KEY MESSAGES

Valamar group has continued to strengthen its strategic position as a leading hospitality company in the region. In the first six months of 2025, business revenues increased by 17.5%, reaching EUR 143.7 million, in line with expectations. Ongoing investments in product and service quality remain a key pillar of Valamar's strategy, significantly contributing to revenue growth across all destinations from Poreč to Dubrovnik. The premium segment of hotels and campsites remained the key driver of performance, achieving higher occupancy levels and average daily rates. The long-term lease of three hotels in Obertauern contributed an additional EUR 8.6 million to revenue growth; excluding this contribution the Group recorded an increase in operating revenues of 10.5% in the first half of the year compared to the same period last year. Notably, Rab as a destination recorded a 40% increase in revenue following the opening of Arba Resort 4*, Valamar Collection. Valamar group achieved a positive EBITDA and EBITDA margin in the first half of the year. Adjusted EBITDA (operating profit) for the six-month period amounted to EUR 4.3 million; however, this is not material compared to full year levels and reflects the seasonality of the business.

Operating expenses grew by 12.6% to EUR 137.9 million, mainly driven by initiatives aimed at improving employee compensation and benefits, which resulted in a EUR 7.7 million increase in salary costs. This increase reflects the Group's strategic commitment to attracting and retaining talent, ensuring high service quality, and securing sustainability of the labor base. Additional cost pressure arose from higher material expenses, primarily driven by increased in overnights stay and inflationary trends.

Croatian tourism continues to play a key role in the national economy. According to data from the Croatian National Bank, revenues from foreign tourists in the first quarter of 2025 amounted to EUR 865.5 million, marking an increase of 6.7% compared to the same period last year. This positive trend is further supported by data from the Ministry of Tourism, which show a 4% increase in both tourist arrivals and overnight stays in the period until the end of June compared to the same period last year. Notably, Croatia continues to achieve growth in the shoulder season periods, affirming the potential to expend tourism outside the main summer season. In the first half of 2025, Valamar group recorded a total of

2,080,211 overnight stays, reflecting a 6.4% increase compared to the same period in 2024. Destinations in Croatia continued to generate the majority of total volume, with 2,048,534 overnight stays and growth of 4.7%. The first half of the year also saw growth in the direct sales channel, which now accounts for 57% of total revenue. This year, Valamar Reservation Centre's commitment to excellence, innovation and high quality of service was recognized as it was named the best "Contact Centre with 31 or More Employees" at the annual CX.hr portal awards.

All preparations for the season have been successfully completed, and the planned number of employees have been recruited. As of 30 June 2025, Valamar employed approximately 8,000 people across all Group companies and managed properties. In agreement with social partners, as of 1 May 2025, the base salary was increased by 10 to 15 per cent through a minimum 10 per cent rise in the base salary and an additional increase via coefficient adjustments.

Looking ahead to the second half of the year there are strong indications of another successful tourist season. Booking pace indicates stable demand across Valamar's key source markets.

Valamar continues to successfully implement one of the largest investment cycles in Croatian tourism. Total planned investments for the 2024/25 season amount to EUR 161.2 million, with EUR 101.4 million allocated at the Valamar Riviera company level. The key project is the construction of the Pical Resort 5*, Valamar Collection in Poreč, worth over EUR 200 million. The resort will employ around 700 people and operate throughout the year, further contributing to business development with an emphasis on year-round operations. Sales and marketing activities remain intensive, with a focus on the congress and event facilities. Direct sales for individual guest are also open. Construction work on the project is going according to plan, with the opening scheduled for the first quarter of 2026.

In June 2025, Imperial Riviera officially opened the Arba Resort 4*, Valamar Collection on the island of Rab, marking the completion of the first phase of the island's largest development project and positioning Rab as Croatia's leading family holiday destination while also creating new job opportunities and extending the tourist season on the island. The investment in the first phase of the project, amounting to 54 million euros, is part of the partnership between Valamar Riviera and the AZ Fund in Imperial Riviera.

At the Group level, total planned investments for 2026 amount to EUR 196.1 million, out of which EUR 178.7 million in Valamar Riviera. Valamar's planned investments in 2026 are largely focused on continuing the construction of the Pical Resort 5*, Valamar Collection in Poreč. Furthermore, in 2026 Valamar plans to begin investments in the Brulo zone in Poreč, including Crystal Hotel and Diamant Hotel and Apartments. Continued investments will also focus on sustainable tourism and corporate social responsibility, digitalisation, and further development of beaches and sports facilities across all destinations, creating new value for investors.

In 2025, Valamar solidified its position as a leader in responsible and sustainable tourism development in Croatia. Valamar was awarded the EcoVadis (leading global platform for sustainability ratings) Gold Medal for sustainability, placing it among the top 5% of companies worldwide in this field. Valamar Amicor Resort on Hvar received the prestigious DGNB (Deutsche Gesellschaft für Nachhaltiges Bauen, the leading international certification system for sustainable construction and real estate) Gold certification for its sustainably built detached villas. With this, Valamar became the first tourism company in Croatia to receive DGNB Gold certification for green construction, and the Valamar Amicor Green Resort is now the first resort of its kind on the Croatian coast. According to the latest Bloomberg Adria research from early 2025, Valamar ranks as the leading tourism company in Croatia and the second best among blue chip stocks in the area of sustainability, with consistent performance across all three ESG pillars.

Valamar's business strategy remains focused on guests, expanding the share of direct sales, and increasing the revenue outside the main tourist season. With a focus on product quality, a solid capital base, and a clear commitment to sustainability and digitalisation, Valamar continues to lead the transformation of Croatian tourism towards higher added value and greater resilience to external influences.

At the General Assembly held in June, shareholders were approved a dividend payment of EUR 0.24 per share which was paid on 25 June 2025. This decision reflects the consistency and stability of the company's dividend policy, as well as its financial resilience and responsible capital management. The Assembly also confirmed the appointment of Deloitte d.o.o. and UHY RUDAN d.o.o. to provide

Revenues and ARR

Girandella Resort, V Level Villas 5*, Rabac

Valamar group's operating revenues in the first six months of 2025 amounted to EUR 143.7 million, representing an increase of 17.5% or EUR 21.5 million compared to the same period of the previous year. This business growth is the result of the consolidation of revenue from the Austrian portfolio in the amount of EUR 8.6 million, higher board revenues across all Valamar group's destinations in Croatia, and continued investments in service quality improvement and portfolio repositioning.

The best performance was recorded by hotels and campsites in the premium segment, with the destination Rab standing out in particular, achieving a 40% increase compared to the first half of 2024.

REVENUES

In the first half of 2025, total revenues amounted to EUR 144.8 million, an increase of 15.8% (EUR 5.4 million). The total generated revenues have been influenced by:

1. increase in sales revenue by 18.6% (EUR 22.2 million) to EUR 141.8 million, primarily consisting of board revenue (EUR 114.5 million). Domestic sales revenue amounted to EUR 20.8 million, with a share of 14.7% in sales revenue (15.8% in the first half of 2024), and EUR 1.9 million higher than in 2024. With a share of 85.3% in sales revenue (84.2% in the first half of 2024), sales revenue in foreign markets amounted to EUR 121.0 million, an increase of EUR 20.3 million
2. decrease in other operating income in the amount of EUR 792 thousand compared to the same period of the previous year
3. decline in financial income of EUR 1.7 million compared to the first half of 2024 primarily reflects lower interest income

TOTAL OPERATING EXPENSES

Total operating expenses amounted to EUR 178.1 million, representing an increase of 11.7% compared to the previous year. This increase is primarily attributable to the inclusion of operating expenses from three hotels in Austria, as well as the growth in overnight stays and sold rooms across all Group destinations, particularly in the categories of material costs and staff expenses. The development of operating expenses is as follows:

1. material costs amounted to EUR 57.9 million, up 15.9%, mainly due to increased costs of food and beverages, cost of goods sold, maintenance, consumables as well as promotional and marketing costs
2. personnel costs increased by 14.8% to EUR 59.4 million, driven by a higher average number of employees and the increase in employee salaries
3. depreciation amounted to EUR 38.6 million, up 11.7%, largely due to increased capital investments in 2024
4. other costs amounted to EUR 20.6 million, down EUR 0.1 million
5. other operating expenses amounted to EUR 1.6 million, a decrease of EUR 0.8 million, mainly due to lower costs related to previous period

EBITDA AND PROFIT FOR THE PERIOD

Valamar group recorded a positive EBITDA and EBITDA margin in the first half of the year. The Group's operating profit (adjusted EBITDA) for the first six months amounted to EUR 4.3 million, with an EBITDA margin of 3.0%. The improvement in operating profit compared to the same period last year was primarily driven by the increase in operating revenues, along with a controlled and planned growth in operating expenses. The key driver of improved performance was the consolidation of results from the Austrian portfolio, alongside the strong contribution from the premium segment of hotels and campsites across all Valamar group destinations, which recorded higher occupancy levels and a continued increase in average daily rates. The loss before tax (EBT) amounted to EUR 39.9 million, representing an improvement of EUR 4.1 million compared to the previous year, primarily driven by improved operating profit.

The Group estimated the increase in deferred tax assets mainly based on tax incentives and realized loss and accordingly recognized tax income in the amount of EUR 15.4 million. The net loss for the period amounts to EUR 24.5 million. Due to the highly pronounced seasonality of business, the profit tax estimate for the semi-annual reports is not an indicator of the final profit tax for a year 2025.

RESULT FROM FINANCIAL ACTIVITIES

The result of financial activities for the first six months of 2025 amounted to EUR -4.9 million, an improvement of EUR 1.7 million compared to EUR -6.6 million in the same period of 2024.

The better net financial result was mainly influenced by lower interest expenses by 2.9 million euros, mainly due to the absence of EUR 2.4 million in statutory default interest related to legal proceedings, and secondarily due to the higher capitalization of interest on investment loans for the Pical Resort and Arba Resort projects. An additional positive impact came from other financial expenses, which were lower by 0.5 million euros, due to the reduced cost of derecognition of the fair value of IRS. On the other hand, due to the decline in interest rates on deposits and the lower amount of available cash, other interest income decreased by 0.7 million euros.

NET DEBT

Net debt increased by EUR 60.7 million in the first half of 2025, reaching a total of EUR 337.0 million, primarily as a result of a EUR 49.7 million increase in long-term liabilities to banks used to finance capital investments, mainly in the Pical and Arba Resort projects.

(in 000,000 EUR)

Financial income and expenses

¹⁷ Net debt (liabilities for tourist land under IFRS 16 excluded): non-current and current liabilities to banks and other financial institutions + liabilities for loans, deposits and other + other liabilities according to IFRS 16 (leases) – cash and cash equivalents – long-term and short-term investments in securities – current loans given, deposits, etc.

ASSETS AND LIABILITIES

As of 30 June 2025, the total value of the Group's assets amounted to EUR 993.0 million, up 3.5% compared to 31 December 2024. Total share capital and reserves amounted to EUR 388.9 million, down 13.3% as a result of the dividend payment of EUR 29.5 million and the net loss of EUR 24.5 million recorded in the first half of 2025.

Total long-term and short-term liabilities to banks and other financial institutions amounted to EUR 332.4 million as of 30 June 2025, representing a decrease of EUR 1.4 million compared to 31 December 2024. Short-term financial liabilities were decreased by EUR 51.1 million through loan repayments, while long-term financial liabilities increased by EUR 49.7 million due to the drawdown of loans for capital investments in the Pical and Arba Resort projects.

Almost 90% of long-term loans are loans with an agreed fixed interest rate or loans protected by derivative instruments (IRS) for the purpose of protection against interest rate risk. This largely eliminated the interest rate risk. Additionally, most of the Group's cash receipts are in euros, as is the entire credit portfolio, which largely eliminates currency risk.

As of 30 June 2025, the Group's cash position amounted to EUR 12.7 million, representing a decrease of 78.7% compared to 31 December 2024. The main reasons for the decrease in cash during the first half of 2025 were loan repayments, investments in long-term assets, and expenses needed to prepare the high season. The Group's cash position together with contracted credit lines, valuable tourism assets and a resilient operating business model constitutes a stable balance sheet position of the Group.

Assets and liabilities

Results of the Company

Isabella Island Resort, Valamar Collection 4/5*, Poreč

In the first half of 2025, total revenues amounted to EUR 120.2 million, an increase of 16.8% or EUR 17.3 million, compared to the same period in 2024, when they amounted to EUR 102.9 million. Sales revenues amounted to EUR 105.0 million, an increase of 19.4% compared to the same period last year. The inclusion of the business results of the three hotels in Austria, as previously explained, and the growth in operations across all other destinations in Croatia had a significant impact on the Company's revenues and expenses.

Material costs amounted to EUR 47.0 million, up 15.9%, mainly as a result of increased costs of food and beverages, cost of goods sold, maintenance, consumables as well as promotional and marketing costs. Personnel costs amounted to EUR 47.9 million, up 16.0% year-on-year, following a higher average number of employees and the increase in employee salaries. Depreciation amounted to EUR 27.0 million, up 10.4% year-on-year, mainly due to increased capital investments in 2024.

In the first half of 2025, the net financial result amounted to 1.7 million euros (-0.5 million euros in the same period in 2024). The improved net financial result was mainly influenced by lower interest expenses by 2.7 million euros, mainly due to the absence of EUR 2.4 million in statutory default interest related to legal proceedings, and secondarily due to higher capitalization of interest on investment loans for the Pical Resort. On the other hand, due to the decline in interest rates on deposits and the lower amount of available cash, other interest income decreased by 0.6 million euros.

The Company recorded a positive EBITDA of EUR 2.0 million in the first half of the year. The increase in EBITDA of EUR 6.4 million compared to the same period last year was primarily driven by the growth in operating revenues across all destinations where the Company operates, particularly through higher sales prices and an increase in accommodation units sold through direct sales channels.

The loss before tax (EBT) amounted to EUR 23.3 million, representing an improvement of EUR 6.0 million compared to the previous year, primarily driven by improved operating profit. The Company estimated an increase in deferred tax assets on the realized loss and accordingly recognized tax income in the amount of 5.0 million euros. The net loss for the period amounts to 18.3

million euros. Due to the highly pronounced seasonality of business, the profit tax estimate for the semi-annual reports is not an indicator of the final profit tax of year 2025.

As of 30 June 2025, the total value of the Company's assets amounts to EUR 779.2 million, representing a decrease of EUR 3.2 million compared to 31 December 2024. Total share capital and reserves amount to EUR 360.3 million, which is 11.7% lower due to the dividend payment of EUR 29.5 million and the net loss of EUR 18.3 million recorded in the first half of 2025. As of 30 June 2025, the Company's cash balance amounts to EUR 4.0 million, which represents a decrease of EUR 49.2 million compared to 31 December 2024. The main reasons for the decrease in cash during the first half of 2025 were loan repayments, investments in long-term assets, and expenses needed to prepare the high season.

VALAMAR RIVIERA

Valamar Riviera d.d. continues its investment cycle for 2024/25, totalling EUR 101.4 million. Investments are aimed at improving business processes, enhancing business operations, raising the quality of facilities and services and increasing energy efficiency and digitalisation.

The most significant individual capital investment in this cycle is the continued construction of Pical Resort 5*, Valamar Collection, with an investment value of EUR 60 million. Works on Pical Resort are progressing according to plan, with the opening scheduled for the first quarter of 2026. Pical Resort will offer a premium year-round tourism experience and accommodate an additional 2,000 guests. Over several years, total investment in the Pical zone will reach EUR 200, supporting the development of public tourism infrastructure, including promenades, cycling paths, a beach, indoor and outdoor swimming pools, and a variety of other facilities for tourists and the local community. The property will feature two swimming pool complexes, a central hotel and 2 wings: V Level and Family. This hotel will include the largest conference centre in Istria, with a capacity of 1,200 participants, strengthening its position in the business groups market. The expanded offering is designed to extend the tourist season and drive increased operating revenues.

The second major investment in this cycle is the reconstruction of Jadran Hotel, valued at EUR 5.3 million. The project includes a complete renovation and redesign of 24 existing accommodation units into 12 luxury rooms, along with the redesign of the reception area and shared spaces. The opening of the new restaurant JAZ by Ana Roš within the hotel will further elevate Valamar's gastronomic offering, promote local producers, and create new employment opportunities.

Other notable investments in Valamar Riviera's hotels include:

- the renovation of 30 villas at Valamar Tamaris Resort 4*, along with upgrades to the entrance area, reception and lobby
- investments in pool equipment for the Miramare pool at Isabella Island Resort 4*/5*, Valamar Collection
- the furnishing of additional accommodation units managed by Valamar as part of the diffuse hotel project in Poreč
- enhancements to the V-Level villas at Girandella Resort 4*/5*, Valamar Collection, aimed at improving the quality of accommodation and services for guests, as well as modernising the V-Level building and pool area

Concerning other properties, an additional EUR 700 thousand will be allocated for the purchase of furniture and equipment, EUR 750 thousand for beach improvements and over EUR 850 thousand for safety upgrades.

In addition to investing in hotels, Valamar is also actively investing in its campsites. Responding to the growing demand for camping tourism, during the current investment cycle Valamar plans to invest more than EUR 900 thousand in expanding and upgrading the standards of its campsites and associated facilities, as follows:

- at Valamar Camping Lanterna 4* in Poreč, ongoing investments include the repurposing of 33 Comfort pitches into 22 Mega Comfort pitches, the construction of a children's playground, the reconstruction of the sunbathing area at the main pool and Aquamar, as well as the renovation of mobile homes, including their terraces and flooring. Plans also feature the introduction of a new pitch type equipped with a mobile sanitary block and a summer kitchenette, along with upgrades to existing pitches through the installation of hydromassage tubs. The first phase of developing the children's playground is already underway, further enhancing the amenities for the campsite's youngest guests

- at Valamar Camping Krk 5*, plans include to repurpose 5 Old Krk Home Type mobile homes to 5 new Premium mobile homes and 10 Comfort Mare pitches to 5 Mega Comfort Mare pitches. Valfresco Market has also been reconstructed
- at Valamar Camping Istra 5*, a Stay Fit zone is developed, featuring the construction of a gym and a covered outdoor area
- at Valamar Camping Marina 4* in Rabac, the reconstruction of the main sanitary block has been completed
- at Valamar Camping Ježevac Valfresco Market has been reconstructed

Company places a strong emphasis on sustainable and socially responsible business practices. To this end, we have invested more than EUR 400 thousand in various energy efficiency projects, such as the installation of LED lighting, and EUR 3.7 million in other sustainability projects. These include the procurement of electric vehicles, tree planting, landscaping, biowaste recycling, the installation of new heat pumps and the procurement of aerators and flow regulators, among other initiatives. Significant investments contributing to sustainability and environmental protection include the planned procurement of an electric vehicle for biowaste collection at Valamar Camping Istra 5*, a new electric boat at Isabella Island Resort 4*/5*, a biocomposter for the Borik zone, new heat pumps at Camping Škrila 3* and Camping Bunculuka 4*, and groundwater-based irrigation at Valamar Camping Baška 4*.

In addition to investments in environmental protection and energy efficiency, the Company places strong emphasis on the ongoing maintenance of all its destinations. This includes the regular upkeep of properties and guest facilities, as well as continued investments in safety. During the 2024/25 investment cycle, maintenance-related investments amount to approximately EUR 17.8 million.

As part of our focus on digitalisation, the Company aims to continuously enhance the quality of its services. In this investment cycle alone, over EUR 6.1 million are being allocated on to digitalisation and innovation projects. In addition, EUR 600 thousand has been invested in IT maintenance projects, while over EUR 1.3 million has been allocated to branding and signage.

IMPERIAL RIVIERA

Imperial Riviera d.d. is continuing its 2024/25 investment cycle, valued at EUR 60.1 million, with the aim of further enhancing its offerings. The investments are focused on repositioning and upgrading service quality, digitalisation, promoting green building and sustainable energy sources, and improving tourism infrastructure across all destinations.

The first phase of Arba Resort 4*, Valamar Collection – the largest development project on Rab – has been completed, establishing the island as one of Croatia's leading family holiday destinations. The resort features 208 modernly equipped accommodation units that combine contemporary design with Mediterranean authenticity. Guests can enjoy a wide range of premium amenities, including a spacious pool complex, a dedicated wellness area, a restaurant highlighting authentic local cuisine, and thoughtfully designed facilities for families and active travellers. The new hotel was built to the highest standards of sustainable building and represents a complete reconstruction of the former Eva Hotel. The design and implementation placed particular emphasis on preserving the natural environment of the Suha Punta peninsula and showcasing the value of the centuries-old Kalifront forest. In addition to its accommodation facilities, the resort offers a variety of new amenities, including a landscaped beach, sports courts and a new bike centre.

In the Makarska destination, the second phase of investment in the Sunny Makarska by Valamar resort has been completed. This phase includes the construction of a modern pool complex with water slides, a sunbathing area, the Grano Duro restaurant and an adjacent parking area.

Construction works have been completed on the Arba Resort Employee Accommodation in the destination of Rab. The project included the refurbishment of existing apartments and bungalows to house employees in line with Valamar standards, as well as the renovation of shared facilities such as a laundrette, a game room, a kitchen, and an outdoor social area. In addition, the modernisation of the administrative building in Rab has been completed, along with the refurbishment of the sanitary block at Valamar Camping San Marino 4*.

Smaller projects have also been carried out to promote green building and the use of sustainable energy sources, such as the installation of heat pumps at Valamar

Padova Hotel and the reconstruction of the power plant at San Marino Resort.

Preparatory activities are underway for upcoming projects, including the second investment phase of Arba Resort 4*, Valamar Collection, as well as the planned beach development works.

SUSTAINABILITY HIGHLIGHTS

EcoVadis has awarded Valamar a new international sustainability recognition – the EcoVadis Gold Medal – reaffirming the leading Croatian tourism company's commitment to sustainable development and corporate social responsibility. After winning silver last year, Valamar has earned gold recognition this year, ranking among the top 5% of companies worldwide based on global business sustainability indicators. EcoVadis is a leading global sustainability ratings platform, assessing over 150,000 companies across 180 countries on environmental protection, labour and human rights, ethical practices and sustainable procurement. The Gold Medal recognises companies that demonstrate exceptional performance in all categories. This accolade firmly establishes Valamar as a frontrunner in sustainable tourism, both in Croatia and throughout Europe.

Valamar Amicor Resort on Hvar received the prestigious DGNB (Deutsche Gesellschaft für Nachhaltiges Bauen, the leading international certification system for sustainable construction and real estate) Gold certification for its sustainably built detached villas. With this, Valamar became the first tourism company in Croatia to receive DGNB Gold certification for green construction, and the Valamar Amicor Green Resort is now the first resort of its kind on the Croatian coast.

The ceremonial opening of Arba Resort 4*, Valamar Collection, marked the completion of the first phase of the largest construction project on Rab. Designed to the highest sustainable building standards, the resort is fully powered by renewable energy sources, including a solar power plant and heat pumps. It meets nZEB standards and ensures minimal CO2 emissions, thanks to features such as green roofs and façades. In June, the documentation for the Arba Resort's first phase was submitted for pre-certification in the DGNB Gold Certificate category.

The resort on Suha Punta preserves the natural environment and the Kalifront forest, while promoting Rab's authentic identity through local products, gastronomy and natural cosmetics. This investment exemplifies modern and socially responsible tourism, contributing to the sustainable development of the destination, enhancing the quality of life for the local community and helping to preserve the island of Rab's natural resources.

According to Bloomberg's latest research from early 2025, Valamar is the most successful tourism company in Croatia when it comes to sustainable business. It has consistent scores across all three ESG categories, confirming Valamar's commitment to transparency, corporate social responsibility and sustainable tourism.

As a member of the UN Global Compact, in 2025, Valamar continues to uphold the Ten Principles of the UN Global Compact. These principles cover fundamental corporate social responsibility in the areas of human rights, labour, environment and anti-corruption. Valamar remains a member of the Energy & Environment Alliance (EEA), a global coalition of hospitality companies and investors committed to decarbonisation and advancing sustainability in the tourism sector.

ESG PROJECTS AND ACHIEVEMENT

Environment

Valamar is reducing its carbon footprint by sourcing 100% electricity, i.e. 75% of its total energy consumption, from renewable sources. These include photovoltaic power plants, LED lighting, replacing fossil fuels with electricity from renewable sources, installing heat pumps and other energy efficiency measures, such as the use of electric vehicles. It also includes other indirect measures such as waste separation and food waste biocomposting, cooperation with local suppliers and suppliers that are also focused on decarbonisation and applying the highest green building standards when investing in tourist properties and facilities. Measures planned to achieve decarbonisation in Scope 1 and Scope 2 by 2026 have been integrated into Valamar's investment and operational plans, along with their associated costs.

In 2025, Valamar is continuing its "Easy as One, Two, Tree" initiative across its hotels and campsites. This initiative enables Valamar's guests to contribute to the planting of new trees, with Valamar matching each donation by donating an additional tree. The campaign will be re-launched in mid-July with the goal of collecting 10,000 trees, mirroring last year's success. During its third season, Valamar has become the largest single contributor to the "CO2MPENSATING BY PLANTING" project led by the Scout and Guide Association of Croatia. In early 2025, 1,500 new saplings were planted near Pula, of which 1,000 were provided by Valamar.

Valamar is continuing the analysis of fishery products to further strengthen a sustainable supply chain, in partnership with the fishermen's cooperative in Komiza. It is expected to achieve a share of at least 20% hake from sustainable catch. Valamar continues to actively collaborate with suppliers of sustainable fishery products, supporting and promoting responsible fishing practices. Currently, 44% of the fishery products in Valamar's portfolio are sustainably sourced. In addition, Valamar continues to invest in the sustainability of its entire supply chain and key suppliers, with the objective of ensuring that responsible and sustainable suppliers account for 80% of the total procurement value.

Social

Valamar is the largest investor in Croatian tourism, with over one billion euros invested in the development of high-quality, value-added sustainable tourism over the past two decades. Its corporate social responsibility investments focus primarily on employees, with initiatives to improve their working conditions and provide opportunities for professional development and training. Valamar also invests in destination development, supporting the creation of tourist infrastructure such as promenades, cycling paths, playgrounds and beaches. In addition, it supports cultural and sporting events, as well as numerous other initiatives aimed at enhancing the quality of life in local communities.

For the eighth year in a row, Valamar has been recognised as the most desirable employer in the tourism and hospitality sector. It remains the only tourism company ranked among the 20 best employers in Croatia, according to the latest survey conducted by the MojPosao portal.

The second season of the "Valamar Provides Tasty Lunches" project has successfully finished. Over the past school year, Valamar rewarded all 28 primary schools from Istria, Rijeka and its surroundings, and the island of Krk that participated in the initiative. Although the original fund was intended to reward 10 schools, Valamar extended the recognition to all participating schools, providing tasty, nutritionally balanced meals made from high-quality, locally sourced ingredients to more than 6,600 pupils.

In March 2025, Valamar once again hosted the Istrian Riviera, the oldest international tennis tournament in Croatia, as part of its commitment to supporting the

development and promotion of sports in the communities where it operates. Valamar continues to invest in infrastructure and sports facilities to ensure that its destinations remain attractive to sports and recreation enthusiasts.

Valamar has also extended its support to two projects led by Croatian Caritas. In April 2025, the Company donated over 6,600 pieces of work clothing and footwear to Caritas Croatia for distribution to its institutions nationwide. In June 2025, Valamar joined Caritas Croatia's project "Save the Kuna from Perishing, Donate it for 1,000 Joys!", which encourages citizens to donate their remaining kuna and lipa coins to Croatian Caritas.

The second "Poreč Loves Bike" cycling event was held in May 2025, organised by Valamar, the City of Poreč-Parenzo and the Poreč Cycling Club. Valamar supported the event by providing lunch and hosting a post-ride gathering for all participants.

In June this year, Valamar launched the "Croatia Summer Quest" contest for children aged 6 to 18 living in Croatia, offering 100 summer camps participation from the Croatia Summer Camp platform as prizes. The Croatia Summer Camp by Valamar digital platform – an innovative, socially responsible initiative for sustainable family tourism – is the first of its kind in Croatia. Its goal is to help residents, guests and tourists easily discover a wide range of activities for children and teenagers, while enabling local club organisers to promote their services free of charge and connect with potential customers. In this second season, the platform will showcase more than 70 sports, educational and arts camps in one place.

HUMAN RESOURCES

This year, Valamar group continues to make significant investments in its employees. In agreement with social partners, the Company increased the base salary by 10 to 15 per cent as of 1 May 2025. This adjustment includes a minimum 10% raise in the base salary, along with an additional increase through a revised coefficient.

During the high season, from June to August, salaries for specialist roles such as chefs, servers and receptionists will range from EUR 1,500 to EUR 2,000 net. Roles including housekeepers, assistant chefs, assistant servers, kitchen staff and servers will earn between EUR 1,000 to EUR 1,400 net.

Valamar is one of the largest employers in Croatia. As of 30 June 2025, the Valamar group employed a total of 7,703 people, including 2,893 permanent employees and an additional 2,087 fixed-term employees with year-round income. On the same date, the Company had 5,731 employees, comprising 2,271 permanent employees and an additional 1,489 fixed-term employees with year-round income.

The ValamarGO! programme remains as a key initiative for the structured onboarding of new employees and has been successfully implemented for the third consecutive year across all destinations. The programme includes five-day training sessions for kitchen, restaurant and front desk staff, delivered by internal mentors. This year, front desk and F&B training programmes have been rolled out across all destinations. More than 35 mentors in 7 destinations trained nearly 400 new colleagues, achieving excellent results – 94% of participants rated their mentors with the highest score of 5. Plans are already underway to expand the programme to other operations, as Valamar continues to invest in effective onboarding and employee development.

In addition to its ongoing investment in employee development, Valamar is continuing its series of reward programmes this year to acknowledge excellence, dedication and exceptional performance. Alongside continuous salary increases, numerous initiatives have been launched to align working at Valamar with modern trends and the actual needs of employees. One such initiative is the “Live the Destination”, which provides all employees residing in Valamar’s destinations, as well as those who permanently relocate there, with an additional EUR 400 net. This measure aims to encourage local jobs, mobility and year-round employment and offers a range of additional benefits for Valamar’s employees. Through the “Roof Over Your Head” programme, permanent employees are also eligible for an add-on of up to EUR 500 per month in housing support for apartment rentals. Beyond these initiatives, all employees enjoy a 30% discount at Valamar’s restaurants and bars, as well as a variety of benefits negotiated with external partners, including banks, transport providers, polyclinics, opticians and other local services ranging from health to leisure. Valamar also offers opportunities for year-round employment stability by enabling staff to work during the winter season at its hotels in Austrian ski resorts. Special attention is also given to supporting employees’ families. For example, the Valamar Playroom provides a stimulating, safe and professionally managed environment for children, giving parents greater flexibility and work-life balance. All these benefits are part of Valamar’s broader strategy to create a work

environment where employees can build long-term careers while enjoying a higher quality of life for themselves and their families.

In 2025, Valamar continues its cooperation with hospitality schools and universities, and, in partnership with the Ministry of Tourism and Sports, is implementing a scholarship programme that offers financial support to students throughout their education. The programme also provides opportunities for internships and the development of new skills and knowledge. As the largest provider of scholarships in Croatia, Valamar awarded scholarships in the 2024/25 school year to 161 secondary school pupils and 33 university students.

As an employer, Valamar actively engages in various initiatives aimed at promoting careers in the tourism and hospitality sectors. At the prestigious international culinary competition Gold Shah 2025, held in Baku, Azerbaijan, Valamar’s Filip Klanfar won both a gold and a bronze medal for the preparation of traditional local dishes. Through presentations and lectures for pupils and students, as well as participation in events dedicated to employment and career development, young people are encouraged to pursue education and careers in tourism. Students and pupils also have the opportunity to hear first-hand from employees about what it is like to work for Croatia’s largest tourism company and to learn everything about the benefits and career development opportunities Valamar offers. In addition, the Company continuously contributes to the quality of education by delivering expert-led lectures in schools, hosting student visits to its hotels and campsites, and collaborating with educational institutions in various ways to help young people better understand the realities of the profession.

VALAMAR GROUP
HAS ESTABLISHED
HIGH STANDARDS
OF CORPORATE
GOVERNANCE

Valamar continues to deliver its business training programme in tourism and hospitality, the V-Executive, in collaboration with five Croatian higher education institutions: the Faculty of Economics and Business of the University of Zagreb, the Faculty of Economics and Tourism in Pula, the Faculty of Tourism and Hospitality Management in Opatija, the Faculty of Economics in Split and the University of Dubrovnik. The two-year V-Executive training program equips Valamar employees with a comprehensive set of knowledge and skills essential for building successful careers in tourism and hospitality. Across 20 modules divided into 7 thematic units, employees gain insights into current trends, innovations and practical solutions, all aligned with an organisational culture centred on learning, development and excellence. Education remains a key element of Valamar’s corporate social responsibility, with employees receiving an average of 49 hours of training per year.

The Company and the Group have been systematically and continuously investing in human resources development. This includes a comprehensive strategic approach to HR management, encompassing a transparent recruitment process, clear goal-setting, employee performance monitoring, investment in professional development, career path planning and the promotion of two-way communication.

Governance - Upravljanje

Valamar's dedication to sustainability has been recognised by certification bodies and organisations, which have awarded numerous sustainability certificates and labels to Valamar group companies and tourism properties. Valamar has certified all its properties according to ISO 9001 quality standards, ISO 14001 environmental management standards, and ISO 50001 energy management standards. Recertification under the ISO 50001 standard is planned for July and August 2025, as part of the ongoing process of maintaining certification for systematic energy management across properties. Currently, 28 hotels hold the Travelife sustainability certificate, 6 campsites are certified with the EU Ecolabel and 16 beaches have been awarded the Blue Flag.

The Company keeps developing and operating in line with the highest standards of corporate governance, as reflected in its business strategy, policies, key regulations and operational practices.

This year, eight Valamar properties have received the prestigious HolidayCheck Award 2025. These awards, based exclusively on authentic guest reviews, reflect the high level of satisfaction with Valamar's services and further reinforce the Company's position as a leader in the tourism industry. Among the 12 most popular hotels and campsites in Croatia, according to guest reviews on the HolidayCheck portal, are 3 properties from the Valamar Collection brand – Isabella Island Resort 4/5*, Girandella Designed for Adults Hotel 4* and Marea Suites 5* – along with Valamar Sanfior Hotel & Casa 4*, Valamar Bellevue Resort 4*, Valamar Parentino Hotel 4*, Valamar Diamant Hotel 4* and Camping Brioni 2*.

This year, TripAdvisor, the world's leading and most recognised travel platform, has once again awarded its prestigious Travellers' Choice awards based on guest reviews and ratings collected over the past 12 months. An impressive 20 of Valamar's hotels, resorts and campsites have been ranked among the top 10% of properties

worldwide. In addition, Sunny Rabac by Valamar received the Travellers' Choice Best of the Best award, placing it among the top 1% of all-inclusive hotels in Europe. Among Valamar's properties ranked in the top 10% globally this year new entries have [PLACES] Obertauern by Valamar in Austria, Imperial Heritage Hotel 4* Valamar Collection, and Valamar Camping Marina 4*. Several award-winning properties from last year have once again reaffirmed their excellence in 2025.

Valamar's Reservations Centre has once again reaffirmed its position as a leader in customer support, winning first place at the annual CX.hr portal award in the category "Contact Centre with 31 or More Workstations". This is further proof of Valamar's continued commitment to excellence, innovation and providing outstanding service to its guests every day.

The Risks of the Company and the Group

Valamar Argosy Hotel 4*, Dubrovnik

The Company and the Group are exposed to numerous risks in everyday operations.

As the main risks, the Company and the Group have identified the following risks:

- business risks – risks related to the way the Company business is conducted, business environment, competition, supply and demand, lack of workforce and continuous adjustment to market needs
- financial risks – comprise financial variables that may cause difficulties in settling financial liabilities of the Company and the Group, impact liquidity, or complicate debt management
- operational risks – related to inadequate use of information and procedures, IT systems and errors in operational management
- global risks – include climate change, adverse weather and natural disasters, pandemics, food shortages, civil unrest, wars and other risks beyond the Company or the Group's (direct) control
- regulatory risks – related to changes in laws, tax and other legislation governing the business operations of the Company and the Group

5 KEY STEPS IN RISK MANAGEMENT PROCESS

When monitoring and assessing risks, the Company and Group use a proactive approach. Risk management is considered a key factor of differentiation among competitors. Along with risk differentiation and mitigation, risk management aims to create sustainable value, thereby strengthening the trust of all stakeholders of the Company and Group. When defining our strategy, particular attention is paid to the short and mid-term risk impact to maintain business sustainability over time.

The risk management process comprises the following steps:

- identifying potential risks in business operations
- analysis and assessment of identified risks
- determining actions and responsibilities for efficient risk management
- monitoring and overseeing initiatives to prevent the occurrence of risk events and alleviating their consequences
- exchanging information on risk management results

BUSINESS RISK

The main Company and Group's business risks are seasonality, the often changing market demands, a lack of the workforce and lawsuits.

Tourism is a specific activity constantly in flux and going through quick trend changes. This requires tourist companies to continuously adapt to survive in the market for the long term. The Company and the Group are exposed to business risks connected with the stability of global tourist trends. The business operations of the Company and the Group are highly dependent on the results achieved during the high season, which generates around 55% of the total turnover. Tourist trends thus considerably depend on the weather during the summer months.

To mitigate these risks, the Company and the Group continuously invest in the expansion and quality enhancement of their accommodation capacities and in developing additional facilities. They are currently the largest investors in Croatian tourism. The development of new technologies considerably changes guest habits and how they plan their holiday and make reservations. The ever-present trend of simplicity of online reservations continues to strongly impact the dynamic of selecting the destination and accommodation. The Company and the Group realise 63.5% of their revenues via direct channels achieved in 2024, including reservations via a direct distribution system – call centre, internet mobile platforms and the loyalty programme. The loyalty programme

President Hotel, Valamar Collection 5*, Dubrovnik

will continue to grow to create additional value for our clients. Web pages, e-marketing and technology will also be further upgraded.

The Company and the Group's development is impossible without a high-quality human resources management. The construction of new facilities and the refurbishment of existing accommodation capacities in Croatia increase the risk of a lack of a qualified workforce. Valamar Riviera is one of the most desirable employers in the country, continuously investing in attracting, training and developing employees. We constantly improve incentive and reward systems, employee career development, employees' wellbeing and accommodation and foster cooperation with education institutions throughout Croatia.

The Company is a defendant in a lawsuit from 2010 relating to the payment for the works on hotel Lacroma during its reconstruction and extension. In 2013, the Commercial Court issued a judgement that fully rejected the claims of the claimants. In 2020, the High Commercial Court of the Republic of Croatia overturned the first-instance judgement, and the case was returned for retrial. In the repeated proceedings, the Commercial Court, by its judgement from May 2023, largely accepted the claim and the Company was charged with the payment of the principal of EUR 2,264,861.17 as well as lawsuit costs in the amount of EUR 702,752.22 and the corresponding statutory default interest. On 31 January 2024, in the appellate procedure on the Company's appeal, the High Commercial Court of the Republic of Croatia delivered a final judgement in favour of the Company, whereby it varied the judgement of the Commercial Court of Dubrovnik from May 2023 and rejected all claims of the claimants as unfounded. The claimants submitted a motion for the permission to file a second appeal regarding the judgment of the High Commercial Court of the Republic of Croatia of 31 January 2024, to which the Company submitted its response. The Company has not yet made any provisions in its business ledgers or booked any costs for this lawsuit.

In 2023, the Company initiated an administrative dispute to annul the Resolution of the Ministry of the Sea, Transport and Infrastructure, adopted after an inspection of the commercial utilisation of the maritime domain in the area of the Ježevac camping on the island of Krk. This Resolution included a prohibition on providing accommodation services on several cadastral parcels and a prohibition on providing anchoring services. In 2024, a non-final judgement was delivered against the Company, and the Company appealed to the competent court against this judgement. The Government of the Republic of Croatia, in its June 2024 Conclusion, charged the Ministry of the Sea, Transport and Infrastructure to urgently establish maritime domain boundaries for all campsites in front of which maritime domain boundaries have not been determined. It also ordered that the

Customs Administration and the Maritime Safety Directorate of the Ministry of the Sea, Transport and Infrastructure stay inspection measures that prohibit the operation of campsites until resolving the unresolved property relations concerning the respective maritime domains, and to do it at the latest by 31 December 2025. Also, the Customs Administration will charge companies a fee for the undisputed area of the maritime domain that they utilise, starting from 1 January 2019 until the respective property relations are resolved. In July 2024, the Ministry of the Sea, Transport and Infrastructure accepted the Company's proposal to reopen the proceedings and lifted the prohibition on providing accommodation services in the Ježevac camping. The Company actively participate in this legal proceedings.

Apart from the above-stated lawsuits, the Company is party to some other court proceedings and has made provisions in its business ledgers for all lawsuits amounting to EUR 2.1 million.

FINANCIAL RISKS

In its everyday business operations and activities, the Company and the Group are exposed to numerous financial risks, especially:

- interest rate risk
- credit risk
- liquidity risk
- inflation risk
- foreign exchange risk

Interest rate risk

The interest rate risk is a risk of change of an interest rate that may lead to a change in the amount of liabilities and interest rate on revenues.

To decrease interest rate risk, the Company and the Group regularly implement interest rate hedging using interest rate swaps (exchange of the variable interest rate with a fixed interest rate). This effectively converts variable interest rate loans to fixed interest rate loans. The impact of interest rate risk on business is limited since most of the Company's and Group's loan portfolios are long-term loans with an agreed fixed interest rate or loans insured with an interest rate swap.

The Company and Group have interest-bearing assets (cash assets and deposits)

that generate revenues from interest rates, so their revenues and cash flows depend on changes in the market interest rates. This risk is especially pronounced in the high season when the Company and the Group have significant cash surpluses at their disposal. Cash placements are mainly done for the short term at market interest rate.

Credit risk

Credit risk can arise from cash assets, time deposits and receivables. According to the Company's and the Group's sales policy, business transactions are conducted only with customers with a suitable credit history, i.e. by agreeing on advance payments, bank securities and paying via credit cards. The Company and the Group continuously monitor their exposure to business partners and their creditworthiness to decrease credit risk. The Company and the Group obtain instruments for securing receivables, such as debentures, bank guarantees and mortgages, thus reducing the risks of inability to collect receivables.

Exposure to credit risk also arises due to cash and deposits with business banks. To diversify this risk, we have set a maximum exposure level for each bank, and the relevant qualitative and quantitative financial stability indicators of banks are continuously monitored.

Liquidity risk

The Company and the Group have a sound liquidity risk management. Sufficient funds for meeting liabilities are available at any moment through own funds, adequate amounts from contracted credit lines for investments and through working capital.

The repayment of credit lines is in line with the period of significant cash inflows from operating activities. The Company and the Group monitor the liquidity through daily cash and short-term and long-term debt reports. Surplus cash is invested in current accounts and time deposits. Only instruments with suitable maturity and sufficient liquidity are selected according to the forecasted needs for liquid funds.

Inflation risk

The Company and the Group are exposed to changes in purchase prices for energy products (especially electricity), food and beverages and consumables, and increase in the prices for construction works and purchase of assets. The Company and the Group have been continually investing in energy efficiency and renewables to mitigate the impact of increasing energy product prices and decrease dependence on suppliers.

Where appropriate, when doing procurement, the practice is to enter into long-term contracts at fixed prices.

One of the ways to mitigate the negative impact of inflation is through the flexible management of sales prices for goods and service. The Company and the Group have a very high share of direct and online sales channels, enabling dynamic sales price formation throughout the year.

Foreign exchange risk

Društvo i Grupa posluju na međunarodnoj razini, promatrano noćenjima ostvarenim s različitih emitivnih tržišta. Ulaskom Republike Hrvatske u eurozonu 1.1.2023. godine, gotovo 100% prihoda i novčanih priljeva ostvaruje se u eurima. Time je valutni rizik (potencijalni gubitak kao posljedica promjena valutnih tečajeva) gotovo potpuno eliminiran.

OPERATIONAL RISKS

Operational risks are connected with direct or indirect losses arising from inadequate or wrong internal or external processes within the Company and the Group. An organisation's complexity and size increase operational risks, which is why building quality processes is a key pillar when it comes to successfully managing these risks.

In today's digital age, cyber and information security have become the key domains of interest for any company that wishes to protect its key information assets. Information, as one of the most important currencies and the foundation of any business system, is often the target of attacks. The information security risks include unauthorised access, data theft, malicious attacks and technical malfunctions, while cyber security includes the protection of networks systems and data against digital threats. Timely recognition and management of these risks are of key importance for ensuring business continuity as well as the trust of our guests.

Being aware of the risks concerning the reliability of business IT solutions and cyber security, the Company and the Group have been continuously investing in improving, developing and implementing new technologies and protection

mechanisms in their everyday business operations. A particular focus is placed on ensuring sufficient resources for developing and implementing new ICT technologies, data protection projects and improving the existing and the development of new robust business systems. Over the years, Valamar has implemented several projects and made several investments to increase its ICT infrastructure's security, stability and efficiency. The Company has ensured an efficient infrastructure and data protection by optimising its incident management process, implementing a 24 hours monitoring system and consolidating all platforms into a single ICT platform.

In case of personal data violation incidents, the Company and the Group may be significantly fined, which can also have a detrimental effect on the Company's reputation. The Company has been continuously working on training its employees and raising their awareness about the importance of personal data protection and information security.

The Company will continue developing and implementing new technologies to continuously boost the resilience of its business processes against the threats posed by cyber and information security.

GLOBAL RISKS

Despite improved security and political conditions, Croatian tourism continues to face challenges, such as:

- periods of global economic and financial crises which reduce the purchasing power of the population from our key source markets and the Republic of Croatia (which includes a potential global trade war as a result of the introduction of new tariffs announced in April 2025 and possible other similar levies)
- security and political issues related to local and global terrorism threats
- global crises due to war zones

Results of the Company and the Group may be influenced by various environmental impacts, such as:

- climate change, such as global warming, long draught or rain periods
- natural disasters and calamities (earthquakes, fires, floods, severe storms, etc.)

- air and soil pollution
- deterioration of quality and pollution of the sea and coast

All these factors may directly impact the number and duration of overnights of our guests in hotels and campsites, as well as increase the costs of our business operations. Health pandemics also represent a global risk, causing financial and operational disruptions in the global economy, and they significantly impact tourism as a very sensitive industry branch. Health risks represent an incredibly challenging risk management segment since the possibilities of the Company and the Group in these cases are limited to risk monitoring and undertaking activities in accordance with internal and external rules and following recommendations in case of a contagious disease outbreak.

REGULATORY RISKS

Changes in laws, taxes and other regulations also represent a significant risk for the Company and the Group. Changes in relevant regulations often enter into force after the business plans for future periods have already been adopted and commercial conditions with business partners have already been agreed upon. This can significantly adversely affect the financial position of the Company and the Group, endanger the planned investment and weaken investor trust.

Recent changes in the regulations relating to the utilisation of the maritime domain, concessions, concession permits and fees for the utilisation of the maritime domain still represent an area that is not fully regulated and has a significant impact on business operations and future development. The regulatory risks represent one of the most challenging areas of risk management, where the Company and the Group have limited ability to mitigate their impact.

Corporate governance

CORPORATE GOVERNANCE CODE IMPLEMENTATION

Valamar Riviera, as well as the Valamar group, are continuously developing and operating in accordance with best corporate governance practices. With its business strategy, policy, key acts and business practice, the company Valamar Riviera has established high standards of corporate governance and thereby strives to contribute to transparent and efficient operations and to establishing strong connections with the environment in which it operates. The Management Board fully complies with the provisions of the adopted acts on corporate governance. Since the listing of shares on the regulated market of the Zagreb Stock Exchange d.d. the Company applies the Corporate Governance Code of the Zagreb Stock Exchange and the Croatian Financial Services Supervisory Agency (hereinafter: HANFA).

In 2021, the company adopted the Code of Business Conduct with associated policies, which aligned its internal rules on corporate governance with the Corporate Governance Code of the Zagreb Stock Exchange and HANFA. The Company's Code of Business Conduct was updated in 2024 and is available on the Company's corporate website at the link <https://valamar-riviera.com/media/494044/valamar-riviera-dd-code-of-business-conduct-2024.pdf>. An integral part of this Code are:

1. Conflict of interest management policy
2. Policies and procedures for approving and disclosing transactions with related parties
3. Risk management policy
4. Corporate social responsibility policies:
 - 4.1. Service excellence and sustainable business policy
 - 4.2. Health and safety policy
 - 4.3. Food safety protocol
 - 4.4. Diversity and non-discrimination policy
 - 4.5. Procurement policy
 - 4.6. Policy on the safety and protection of children's right
 - 4.7. Working conditions policy
 - 4.8. Career management policy
 - 4.9. Environmental protection policy

THE GROUP HAS
ESTABLISHED
HIGH STANDARDS
OF CORPORATE
GOVERNANCE
IN ORDER
TO OPERATE
TRANSPARENTLY
AND EFFICIENTLY

The Company fully complies with and implements the prescribed corporate governance measures, with only minor justified exceptions. This is explained in detail in the Corporate Governance Code Compliance Questionnaire, which is published in accordance with the regulations on the Zagreb Stock Exchange website and the corporate website of Valamar Riviera (<https://valamar-riviera.com/media/500851/compliance-questionnaire-2024.pdf>) and submitted to HANFA.

The Company defined the process of preparing and publishing its financial statements in a detailed internal document. Within this document, the financial reporting procedure is set within a system of internal review and risk management. Additionally, in order to monitor and mitigate the financial reporting risk, the Company uses the measures described in the chapter "The Risks of the Company and the Group".

MANAGEMENT BOARD AND THE SUPERVISORY BOARD

In general, the Management Board and the Supervisory Board conduct their work through meetings as well as by decision-making without holding meetings, via correspondence, in accordance with relevant regulations and the Company's regulations and acts.

The authorities of the members of the Management Board and the members of the Supervisory Board of the Company are determined by the Company's Articles of Association, the Rules of Procedure of the Management Board, and the Rules of Procedure of the Supervisory Board, as well as other relevant regulations. The authorities of the members of the Management Board can also be regulated by special decisions of the Supervisory Board, whose authorities are fully aligned with the provisions of the Companies Act.

The rules for appointing and revoking members of the Management Board and members of the Supervisory Board are established by the Articles of Association, in accordance with the provisions of the Companies Act and the provisions of the Company's internal act. The appointment rules do not contain any restrictions on diversity regarding to gender, age, disability, education, profession, and similar restrictions. The rules in question were established with the aim of better organization and improvement of the corporate governance system. The

Management Board and the Supervisory Board consist of persons who have all the appropriate competences for representation, business, management, or supervision of business management in the best interest of the Company and for the application of due care in representation, business management, or supervision of the Company's business management.

MANAGEMENT BOARD

The Management Board of the Company consists of three members:

1. Željko Kukurin, the President of the Management Board
2. Marko Čižmek, the Management Board Member
3. Ivana Budin Arhanić, the Management Board Member

The Company appointed senior executives, who are the Company's key management, in accordance with the provisions of the Capital Markets Acts and the EU Regulation No. 596/2014. The Company's senior executives, alongside members of the Supervisory Board and the Management Board, include three Senior Vice Presidents: Alen Benković, Davor Brenko and David Poropat, two Vice Presidents: Ines Damjanić and Sebastian Palma, and 27 Sector Directors and Heads: Tomislav Dumančić, Mauro Teković, Bruno Radoš, Sandi Sinožić, Andrea Štifanić, Željko Jurcan, Ivan Karlić, Mario Skopljaković, Dario Kinkela, Mile Pavlica, Tomislav Poljuha, Dragan Vlahović, Flavio Gregorović, Martina Šolić, Vedrana Ambrosi Barbalić, Mirella Premeru, Ivica Vrkić, Giorgio Cadum, Lea Sošić, Roberto Gobo, Ivan Polak, Karmela Višković, Denis Prevolšek, Vlatka Kocijan, Antonio Beg, Ivana Tubaković Laković and Miloš Vukadinović.

NOTE 2 – SUMMARY OF MATERIAL INFORMATION ON THE ACCOUNTING POLICIES AND ESTIMATES

2.1 Basis of preparation

The Company's and Group's financial statements for the half year period 2025 have been prepared in accordance with International Accounting Standard (IAS) 34 – *Interim Financial Reporting*. The financial statements have been prepared under the historical cost method, except for the financial assets at fair value through profit or loss and financial assets. The consolidated and unconsolidated financial statements for the half year period do not include all the information and disclosures required in the annual financial statements, and should be read in conjunction with the Company's and Group's annual financial statements as at 31 December 2024 which are available on HANFA (Croatian Financial Services Supervisory Agency), Zagreb Stock Exchange and Company's web page.

2.2 Going concern

Company's and Group's half year period financial statements have been prepared on a going concern basis. Based on current expectations Management believes that the geopolitical situation will not have a significant negative impact on the Company's and Group's ability to fulfil its obligations nor prolonged impact on Company's and Group's revenues and overall business which can affect the Company's and Group's ability to continue as a going concern in the foreseeable future.

2.3 Significant accounting policies

The accounting policies adopted in the preparation of the financial statements for the half year period 2025 are consistent with those followed in the preparation of the Company's and Group's annual financial statements for the year ended 31 December 2024.

2.4 Critical accounting estimates

During the preparation of the financial statements for the half year period 2025, there were no changes in the key accounting estimates compared to the estimates used in the preparation of the annual financial statements for the year ended 31 December 2024.

The Company and the Group as lessees of tourist land

Due to the transition from public to private ownership, e.g. in the transformation and privatisation process and the fact that the properties of the Company and the Group that were used in the transformation process were appraised in the share capital of the Company, and a part was not appraised, there are proceedings regarding the ownership of a part of the land within the majority of tourist companies, as well as for the Company and the Group. According to the Act on Tourist and Other Construction Land not appraised in the transformation and privatisation process ("the ZOTZ"), which entered into force on 1 August, 2010, a concession fee for the use of tourist land with an area of 3.29 mn m² was calculated for the Company and 3.47 mn m² for the Group. With the entry into force of the Act on unappraised land ("the ZNGZ") on 2 May 2020, the ZOTZ ceased to be valid.

The ZNGZ prescribes the obligation to determine and form buildings on appraised parts of campsites, hotels, tourist resorts and other construction land as ownership of the Company and the Group and buildings on unappraised parts of campsites, hotels, tourist resorts and other construction land as ownership of Republic of Croatia or local governments. For parts of a land owned by the Republic of Croatia or local

governments, the Company and the Group currently do not have lease agreements in place. However, they are actively working on preparing such agreements, with the lease term set for 50 years.

From the entry into force of the ZNGZ until the day of signing the lease agreement, the rent will be paid according to the area of the tourist land for which the concession fee has been calculated based on the ZOTZ, in the amount of 50% of the fee until the final resolution of property legal relations. The unit amount of rent and the method and terms of payment is determined by Regulations from Government.

On 8 February 2024, the Government of the Republic of Croatia adopted two Regulations on tourist lands: (1) the Regulation on the method of determining the unit of lease for tourist land on which the hotel has been built and the tourist estate, the method of calculation for lease and other fees and mandatory content of the lease agreement and (2) the Regulation on determining the initial amount of the unit price of the lease for the tourist land in camp, the method of calculation of lease and other fees and mandatory content of the lease agreement (hereinafter: the Regulations).

After the adopted Regulations, the Company and the Group revised the areas of tourist land and estimated that in the future the Company will use 2.6 mn m² and the Group 2.8 mn m².

The accounting treatment of leases by lessees, including the rent of tourist land according to the provisions of the ZNGZ, should be viewed in the context of provisions of IFRS 16 - Leases. However, when analyzing the effects of the Act and Regulations and the actual application of the relevant standard, significant evaluations of the criteria for the application of IFRS 16 are required.

According to the Regulations lease fees are determined as an indexed unit price per square meter up to a maximum of 4% of the tourist facility income of the previous period. The Company and the Group made detailed analysis of fees for each individual tourist facility.

For tourist facilities for which it is estimated that the variable income limit will be reached in most years, the payments are considered variable and as such are excluded from the lease liability, i.e. the criteria for applying IFRS 16 are not met. Variable lease payments are recognized in the statement of comprehensive income for the period.

For tourist facilities for which the variable income threshold is estimated to be unlikely (very low probability) to ever be exceeded, the payments are basically fixed and the indexed unit price per square meter is included in the calculation of the rental obligation.

According to the prescribed unit rent prices from the Regulations and the determined discount rate of 5.42% to 7.96% for the Group, an initial assessment of the value of assets and liabilities with the right of use was carried out in accordance with IFRS 16 on 1 January 2024 and amounts to EUR 58 million for the Company and EUR 62.8 million for the Group.

The estimated amount of rent for tourist land for 2025 amounts to EUR 4.2 million for the Company and EUR 4.6 million for the Group. On the basis of the fixed part of the rent, with the application of IFRS 16, the Company and the Group have for the half year period 2025 recognized depreciation expense in the amount of EUR 630 thousand for the Company and EUR 682 thousand for the Group and interest expense in the amount of EUR 1,570 thousand for the Company and EUR 1,761 thousand for the Group was shown. On the basis of the variable part of the rent, the operating cost for the Company and the Group was shown in the amount of EUR 464 thousand.

NOTE 3 – FINANCIAL RISK MANAGEMENT

3.1 Financial risk factors

In their day-to-day business activities, the Company and the Group face a number of financial risks, especially market risk (including currency risk, interest rate risk and price risk), credit risk and liquidity risk. The Company and the Group have a proactive approach in mitigating the interest rate risks by using available market instruments. Internal risk management goals and policies aim at protecting partial interest hedging of the principal loan amount.

3.2 Capital management

The Company's and Group's objectives when managing capital are to safeguard the Company's and Group's ability to continue as a going concern in order to provide returns for the owner and to maintain an optimum capital structure to reduce the cost of capital.

3.3 Fair value estimation

The fair value of financial instruments traded in active markets is based on quoted market prices at the reporting date. The quoted market price used for financial assets held by the Company and the Group is the current bid price. The fair value of financial instruments that are not traded in the active market is determined by using valuation techniques. The Company and the Group use a variety of methods and make assumptions that are based on market conditions existing at each reporting date.

The carrying value less impairment provision of trade receivables and payables are assumed to approximate their fair values.

Quoted market prices for similar instruments are used for long-term debt. The fair value of financial liabilities for disclosure purposes is estimated by discounting the future contractual cash flows at the current market interest rate that is available to the Company and the Group for similar financial instruments.

Fair value hierarchy

IFRS 13 specifies a hierarchy of valuation techniques based on whether the inputs to those valuation techniques are observable or unobservable. Observable inputs reflect market data obtained from independent sources; unobservable inputs reflect the Company's market assumptions. These two types of inputs have created the following fair value hierarchy:

- Level 1 – Quoted prices (unadjusted) in active markets for identical assets or liabilities.
- Level 2 – Inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly (that is, as prices) or indirectly (that is, derived from prices).
- Level 3 – Inputs for the asset or liability that are not based on observable market data (unobservable inputs).

The following table presents assets measured at fair value as at:

NOTE 4 – SEGMENT INFORMATION

Following the management approach of IFRS 8, operating segments are reported in accordance with the internal reporting provided to the Group's Management (the chief operating decision-makers) who are responsible for allocating resources to the reportable segments and assessing its performance.

The Group records operating revenues and expenses by types of services rendered in three basic segments: hotels and apartments, camping and other business segments. Revenue was divided between segments according to the organizational principle, where all of the income generated from camping profit centres was reported in the camping segment, and all of the income generated from hotel and apartment profit centres was reported in that segment. Other business segments include revenue from laundry services, other rentals of properties, revenue generated from the central services and central kitchens, revenue from retail, agency revenue and revenue from the accommodation of employees.

The segment information related to reportable segments for the half year period 2024 is as follows:

NOTE 11 – CONTINGENCIES AND COMMITMENTS

The contracted capital commitments of the Company in respect to investments in tourism facilities at 30 June 2025 amount to EUR 80,677 thousand (30 June 2024: EUR 92,336 thousand). The contracted capital commitments of the Group in respect to investments in tourism facilities at 30 June 2025 amount to EUR 96,908 thousand (30 June 2024: EUR 122,245 thousand).

The Company is the guarantor of the bank loan of related-party Valamar Obertauern GmbH. The estimated maximum amount of the guarantee that can be realized is EUR 5,088 thousand. The loan of the related-party is secured by mortgages on the real estate of Valamar Obertauern GmbH. The Company estimates the very low probability of incurring an actual obligation under the guarantee.

The Company was the guarantor of the loan of related-party Imperial Riviera d.d. in the amount EUR 48,889 thousand, and to secure the claim a pledge over Imperial Riviera's property facilities was established in the amount of the claim. On 15 April, 2024, the Company concluded agreements with OTP banka d.d. on the termination of the loan guarantee agreement with the related party Imperial Riviera d.d. Following the termination of the guarantee agreement on 16 April, 2024, the Company signed an agreement with the related-party Imperial Riviera d.d. on the termination of the insurance of the guarantee agreement and approved the deletion of the lien on the real estate of Imperial Riviera d.d.

In 2023, the Company initiated an administrative dispute to annul the Decision of the Ministry of the Sea, Transport and Infrastructure, adopted after inspection supervision of economic use of the maritime domain in the area of the Ježevac camping on the island of Krk. This Decision includes a ban on the provision of accommodation services on several cadastral parcels and a ban on the provision of anchoring services. In 2024, a non-final judgment was delivered against the Company, and the Company appealed against this judgment to the competent court. The Government of the Republic of Croatia in its Conclusion from June 2024, gave the task to the Ministry of the Sea, Transport and Infrastructure to determine the boundary of the maritime domain for all campsites in front of which the border of the maritime domain has not been determined, and order that the Customs Administration and the Ministry of Sea, Transport and Infrastructure, the Navigation Safety Administration stop with the inspection measures banning the operation of campsites until the property relations on the maritime domain are resolved, by 31 December 2025 at latest. Also, the Customs Administration will charge companies a fee for the area of undisputed maritime property they use, starting from 1 January 2019 until the resolution of property relations. In July, the Ministry of the Sea, Transport and Infrastructure accepted the Company's proposal to renew the procedure and removed the ban on providing accommodation in Ježevac camping. Regarding the same subject, at the beginning of February, 2024, a notice of tax inspection was received from the Ministry of Finance which began on 27 February, 2024. The Company is actively participating in this legal process.

The Company is the defendant in a lawsuit from 2010 related to the payment for works on the Lacroma Hotel during its reconstruction and expansion. The Commercial Court issued a judgment in 2013, rejecting the plaintiff's claims in full. In 2020, the High Commercial Court of Croatia overturned the first instance ruling, and the case was sent back for a retrial. In the repeated proceedings, the Commercial Court in its judgement of May 2023, for the most part upheld the claim and the Company is held liable for the payment of principal in the amount of EUR 2,264,861.17 and litigation costs in the amount of EUR 702,752.22 and the corresponding statutory default interest. On 31 January 2024, the High Commercial Court of the Republic of Croatia issued a final judgment in favour of the Company, reversing the judgment of the Commercial Court in Dubrovnik from May 2023 and rejecting as unfounded all of the claims of the plaintiff. The plaintiffs filed a motion for leave to revise against the judgment of the High Commercial Court of the Republic of Croatia from 31 January 2024, to which the Company sent its response. So far, the Company has not made a reservation or booked costs for the said dispute in its books.

The Company was also a defendant in a lawsuit from 2012, which is related to the payment for work on Lacroma Hotel. The Commercial Court's first-instance ruling from 2015, which was upheld by the High Commercial Court in 2019, rejected the plaintiff's claim. However, on 4 July 2023 the Supreme Court of the Republic of Croatia annulled the rulings of the Commercial Court and the High Commercial Court, and remanded the case for retrial. Based on the claims in the lawsuit, the principal amount in this case was EUR 1,498,608.42. In the retrial, the Commercial Court in Dubrovnik issued a first instance judgment in favour of the Company in February 2024. In the appeal procedure, following the plaintiff's appeal, the High Commercial Court of the Republic of Croatia issued a final ruling on 26 March 2024, unfavourable for the Company, overturning the Commercial Court in Dubrovnik judgment from February 2024 and accepting the plaintiff's claims. On 23 May 2024, based on the final judgment of the High Commercial Court, funds were transferred from the Company's account. On 28 May 2024, the Company filed a motion for permission to review the judgment of the High Commercial Court of the Republic of Croatia. In September 2024, the Supreme Court of the Republic of Croatia issued a decision rejecting the Company's motion for permission to file a proposal against the High Commercial Court's judgment. In the half year period 2024, the Company recorded expenses in the amount of EUR 4.1 million for the principal amount and default interest related to this legal dispute. The Company has filed within a timely manner a Administrative Complaint with the Administrative Court of the Republic of Croatia against the decision of the Supreme Court of the Republic of Croatia which rejected the permission for revision.

In the half year period 2025, the Company did not abolish provisions for legal disputes, while in 2024, provisions were abolished in the amount of EUR 893 thousand.
