local quality of life. The company’s dedication to environmental protection and energy transition has earned it accolades at the European level, positioning it as a prominent leader in sustainable tourism practices.

In 2024, Valamar continues its substantial investment in its workforce, exemplified by an agreement with social partners to increase basic salaries for over 5,000 employees. Professional positions can expect remunerations ranging between 1,400 and 2,000 euros net during peak season. Furthermore, Valamar plans to create an additional 400 permanent job opportunities this year. Through the “Živi destinaciju” initiative, employees residing in destination areas or opting for permanent relocation stand to benefit from an extra EUR 400 net, incentivizing year-round employment and local engagement.

Valamar has again been named the most desirable employer in tourism and is still the only tourism company on the list of the 20 best Croatian employers - according to the latest research conducted by Alma Career Croatia, which manages the MojPosao portal. Valamar’s continued presence on this prestigious list for the seventh consecutive year underscores its commitment to employee satisfaction and professional development.

In March 2024, Valamar hosted the esteemed Istarska Rivijera, Croatia’s oldest international tennis tournament, reaffirming its dedication to fostering sports development and promotion within the communities it operates in. The company remains committed to ongoing investments in infrastructure and sports facilities, ensuring that its destinations remain highly desirable for sports and leisure enthusiasts alike.

Governance

Valamar's commitment to sustainability is underscored by the array of certifications and accolades bestowed upon Valamar Group and properties by esteemed certification bodies and organizations. Notably, in January 2024, Valamar Riviera attained the highest Environmental, Social, and Governance (ESG) rating for management in Croatia, an exceptional achievement marked at 4.9, according to Bloomberg Adria.

These sustainability certificates confirm Valamar's adherence to rigorous standards of environmental protection and social responsibility. They affirm our dedication to incorporating ecological considerations, health and safety protocols, labour and human rights principles, and community welfare into our business decisions. Valamar upholds ISO 9001 quality certifications, ISO 14001 environmental certifications, ISO 50001 energy management standards across all properties, Travelife sustainability certifications for 28 hotels, EU Ecolabel recognition for 6 campsites, and a notable tally of 16 Blue Flag certifications for our beaches.

In 2024, Valamar remains committed to fostering sustainable partnerships with suppliers, employing sustainability criteria in procurement processes. We actively engage with suppliers to heighten awareness and facilitate the transition towards more environmentally responsible practices, including the adoption of eco-friendly packaging materials. Our initiatives encompass new tender procedures, comprehensive scope 3 emissions assessments, ongoing efforts to eliminate disposable plastics from our properties, and the administration of ESG surveys. In alignment with our strategic goals, we aim to ensure that 80% of our procurement value is sourced from responsible and sustainable suppliers by 2026. To this end, we've introduced a Supplier Code of Conduct, outlining fundamental principles for ethical conduct among Valamar's partners to foster responsible operations and contribute to sustainable business practices.

In December 2023, Valamar received the prestigious "Building Public Trust Award" by PwC Croatia and the Zagreb Stock Exchange, in recognition of its commitment to transparency and open communication with stakeholders. This award further affirms Valamar's adherence to the highest standards of corporate reporting. Valamar places great importance on cultivating

trust among the public, employees, investors, institutions, and partners, especially evident during challenging periods such as the recent crisis, where concerted efforts were made to safeguard all jobs and ensure the long-term sustainability of our business.

Valamar will publish its integrated report for 2023 within the statutory timeframe in the first half of 2024, accessible through the following link: <https://valamar-riviera.com/hr/mediji/integrirana-godisnja-izvjesca/>. Looking ahead, Valamar has adopted a sustainable business development strategy until 2026, with a EUR 450 million investment plan aimed at building premium resorts in Pical and on the island of Rab, internationalization and investing in socially responsible and sustainable tourism projects. The new strategy is geared towards leisure tourism that is beneficial for its destinations, employees, guests and local communities, while generating new value for investors.

HUMAN RESOURCES

Valamar is one of the largest employers in Croatia. As of 31 March 2024, the Valamar Group employed a total of 4,041 employees, of which 2,516 permanent employees and an additional 1,102 employees with a fixed-term contract receiving year-round income through the Permanent Seasonal Employee measure. On that same day, the Company had 3,126 employees, of which 1,976 permanent employees and an additional 847 employees with year-round income.

This year Valamar also continues with significant investments in its employees. In agreement with its social partners, Valamar is increasing the basic salary for more than 5,000 employees. The salaries for professional positions – chefs, waiters, receptionists and several other positions in hotels, campsites and resorts – are also increasing and will amount from EUR 1,400 to 2,000 net in the high season. Housekeepers, assistant chefs, assistant waiters, kitchen staff, servers and other positions will receive between EUR 1,000 and 1,300 in the high season.

This year, Valamar has once again been recognised as the most desirable employer in the tourism and hospitality sector and is the only tourism company on the list of top 20 Croatian employers.

As was the case in the previous year, Valamar is continuing with a series of reward programmes designed to reward excellence, dedication and outstanding results. Apart from salary increases, several initiatives have been launched to improve the working conditions in tourism and to adapt the jobs in Valamar to the new trends and employee needs. As of this year, employees who live in our destinations and employees who permanently move to our destinations will receive an additional EUR 400 net within the 'Live the Destination' measure, whereby Valamar incentivises year-round local work and local employment and offers a range of benefits to its employees. This includes, e.g., the 'Roof Over Your Head' programme, which offers permanent employees and permanent seasonal employees in the V+3 programme the possibility to be eligible for an add-on of up to EUR 500 per month for rent as well as discounts on more than three hundred points of sale.

In the last 5 years, EUR 18.5 million has been invested in building high-quality accommodation for seasonal workers called Valamar House. Five such employee hotels are available to seasonal employees at two locations in Poreč, and in Krk, Rabac and Dubrovnik. Throughout the years we have been investing in this project, improving our concept of providing modern high-quality accommodation and meals for seasonal employees during their stay in the destination where they work.

Through the programmes of providing year-round income, our seasonal employees are ensured to have a job for at least 6 to 9 months a year. In cooperation with the Croatian Employment Service, Valamar has been implementing an active employment policy, meaning that these employees receive prolonged pension insurance payments in the months when they do not work. In addition to that, Valamar employees have the opportunity to work during the winter in Valamar hotels in ski resorts in Austria, which ensures them a year-round income.

From the very beginning, Valamar has been involved in the Programme of Boosting the Education of Hospitality and Tourism Workforce, implemented by the Ministry of Tourism and Sports, which is used to co-finance the scholarships for students of vocational tourism and hospitality schools. Valamar is the largest provider of scholarships in Croatia. In the school year

2023/2024, Valamar has given scholarship to 156 secondary school students and 37 college students.

Valamar, as an employer, is involved in a wide range of activities aimed at motivating students to pursue education for jobs in tourism. This includes presentations to students, showcasing career opportunities in tourism, and active participation in improving education quality by having Valamar's specialists and mentors give lectures in schools. Students can also visit Valamar's hotels and campsites to gain firsthand knowledge about the actual needs and working requirements. In 2024, Valamar has continued its business training programme in tourism and hospitality, the V-Executive, in collaboration with five Croatian higher education institutions: the Faculty of Economics and Business of the University of Zagreb, the Faculty of Economics and Tourism in Pula, the Faculty of Tourism and Hospitality Management in Opatija, the Faculty of Economics in Split and the University of Dubrovnik. The two-year business training programme V-Executive offers Valamar employees the comprehensive knowledge and skillset necessary for a successful career in the tourism and hospitality industry. The programme started in February with the 'Organisation and Business Strategy' module and continued in March with the topic 'Trends in Tourism'. Valamar managers had the opportunity to learn about the changes in the industry over the past few years and about the future of tourism. The programme is designed with a total of 20 modules divided into 7 thematic units, and its goal is to familiarise the attendees with new trends, enable new knowledge transfer about the industry and teach attendees how to apply innovations, all in line with an organisational culture focused on knowledge and progress.

The Company and the Group have systematically and continuously invested in developing human resources. This includes a comprehensive strategic approach to HR management, a transparent recruitment process, clear goals, measuring employee performance, investing in employee development and career advancement and encouraging two-way communication.

The Risks of the Company and the Group

Tourism is a global industry, closely connected with the real and financial economy, geopolitical position and environmental sustainability. The integrity of this industry will determine its future growth. Given the importance of tourism and its overall impact on society, the Company and the Group monitor and assess risks at micro and macro levels. Moreover, when defining the strategy, particular attention is given to the short and medium-term risk impact in order to maintain business sustainability over time.

When monitoring and assessing risks the Company and Group use a proactive approach thus assessing the potential impact of each individual risk. The Company and Group consider risk management to be a key factor of differentiation among competitors. Risk management aims at creating sustainable value, thus offering reliability and security to numerous stakeholders.

5 KEY STEPS IN RISK MANAGEMENT PROCESS

There are five key steps in a risk management process:

- 1) Identifying potential risks;
- 2) Assessing identified risks;
- 3) Determining actions and responsibilities for efficient risk management;
- 4) Monitoring and overseeing preventive actions;
- 5) Exchanging information on risk management results conducted by the Management board.

The different types of risks facing Valamar can be classified into the following groups:

- Financial risks - related to financial variables, can have a negative impact on meeting liabilities for the company and the Group, liquidity, debt management etc.;
- Business risks - related to the way company business is conducted in terms of supply and demand, competition, adapting to market trends, investments, growth etc.;
- Operational risks - can arise from inadequate use of information, errors in business operations, non-compliance with internal procedures, human error, IT system, financial reporting and related risks, etc.;
- Global risks - can arise from natural disasters, pandemics, food shortage, social unrest, wars and other force majeure events beyond Valamar's control;
- Compliance risks - can arise from failure to comply with state laws and local regulations; risks related to changes in tax and other regulations.

FINANCIAL RISKS

In their day-to-day business activities, the Company and Group face a number of financial threats, especially:

- 1) Foreign exchange risk;
- 2) Interest rate risk;
- 3) Credit risk;
- 4) Price risk;
- 5) Liquidity risk;
- 6) Share-related risks;
- 7) Risk of inflation and increase in prices of purchased goods.

The Company and Group have a proactive approach in mitigating interest rate and foreign exchange risks, by employing available market instruments. Internal risk management goals and policies aim at protecting foreign currency inflows during seasonal activity and partial interest hedging of the principal loan amount.

1) Foreign exchange risk

The Company and the Group operate internationally and are exposed to currency risks. Until 1.1.2023, the currency risk was mainly due to the changes in the nominal exchange rate of euro/kuna. Namely, a large part of liabilities was expressed in euros, while most sales revenues were historically realised in euros as well. At the level of the Company and the Group, the business with other currencies accounts for less than 1% of the total turnover. After the introduction of the euro as the national currency, a significant currency risk exposure is no longer expected.

2) Interest rate risk

Variable rate loans expose the Company and Group to cash flow interest rate risk. Actively, the Company and Group resort to derivative instruments in order to hedge cash flow and interest rate by applying interest rate swaps. The economic effect of such swaps is the conversion of variable interest rate loans into fixed interest rate loans for a precommitted hedged part of the loan principal. Therefore, a major part of the loan portfolio is comprised of long-term fixed interest loans or, respectively, loans hedged by a derivative instruments (IRS). The Company and Group have interest-bearing assets (cash assets and deposits) so their revenue and cash flow depend on changes in market interest rates. This becomes evident especially during the season when the Company

and Group have significant cash surpluses at their disposal. The Company and the Group expect a limited impact from the increased interest rate volatility consequent to the recent coronavirus pandemic, since almost entire Group's loan portfolio is made up of long-term fixed-rate loans or loans protected by derivative instruments (IRS).

3) Credit risk

Credit risk arises from cash assets, time deposits and receivables. According to the Company and Group sales policy, business transactions are conducted only with customers with suitable credit history, i.e. by agreeing advances, bank securities and (for individual customers) payments made through major credit card companies. In order to reduce credit risk, the Company and the Group continuously monitor their exposure to the business parties and their creditworthiness, obtain instruments for securing receivables (bills of exchange, debentures and guarantees), thus reducing the risks of uncollectability of their receivables for the services provided. In view of the negative effects of COVID-19, inflationary development and the growth of interest rates on the customers of the Company and the Group, especially tour operators and travel agencies, the impact of the currently unfavourable circumstances on the related parties is being closely monitored, while actively reviewing the credit ratings and their potential to overcome current challenges.

4) Price risk

The Company and Group hold equity securities and are exposed to equity price risk due to security price volatility. Valamar is not an active participant in the market trade in terms of trading in equity and debt securities. However, with investments in buying Imperial Riviera and Helios Faros shares, the company is exposed to the said risk to a certain extent.

5) Liquidity risk

The Company and Group have a sound liquidity risk management. Sufficient funds for meeting liabilities are available at any given moment through adequate amounts from contracted credit lines and by ensuring credit line availability in the future. Liquidity risk is managed by generating strong positive net operating cash flows, while capital investments are financed by credit lines. Credit lines for 2020 and 2021 have been contracted with reputable financial institutions, while credit repayments in general are in line with the period of significant cash inflows from operating activities. The repayment of the major credit lines coincides with periods of strong cash inflows from operations. The Company and Group monitor

the level of available funds through daily cash and debt reports. Long-term cash flow forecasts as well as annual (monthly) forecasts are based on the set budget. After meeting the needs of working capital management the surplus is deposited in the treasury. From there the funds are invested in current accounts, time deposits, money market deposit accounts and marketable securities. Only instruments with suitable maturities and sufficient liquidity are selected, according to the forecast needs for liquid funds.

6) Share-related risks

The market value of shares is the riskiest asset class due to its volatility resulting from the volatile nature of the whole capital market, macroeconomic trends on markets where the Company and Group operate and discrepancies between the expectations of financial analysts and the actual results. Furthermore, other contributing factors are also changes in the dividend policy, various activities in the segment of consolidations, mergers, acquisitions and forming of strategic partnership, the instability of the business model of the Company and Group as well as the fluctuations in the financial results for the Company and Group. In case any negative implications happen to be associated with these factors there is a considerable risk of market value drop that will in turn prevent investors from selling their shares at a fair market price.

7) Risk of inflation and increase in prices of purchased goods

COVID-19 pandemic and related movement restrictions as well as supply disruptions, along with strong rising energy prices and the war in Ukraine, have induced global inflation and rising prices at the end of 2021, with a noticeable influence to this day.

The Croatian Bureau of Statistics (CBS) reported in mid-April 2024 that prices for goods and services for personal consumption measured by the consumer price index increased by 4.1% on average in March 2024 compared to March 2023 (at the annual level). This means that this rate of inflation represents the same level of annual inflation rate as observed in January and February 2024.

Given the weakening impact of past shocks and the stronger influence of favourable base effects compared to the beginning of the year, the CNB expects a slowdown in the annual inflation rate of consumer prices in the coming months. This expectation is supported by a significant easing of inflationary pressures stemming from the trends in the earlier stages of the pricing chain. It is still projected that the average annual inflation rate for consumer prices in Croatia could in 2024 slow down to

3.5% (down from 8.4% in 2023), reflecting the expected decrease in inflation across all major components, especially core inflation (both service price inflation and industrial product price inflation) as well as food price inflation.

Inflation and rising prices of purchased goods may have an effect on the purchasing power of foreign and domestic guests, as well as on the level of our selling prices. The Company and the Group have also been exposed to the impact of the changes in the purchase prices for energy products (especially electrical energy) as well as prices for food and beverages and consumables. The Company and the Group have been continually making considerable investments in energy efficiency and renewables in order to mitigate the impact of a possible increase in energy prices as well as to decrease their dependence on suppliers. The Company and the Group have a very high share of direct channels and other online channels in total sales, and sales prices are largely formed dynamically, during the year. Accordingly, the Company and the Group have the flexibility to manage selling price levels.

BUSINESS RISK

The Company and Group are constantly exposed to risks threatening its competitiveness and future stability. Since the Company and Group own significant number of real estates, this business model requires a large amount of capital in order to maintain high product and service standards. Various large capital investments in the upgrade of products and services can surpass budget expectations, delay the end of construction works, as well as the town-planning regulations and fiscal policy may be changed. These risks can increase costs for the Company and Group, and have a negative impact on the cash flow and revenues. In the previous period, the company and Group's business decisions improved their results in the demanding Mediterranean market. These positive trends are expected to continue in the future through a prudent long-term strategic management.

Around 90% of Valamar's guests come from other countries and they are very careful when choosing their vacation destination in the competitive Mediterranean environment. Stable domicile countries macroeconomic indicators are important decision-making factors especially those relating to exchange rates and the price of goods and services because they directly affect the guests' purchasing power.

However small, the share of domestic guests is also important; it is a segment

directly influenced by various other macroeconomic indicators: employment/unemployment rate, GNP rise/ fall, industrial production and others. They all have a direct impact not only on the purchasing power of Croatian residents, but they also determine whether they will choose to spend their vacation in one of our properties.

When considering risks related to the tourism and hospitality industry, in previous years, the Croatian economy has been afflicted by the consequences of a global financial crisis and economic standstill. In this period, the tourism and hospitality industry has been among the rare growing industries in Croatia. Moreover, the marked seasonality of this industry leads to insufficient use of the Company and Group's resources. After joining the European Union, the Croatian market became part of a large European market, while safety risks decreased after joining the NATO. Good management of human resources is vital for the future growth of the Company and Group. Risks related to shortages of specific skills, expertise and jobs are connected with the opening and expansion of the labour market. Valamar Riviera is one of the largest and most desirable employers in tourism. The active approach towards HR management develops key talents and supports investments in training opportunities. We determine the needs for new skills and expertise by following emerging global trends in tourism. In this way, we are able to respond to challenges effectively. Through a continual dialogue with our social partners, we have ensured a high level of workers' rights in terms of competitive salaries, reward systems, career development, employees' wellbeing and cooperation with training institutions from all parts of Croatia.

The Company is the respondent in two court proceedings from which potentially significant financial obligations for the Company may arise.

The first lawsuit from 2010 is related to the payment for the works on hotel Lacroma during its reconstruction and extension. In 2013, the Commercial Court issued a verdict rejecting the plaintiffs' claims in their entirety. In 2020, the High Commercial Court of the Republic of Croatia overturned the first-instance verdict, and the case was returned for retrial. In the repeated proceedings, the Commercial Court, by the verdict from May 2023, largely accepted the claim and the Company is charged with the payment of principal in the amount of EUR 2,264,861.17 and litigation costs in the amount of EUR 702,752.22 as well as the corresponding statutory default interest. In the appeal procedure, the High Commercial Court of the Republic of Croatia on 31 January 2024 adopted a final verdict in favour of the Company whereby it altered the verdict of the Commercial Court of Dubrovnik from May 2023 and rejected all the claims of the plaintiff as unjustified.

The second lawsuit from 2012 also refers to the payment for the works on hotel Lacroma. The first-instance verdict of the Commercial Court from 2015, later confirmed in the second instance by the High Commercial Court in 2019, rejected the plaintiff's claim. However, on 4 July 2023, the Supreme Court of the Republic of Croatia overturned the verdicts of the Commercial Court and the High Commercial Court and returned the case for retrial. Based on the receivables referred to in the plaintiff's claim, the principal in this case amounts to EUR 1,498,608.42. In February 2024, in repeated proceedings, the Commercial Court in Dubrovnik passed the first-instance verdict in favour of the Company. Until now, the Company has not made provisions in its books for the two disputes mentioned above.

In 2023, the Company initiated an administrative dispute to annul a Resolution of the Ministry of the Maritime Affairs, Transport and Infrastructure issued after an inspection control of the economic use of the maritime domain in the area of the Ježevac campsite on the island of Krk. This Resolution relates to a prohibition to provide housing services on several cadastral plots and a prohibition to provide anchoring services. In 2024, a non-final verdict was passed against the Company, and the Company plans to file a complaint about this verdict with the competent court. In the fourth quarter of 2023, the Company made provisions for this case amounting to EUR 130,0000 and it will continue to pursue future legal proceedings in this matter.

OPERATIONAL RISKS

Operational risks are risks connected with direct or indirect losses that arise from inadequate or wrong internal or external processes within the Company and the Group. They include the creation and analysis of financial reporting data (also known as "financial reporting risk") and also the potential insufficient and inadequate internal and external information sharing. When implementing the system of operational risk management, the Company and Group focused on its continuity and complexity due to the size of the organization. The benefits of the system include i) defining and identifying the Company and Group risk profile in relation to the operating risk ii) identifying and managing the known risk occurrences in order to decrease the Company and Group costs and iii) data analysis which indicates the business trends for the Company and Group and trends in the domestic economy. The Company and Group are aware of the reliability of IT business solutions and safety in the cyber world. Hence, they continually upgrade, develop and implement new technologies and protective mechanisms in everyday business operations. A special focus is given to providing sufficient resources for the development and implementation of

new technologies related to ICT, data protection, and upgrade of the current business systems and implementation of new ones.

GLOBAL RISKS

Despite improved security and political conditions, which have encouraged to a certain extent investments into tourism and hospitality, there are challenges that the Croatian tourism has to face, such as:

- Periods of global economic and financial crisis which reduce the purchasing power of the travelling-prone population;
- Security and political issues related to global terrorism threats;
- Security and political instability in the immediate environment of the neighbouring countries.
- geopolitical risks connected with the Russian invasion of Ukraine in February 2022.

Environmental risks can also have an adverse effect on the Company and Group's business results, primarily in terms of customer satisfaction with the whole experience while staying at one of Valamar's properties and this can affect the number of arrivals. The possible risks can include: sea pollution (caused by oil or chemical spillage), but also long-term water quality reduction and coast pollution due to inadequate waste disposal and waste water treatment as well as extensive use of agricultural fertilizers. Other environmental conditions typical for climate changes such as long drought periods or long rainy periods can directly influence the guests' length of stay in the hotels and campsites as well as increasing the operating costs. A number of other natural disasters and calamities (earthquakes, fires, floods and rainstorms), air pollution caused by toxic gas emissions from industrial plants and vehicles, as well excessive urbanization and the introduction of plant and animal invasive species should also be taken into consideration. Likewise, disease outbreaks and pandemics can adversely affect Valamar's business results. In order to minimize their impact, Valamar is actively tracking pandemic and health risk levels worldwide, especially on its source markets, and taking proactive steps in their management. The COVID-19 pandemic is a recent example of the operational and financial disruption to the global economy, especially tourism flows, since almost all global destinations were blocked by travel restrictions. The emergence of exceptional circumstances in the Republic of Croatia and the introduction of extraordinary measures to prohibit gatherings, movements and the operation of restaurants and shops, all with the primary objective of protecting the population from the risk of contagion, resulted in the expected consequential and immediate disruption of

the Company's and the Group's operations, cancellation of accommodation and other contracted services by partner agencies and guests.

The risks related to Russia's invasion of Ukraine in February 2022 are still present. The source Russian and Ukrainian markets historically made up a maximum of 2% of Valamar's turnover so their disappearance has been compensated by other source markets.

REGULATORY RISKS

Changes in tax laws and other regulations pose a very serious threat and represent a demanding segment in risk management because in this particular situation the possibilities for the Company and Group are limited.

Frequent changes in laws regulating taxes and parafiscal charges often take place only after the business policy and budget for the next financial year have been approved and commercial terms and conditions with partners agreed. All this jeopardizes the Company and Group financial position and future investment plans as well as credibility towards shareholders. One of the recent examples is the introduction of the Law on Additional Profit Tax from December 2022.

The Company and Group are also threatened by changes in regulations governing concession fees for maritime domain and tourism land use, the latter still presenting unresolved legal issues. Given the nature of the Company and Group's business, the right to use parts of the maritime domain as well as land for tourism purposes is of vital importance for future growth, especially for campsite-related operations.

Corporate Governance

The Company and the Group continuously strive to develop and operate according to good corporate governance practices. The business strategy, corporate policy, key corporate by-laws and business practice have set a high standard of corporate governance and are all geared towards creating a transparent and efficient business operation while forging solid bonds with the local community. The Management Board fully complies with the provisions of the adopted corporate governance acts. After the company was listed on the regulated market of the Zagreb Stock Exchange, the Company also complied with the Zagreb Stock Exchange Corporate Governance Code.

The Company complies with and implements the prescribed corporate governance measures, as reported in more detail in the annual questionnaire published on the Zagreb Stock Exchange and Valamar Riviera websites as prescribed (2023 questionnaire available at <https://valamar-riviera.com/media/482338/corporate-governance-code-compliance-questionnaire-2023-pdf.pdf>). The Company adopted its Code of Business Conduct and policies that make an integral part of this Code, whereby it aligned its internal corporate governance rules with the Zagreb Stock Exchange Corporate Governance Code. The Code of Business Conduct is available at the Company's corporate website (<https://valamar-riviera.com/media/479268/code-of-business-conduct-valamar-riviera-dd-october-24-2023.pdf>).

The Company defined the process of preparing and publishing its financial statements in a detailed internal document. Within this document, the financial reporting procedure is set within a system of internal review and risk management. Additionally, in order to monitor and mitigate the financial reporting risk, the Company uses the measures described in the chapter 'The Risks of the Company and the Group'.

The Companies Act and the Company's Articles of Association define the General Assembly's authority and prescribe how it meets and works. The meeting invitation, proposals and the adopted resolutions are made public according to the provisions of the Companies Act, Capital Market Act and the Zagreb Stock Exchange Rules. There is a time limit related to the voting right at the General Assembly: according to the provisions of the Croatian Companies Act, shareholders are required to register their participation within the prescribed time limit in order to attend the General Assembly. Under no circumstances can the financial right arising from securities be separated from holding the securities. There are no securities with special control rights nor are there any limitations to voting rights at the Company (one share, one vote).

The Company's Articles of Association comply with the Croatian Companies Act and the provisions of the Procedure of Appointment, i.e. the Election and Profile of the Management Board and the Supervisory Board and they define the procedure of appointing and recalling members of the Management Board and Supervisory Board. There are no limitations based on gender, age, education, profession or similar. The Companies Act determines any amendments to the Company's Articles of Association, without any additional limitations. The Management Board members' authority fully complies with the provisions referred to in the Companies Act and it is defined in more detail by the provisions of the Articles of Association and the By-Laws on the Work of the Management Board.

The Company acquires treasury shares based on and in accordance with the conditions determined by the General Assembly's decision on the acquisition of treasury shares dated 9 May 2019 which has been in force as

of 17 November 2019. The Company does not have a share-buyback programme or an employee share ownership plan. The Company holds and acquires treasury shares as a form of rewarding management and key managers pursuant to the Company by-laws regulating rewarding plans and to make dividend pay-out in rights, i.e. to give the Company's shares to equity holders.

Following the adopted long-term plan for rewarding key management by giving them treasury shares in the period from 2023 to 2026, which is aimed at increasing loyalty, focusing on business targets' achievement and shareholder value increase, key managers were rewarded with treasury shares on 12 March 2024. In order to make the payout of this reward to key managers, a total of 426,160 treasury shares were disposed of. After making this disposal of treasury shares in the first quarter, the Company now holds 2,990,862 treasury shares in total, which makes 2.3732% of the Company's share capital.

Disclaimer

This report may contain certain outlook based on currently available facts, findings and circumstances and estimates in this regard. Our outlook is based including, but not limited on a) results achieved in the first quarter of 2024; b) operating results achieved by 26 Apr 2024; c) current booking status; d) 2024 year end business results forecast; e) the absence of further significant negative effects of the risks to which the Company and the Group are exposed.

Outlook statements are based on currently available information, current assumptions, forward-looking expectations and projections. This outlook is not a guarantee of future results and is subject to future events, risks, and uncertainties, many of which are beyond the control of, or currently unknown to Valamar Riviera, as well as potentially incorrect assumptions that could cause the actual results to materially differ from the said expectations and forecasts. Risks and uncertainties include, but are not limited to those described in the chapter "Risks of the Company and the Group". Materially significant deviations from the outlook may arise from changes in circumstances, assumptions not being realized, as well as other risks, uncertainties, and factors, including, but not limited to:

- Macro-economic trends in the Republic of Croatia and in the source markets, including currency exchange rates fluctuations and prices of goods and services, deflation and inflation, unemployment, trends in the gross domestic product and industrial production, as well as other trends having a direct or indirect impact on the purchasing power of Valamar Riviera's guests;
- Economic conditions, security and political conditions, trends and events in the capital markets of the Republic of Croatia and Valamar Riviera's source markets;
- Spending and disposable income of guests, as well as guests' preferences, trust in and satisfaction with Valamar Riviera's products and services;
- Trends in the number of overnights, bookings, and average daily rates of accommodation at Valamar Riviera's properties;
- Change in market interest rates and the price of equity securities, and other financial risks to which Valamar Riviera is exposed;
- Labor force availability and costs, transport, energy, and utilities costs, selling prices of fuel and other goods and services, as well as supply chain disruptions;
- Changes in accounting policies and findings of financial report audits, as well as findings of tax and other business audits;
- Outcomes and costs of judicial proceedings to which Valamar Riviera is a

party;

- Loss of competitive strength and reduced demand for products and services of Croatian tourism and Valamar Riviera under the impact of weather conditions and seasonal movements;
- Reliability of IT business solutions and cyber security of Valamar Riviera's business operations, as well as related costs;
- Changes of tax and other regulations and laws, trade restrictions, and rates of customs duty;
- Adverse climatic events, environmental risks, disease outbreaks and pandemics.
- Regional and global geopolitical uncertainties and wars.

Should materially significant changes to the stated outlook occur, Valamar Riviera shall immediately inform the public thereof, in compliance with Article 459 of the Capital Market Act. The given outlook statements are not an outright recommendation to buy, hold or sell Valamar Riviera's shares.

The consolidated and unconsolidated financial statements for the first quarter period ended 31 March 2024 were approved by the Management Board on 30 April 2024.

NOTE 2 – SUMMARY OF MATERIAL INFORMATION ON THE ACCOUNTING POLICIES AND ESTIMATES

2.1 Basis of preparation

The Company's and Group's financial statements for the first quarter period ended 31 March 2024 have been prepared in accordance with International Accounting Standard (IAS) 34 – *Interim Financial Reporting*. The financial statements have been prepared under the historical cost method, except for the financial assets at fair value through profit or loss and financial assets. The consolidated and unconsolidated financial statements for the three-month period do not include all the information and disclosures required in the annual financial statements, and should be read in conjunction with the Company's and Group's annual financial statements as at 31 December 2023 which are available on HANFA (Croatian Financial Services Supervisory Agency), Zagreb Stock Exchange and Company's web page.

2.2 Going concern

Company's and Group's first quarter financial statements have been prepared on a going concern basis. Based on current expectations Management believes that the geopolitical situation will not have significant negative impact on the Company's and Group's ability to fulfil its obligations nor prolonged impact on Company's and Group's revenues and overall business which can affect the Company's and Group's ability to continue as a going concern in the foreseeable future.

2.3 Significant accounting policies

The accounting policies adopted in the preparation of the financial statements for the first-quarter period ended 31 March 2024 are consistent with those followed in the preparation of the Company's and Group's annual financial statements for the year ended 31 December 2023.

2.4 Critical accounting estimates

The accounting policies adopted in the preparation of the financial statements for the first quarter period ended 31 March 2024 are consistent with those followed in the

preparation of the Company's and Group's annual financial statements for the year ended 31 December 2023.

The Company and the Group, as the lessees as regards the tourist land

Due to the transition from public to private ownership, e.g. in the transformation and privatisation process and the fact that the properties of the Company and the Group that were used in the transformation process were appraised in the share capital of the Company, and a part was not appraised, there are certain ambiguities and proceedings regarding the ownership of a part of the land within the majority of tourist companies, as well as Company and the Group. According to the Act on Tourist and Other Construction Land not appraised in the transformation and privatisation process ("the ZOTZ"), which entered into force on August 1, 2010, a concession fee for the use of tourist land with an area of 3.29 mn m² was calculated for the Company and 3.47 mn m² for the Group. With the entry into force of the Act on unappraised land ("the ZNGZ") on May 2, 2020, the ZOTZ ceased to be valid.

The ZNGZ prescribes the obligation to determine and form buildings on appraised parts of campsites, hotels, tourist resorts and other construction land as ownership of the Company and the Group and buildings on unappraised parts of campsites, hotels, tourist resorts and other construction land as ownership of Republic of Croatia or local governments. For parts of a land owned by the Republic of Croatia or local governments, the Company and the Group will enter into lease agreements for a period of 50 years. From the entry into force of the ZNGZ until the day of signing the lease agreement, the rent will be paid according to the area of the tourist land for which the concession fee has been calculated based on the ZOTZ, in the amount of 50% of the fee until the final resolution of property legal relations. The unit amount of rent and the method and terms of payment is determined by Regulations from Government.

On February 8, 2024, the Government of the Republic of Croatia adopted two Regulations on tourist lands: (1) the Regulation on the method of determining the unit of lease for tourist land on which the hotel has been built and the tourist estate, the method of

NOTE 2 – SUMMARY OF MATERIAL INFORMATION ON THE ACCOUNTING POLICIES AND ESTIMATES / CONTINUED

calculation for lease and other fees and mandatory content of the lease agreement and (2) the Regulation on determining the initial amount of the unit price of the lease for the tourist land in camp, the method of calculation of lease and other fees and mandatory content of the lease agreement (hereinafter: the Regulations).

After the adopted Regulations, the Company and the Group revised the areas of tourist land and determined that the Company will use 2.6 mn m² and the Group will use 2.8 mn m².

The accounting treatment of leases by lessees, including the rent of tourist land according to the provisions of the ZNGZ, should be viewed in the context of provisions of IFRS 16 *Leases*. However, when analyzing the effects of the Act and Regulations and the actual application of the relevant standard, significant evaluations of the criteria for the application of IFRS 16 are required.

According to the Regulations lease fees are determined as an indexed unit price per square meter up to a maximum of 4% of the tourist facility income of the previous

period. The Company and the Group made detailed analysis of fees for each individual tourist facility.

For tourist facilities for which it is estimated that the variable income limit will be reached in most years, the payments are considered variable and as such are excluded from the lease liability, i.e. the criteria for applying IFRS 16 are not met. Variable lease payments are recognized in the statement of comprehensive income for the period.

For tourist facilities for which the variable income threshold is estimated to be unlikely (very low probability) to ever be exceeded, the payments are basically fixed and the indexed unit price per square meter is included in the calculation of the rental obligation.

According to the prescribed unit rent prices from the Regulations and the determined discount rate of 5.42% to 7.96% for the Group, an assessment of the value of assets and liabilities with the right of use was carried out in accordance with IFRS 16 on January 1, 2024 and amounts to EUR 57,702 thousand for the Company and EUR 62,509 thousand for the Group.

NOTE 3 – FINANCIAL RISK MANAGEMENT**3.1 Financial risk factors**

In their day-to-day business activities, the Company and the Group face a number of financial risks, especially market risk (including currency risk, interest rate risk and price risk), credit risk and liquidity risk. The Company and the Group have a proactive approach in mitigating the interest rate risks by using available market instruments. Internal risk management goals and policies aim at protecting partial interest hedging of the principal loan amount.

3.2 Capital management

The Company's and Group's objectives when managing capital are to safeguard the Company's and Group's ability to continue as a going concern in order to provide returns for the owner and to maintain an optimum capital structure to reduce the cost of capital.

NOTE 3 – FINANCIAL RISK MANAGEMENT / CONTINUED**3.3 Fair value estimation**

The fair value of financial instruments traded in active markets is based on quoted market prices at the reporting date. The quoted market price used for financial assets held by the Company and the Group is the current bid price. The fair value of financial instruments that are not traded in the active market is determined by using valuation techniques. The Company and the Group use a variety of methods and make assumptions that are based on market conditions existing at each reporting date.

The carrying value less impairment provision of trade receivables and payables are assumed to approximate their fair values.

Quoted market prices for similar instruments are used for long-term debt. The fair value of financial liabilities for disclosure purposes is estimated by discounting the future contractual cash flows at the current market interest rate that is available to the Company and the Group for similar financial instruments.

Fair value hierarchy

IFRS 13 specifies a hierarchy of valuation techniques based on whether the inputs to those valuation techniques are observable or unobservable. Observable inputs reflect market data obtained from independent sources; unobservable inputs reflect the Company's market assumptions. These two types of inputs have created the following fair value hierarchy:

- Level 1 – Quoted prices (unadjusted) in active markets for identical assets or liabilities.
- Level 2 – Inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly (that is, as prices) or indirectly (that is, derived from prices).
- Level 3 – Inputs for the asset or liability that are not based on observable market data (unobservable inputs).

NOTE 4 – SEGMENT INFORMATION

Following the management approach of IFRS 8, operating segments are reported in accordance with the internal reporting provided to the Group's Management (the chief operating decision-makers) who are responsible for allocating resources to the reportable segments and assessing its performance.

The Group records operating revenues and expenses by types of services rendered in three basic segments: hotels and apartments, camping and other business segments.

Revenue was divided between segments according to the organisational principle, where all of the income generated from camping profit centres was reported in the camping segment, and all of the income generated from hotel and apartment profit centres was reported in that segment. Other business segments include revenue from laundry services, other rentals of properties, revenue generated from the central services and central kitchens, revenue from retail, agency revenue and revenue from the accommodation of employees.

The segment information related to reportable segments for the nine-month period ended 31 March 2023 is as follows:
