EBITDA

Valamar Riviera achieved double-digit growth in business results in the first nine months of 2018 despite slower peak-season demand in tourism. The rising number in overnights over several consecutive years and the 5% increase in ADR, as well as higher operating efficiency through the controlled growth of operating costs, drove a strong EBITDA that totaled HRK 857 million (+11%; HRK 772 million in 2017).

Revenues

Total revenues were HRK 1,921 million, up 10% vs. last year's comparable period (HRK 1,740 million in 2017). In total revenues, HRK 1,850 million represented sales revenues (HRK 1,665 million in 2017), while the remaining part was mainly financial income, down HRK 7 million (from HRK 59 million to HRK 52 million). Sales revenues growth was largely driven by 12% higher board revenues that totaled HRK 1,546 million (HRK 1,387 million in 2017) and 9% higher F&B outlet revenues.

Croatia had reported growing demand for several years before experiencing a recent slowdown in tourist turnover during the summer season. Despite these unfavourable trends, in the observed period Valamar Riviera achieved for the first time over 6 million overnights (+4%), while the average daily rate rose by 5% to HRK 584. The HRK 160 million growth in board revenues was mainly driven by: i) large investments to improve competitiveness and the quality of services and products, ii) strong business development during 1H 2018, iii) demand-driven optimization of distribution and prices, iv) better occupancy, v) the development of destination products with added value, and vi) acquisition of Hoteli Makarska.

Costs

Pressure on growth of operating costs was successfully reduced by a high level of operative efficiency. Their controlled increase by 11% to a level of HRK 1,000 million was mainly due to higher material costs driven by larger business volumes and increased staff costs. However, the share of staff costs in total operating expenses showed a slight decrease in relation to the previous comparable period. Increase of staff costs was planned in line with the salary increase policy and the new staff hired to ensure service quality in the Premium and Upscale products, but human resources still remain the greatest growth challenge in the forthcoming period.

EBT

Profit before tax grew by HRK 53 million to a high HRK 553 million. The strong 11% growth was achieved despite higher amortization cost (+HRK 33 million coming from earlier large investment cycles), due to excellent operating results.

Market capitalization and net debt

The Company's market capitalization fell by 14% in the first nine months of 2018, coinciding with the decrease in international and national stock market indices. Compared to 31 December 2017, net debt increased by 2.8% due to the acquisition of 46.93% of the share capital of Hoteli Makarska, purchase of Matthias Aichmann GmbH in Austria, the large investment cycle that was carried out (over HRK 700 million outflow), and the strong cash flow from business activities.

EXECUTIVE SUMMARY (CONTINUED)

Investments

Valamar Riviera Group completed its large investment cycle worth over HRK 700 million. The investments included several projects: the repositioning of Rabac as leading high-end holiday destination was completed with the opening of the Valamar Collection Girandella Maro Suites 5*, and the Valamar Argosy Hotel 4* was repositioned as “adults only” accommodation. Moreover, we continued investing in raising camping quality to offer products and services with high added value. The investments also included Imperial's projects and a range of other smaller projects to improve quality, operating efficiency and energy saving. Currently, the market demand for the recently developed properties is strong. For details, see “Investments 2018” on page 21.

The Supervisory Boards of Valamar Riviera and Imperial granted their general prior approval for the 2019 investment cycle amounting to a total HRK 752 million. The final investment amount will be decided by the end of the current year. In the forthcoming year 2019, investments represent the continuation of strategical investments to reposition the portfolio towards products and services with high added value while focusing on premium camping in Istria and on Rab and Krk Island. For details, see “Investments 2019” on page 23.

Acquisitions

Croatia's Restructuring and Sale Centre (CERP) accepted Valamar Riviera's binding bid to buy a stake in Hoteli Makarska (726-key portfolio). On 4 April 2018 Valamar concluded an agreement on the purchase and transfer of 55.48% (HRK 172.7 million) of Hoteli Makarska's share capital. Valamar Riviera also concluded a cooperation agreement with AZ mandatory pension funds to start their acting in concert regarding Hoteli Makarska. After the acquisition of shares, Valamar transferred 30.48% of Hoteli Makarska's share capital to AZ. After the completion of the takeover bid and transfer of 95,276 shares to its partner AZ, Valamar Riviera owns 525,379 shares or 46.93% of the acquired company's share capital. Consolidation of operations started in August 2018. Hoteli Makarska's operations account for 2 percentage points of total revenues, i.e. EBITDA growth.

On 20 August 2018, Valamar Riviera disclosed to the investment community that, in their capacity as buyers, Valamar Riviera and Valamar A GmbH (a company owned by Valamar Riviera d.d.), concluded an agreement on the purchase and transfer of a 100% stake in the company Matthias Aichmann GmbH seated in Obertauern, that owns the Petersbühel Hotel 4*. The hotel has a prime location in the center of Obertauern, one of the most

popular Austrian winter destinations. It has been operating for over 50 years and features 82 keys and facilities such as wellness, restaurant and garage. The ski lift is in the hotel's immediate vicinity. By the end of November, Valamar will open the hotel named Valamar Obertauern Hotel 4*. Business internationalization is one of the key strategic goals of the company's development in the forthcoming period and this represents a major step forward in the Company's business expansion across Croatia's borders. The expected consolidation start date is end of October of the current year.

Valamar's press release is available from the Valamar Riviera corporate website (valamar-riviera.com/en/3Q2018).

OUTLOOK

Valamar Riviera announces the expected range of 2018 consolidated operating revenues and EBITDA.

In the business year 2018, the Group expects to achieve consolidated operating revenues ranging between HRK 1,960 million and HRK 1,980 million (HRK 1,778 million in 2017) with expected growth ranging between 10.2% and 11.3%.

For more details and disclaimer, see page 19.

In the business year 2018, expected EBITDA will range between HRK 690 million and HRK 700 million (HRK 606 million in 2017) representing an increase ranging between 13.9% and 15.5%. Expected EBITDA margin will range between 34.8% and 35.7% compared to 34.1% in 2017.

For more details and disclaimer, see page 19.

Following the successful acquisition of Hoteli Baška on Krk Island, Imperial on Rab Island, Hoteli Makarska in Makarska, and Matthias Aichmann GmbH seated in Obertauern, Austria (that owns the Petersbühel Hotel), we are considering further expansion by pursuing new partnerships and acquisition opportunities in Croatia and abroad. The investment and recapitalization offer for Helios Faros is currently being considered. Helios Faros is a company on Hvar Island undergoing bankruptcy proceedings and managing a 591-key portfolio. The offer was submitted by Valamar Riviera together with PBZ Croatia osiguranje pension fund.

For details, see: "Significant Business Events" on page 7.

In line with our strategic goals until 2020, we are focused on preparing investments projects aimed at future development and improvement of the portfolio properties and services.

SIGNIFICANT BUSINESS EVENTS

About Valamar Riviera

Valamar Riviera is the leading tourism company and one of the leading tourism groups in Croatia. It is also one of the largest investors in Croatian tourism with more than HRK 4 billion invested over the last 14 years. It owns the Valamar All you can holiday umbrella brand and the sub-brands: Valamar Collection, Valamar Collection Resorts, Valamar Hotels & Resorts, Sunny by Valamar and Camping Adriatic by Valamar. With this year's acquisitions of Hoteli Makarska d.d. in Makarska and Matthias Aichmann GmbH in Austria, Valamar Riviera Group is now present in seven attractive destinations, from Istria and Kvarner to Dubrovnik in Croatia and Obertauern in Austria. It operates about 12% of the total categorized tourist accommodation in Croatia. The tourist property portfolio includes 34 hotels and 15 camping resorts. More than 21,000 accommodation units can welcome almost 58,000 guests daily. Therefore, Valamar Riviera is the largest tourism group in Croatia, both in terms of portfolio size and revenues. Valamar Riviera cares for the interests of all its stakeholders: guests, suppliers and partners, local communities and destinations, around 22,000 shareholders and more than 6,000 people employed during peak season, and society at large. Stakeholders' interests are actively promoted through Valamar Riviera's principles of sustainable and socially responsible growth and development. The company aims at growing further through portfolio investments, new acquisitions and partnerships, by developing its destinations and human resources, and by increasing operating efficiency.

Hoteli Makarska d.d. share purchase

On 27 December 2017, Valamar Riviera submitted a binding bid to buy a 55.48% stake (621,086 shares) in Hoteli

Valamar Riviera's new branding strategy

Makarska d.d. (hereinafter: Hoteli Makarska), a company seated in Makarska with 726 keys in its portfolio. At the same time, Valamar Riviera concluded a cooperation agreement with AZ, a pension fund management company from Zagreb acting in its own name and on behalf of the mandatory pension funds it manages, to start their acting in concert regarding Hoteli Makarska. On 4 April 2018, Valamar Riviera concluded an agreement with the Republic of Croatia, represented by CERP (Restructuring and Sale Center), regarding the sale and transfer of Hoteli Makarska's shares. With this agreement, Valamar bought 621,086 ordinary shares for a total of HRK 172.7 million. Following this acquisition, on 12 April 2018 Valamar Riviera transferred 30.48% of Hoteli Makarska's share capital (341,218 shares) to its partner AZ and retained 25.00%. On 16 May 2018, HANFA (Croatian Financial Services Supervisory Agency) decided to approve Valamar Riviera's disclosure of the takeover bid for Hoteli Makarska. After the completion of the takeover bid and the transfer of 95,276 shares to AZ, Valamar Riviera owns 525,379 shares or 46.93% of the acquired company's share capital. Hoteli Makarska consolidation start date is August 2018.

Investment and recapitalization offer for Helios Faros

Valamar Riviera and PBZ Croatia osiguranje, a pension fund management company acting in its own name and on behalf of PBZ Croatia osiguranje mandatory pension funds categories: A and B, submitted on 15 May 2017 a joint offer for the investment and recapitalization of Helios Faros, a hospitality company undergoing bankruptcy proceedings from Stari Grad on Hvar Island. The Assembly of bankruptcy creditors of Helios Faros decided on 20 July 2017 to prepare a Bankruptcy Plan, following the investment and recapitalization offer. In this offer, PBZ Croatia osiguranje and Valamar Riviera presented a restructuring plan as well as a six-year plan worth HRK 650 million for investments in hospitality assets. The total renovation and construction of two premium resorts containing around 600 keys would reposition the Helios Faros portfolio as premium

accommodation, thus turning Stari Grad into an attractive and well-known destination. Helios Faros would employ around 500 people after the renovation of the Arkada and Lavanda hotels. The Bankruptcy plan would enable Helios Faros to emerge from bankruptcy and continue its business operations in close partnership with the destination, Stari Grad, to bring prosperity to the whole island. PBZ Croatia osiguranje and Valamar Riviera see this project as a confirmation of synergies from the joint activity of a large institutional investor and a strategic tourism investor contributing with its expertise and results. Consequently, Valamar Riviera would manage Helios Faros' development and operations through a model contract related to the management of facilities. The Bankruptcy plan still needs to be adopted by the Assembly of bankruptcy creditors and validated by the bankruptcy judge.

Statutory change

On 26 January 2018, Valamar Riviera received a notification by EPIC, Goldscheider und Wurmböck Unternehmensberatungsgesellschaft m.b.H. with registered office in Vienna, 8 Plösslgasse, Republic of Austria, regarding the changes in the percentage of voting rights (drop below the voting rights threshold), caused by the transfer of 55,594,884 shares due to the agreed demerger with takeover: EPIC, Goldscheider und Wurmböck Unternehmensberatungsgesellschaft m.b.H. being the demerging company and EPIC Hospitality Holding GmbH with registered office in Vienna, 8 Plösslgasse, Republic of Austria, being the transferee company. As evidenced by the received notifications, the structure of members in the transferee company is indirectly identical to the structure of members in the demerging company. Consequently, no changes occurred in the controlling persons, since the members in EPIC Hospitality Holding are indirectly the same persons and hold the same stakes as the members in EPIC, Goldscheider und Wurmböck Unternehmensberatungsgesellschaft m.b.H. Consequently, on the same day, Valamar Riviera received a notification by EPIC Hospitality Holding regarding the acquisition of 55,594,884 RIVP shares representing 44.11% of the Company's share capital.

After carrying out the required procedure and pursuant to relevant regulations and the decision rendered by the General Assembly on 8 May 2018, the merger of EPIC Hospitality Holding (transferor) to Valamar Riviera (transferee) was entered in the court register of the Commercial court in Pazin on 15 June 2018. Therefore, Valamar Riviera became the universal legal successor of EPIC Hospitality Holding. The transferee's share package held by the transferor was entirely used as compensation, i.e. share exchange for the members in the transferor (Wurmböck Beteiligungs GmbH, Goldscheider Keramik Gesellschaft m.b.H. and Dr. Franz Lanschützer) proportionally to the size of the stake that each individual member holds in the transferor. Thus, the merger and share transfer did not result in any change of controlling persons.

The merger does not significantly affect Valamar Riviera's balance sheet, income statement, employment, operating earnings and other financial and business indicators, and it is also tax neutral for both companies, so the transferee will not be burdened by any additional liabilities. This status change secures continuity in the shareholding structure, thus enabling the continuation of the Company's transparent management, care for employees, focus on destination development and business model sustainability. Therefore, Valamar Riviera retains its market-leading position and the long-term trust of the controlling shareholders.

Loan agreements

On 12 February 2018, Valamar Riviera concluded an agreement with OTP banka Hrvatska and OTP Bank Nyrt from Hungary regarding a club loan for a total of EUR 40 million. On 6 March 2018, Valamar Riviera concluded an agreement with the European Investment Bank from Luxembourg (hereinafter: EIB) regarding a loan of EUR 16 million. This is the first EIB transaction in Croatia that involves the direct financing of a private sector company that benefits from the support of the EU budget guarantee under the European Fund for Strategic Investments, the financing component of the Investment Plan for Europe. On 17 September 2018, a loan agreement was concluded with Istarska kreditna banka regarding a loan of

EUR 10 million. These transactions were concluded to finance long-term investments and working capital and they once more confirm the trust of the investment and financing community in the further development of Valamar Riviera.

Valamar Riviera's General Assembly

The Management Board met on 20 February 2018, while the Supervisory Board met on 27 February 2018 to determine the 2017 4Q audited financial statements and the 2017 audited annual financial statements. The General Assembly of Valamar Riviera was held on 8 May 2018 and decided to:

- Distribute the Company's realized profit in 2017 totaling HRK 231,979,074 to retained profit
- Discharge the Management Board members from managing the Company's business in 2017 and the Supervisory Board members from performing the supervision of the management of the Company's business in 2017
- Pay a dividend of HRK 0.90 (ninety lipas) per each share. The dividend would be paid out of the retained profit achieved in the years 2015 and 2016. Valamar Riviera's shareholders who opted so, received one quarter of their dividend in rights- company shares.
- Appoint Ernst & Young d.o.o. from Zagreb, as Valamar Riviera's auditor in 2018.
- Approve the Joint plan of the merger of EPIC Hospitality Holding GmbH (transferor) into Valamar Riviera (transferee)
- Determine the remuneration for Supervisory Board members.

Re-appointment of the Management Board members and long-term rewarding plan

On 9 May 2018, the Supervisory Board of Valamar Riviera reappointed Mr. Željko Kukurin as Management Board President and Mr. Marko Čižmek as Management Board Member for a new term of office starting from 1 January 2019 to 31 December 2022. In order to further develop Valamar's business, the Supervisory Board adopted a long-term plan

of rewarding the management board and key management with Valamar's shares, amounting to 2% of the annual increase in the market capitalization of the shares on the Official market of the Zagreb Stock Exchange.

2019 Investments

The Supervisory Boards of Valamar Riviera and Imperial granted their general prior approval for the 2019 investment cycle amounting to HRK 617 million and HRK 135 million, respectively. The final investment amount will be decided within this year. The large investment cycle represents the continuation of strategical investments to reposition the portfolio towards products and services with high added value while focusing on premium camping in Istria and on Rab and Krk Island. Investments in the other destinations will include numerous projects for upgrading guest amenities while large investments in accommodation for seasonal employees will continue in line with Valamar's strategic goals. For details, see "2019 Investments" on page 23.

Acquisition of Matthias Aichmann GmbH in Obertauern, Austria

Valamar Riviera has been pursuing expansion opportunities abroad for some time now, with special focus on opportunities in Austria, seeing that it is a large tourism market with over 120 million overnights per year. Austria has a highly developed leisure tourism segment, and it is recognized for its exemplary sustainability and quality in the development of its destinations and tourism infrastructure. Hence, on 26 July 2018, Valamar Riviera disclosed to the investment community that it had made a binding offer, and on 20 August 2018 that, in their capacity as buyers, Valamar Riviera and Valamar A GmbH (a company owned by Valamar Riviera d.d.), concluded an agreement on the purchase and transfer of a 100% stake in the company Matthias Aichmann GmbH seated in Obertauern, that owns the Petersbüchel Hotel 4*. The hotel has a prime location in the center of Obertauern, one of the most popular Austrian winter destinations. It has been operating for over 50 years and features 82 keys and facilities such as wellness, restaurant and garage. The ski lift is in the hotel's immediate vicinity. By the end of November, Valamar will open the hotel,

named Valamar Obertauern Hotel 4*, under the Valamar Hotels & Resorts brand. Business internationalization is one of the key strategic goals of the company's development in the forthcoming period and this represents a major step forward in the Company's business expansion across Croatia's borders. The expected consolidation start date is end of October of the current year.

Quarterly financial statements

The Company's Management Board hereby presents the unaudited financial statements for the third quarter of 2018 (from 1 July 2018 to 30 September 2018) and for the period from 1 January 2018 to 30 September 2018. These statements must be viewed in the context of the said mergers and acquisitions, and they provide information on the state of the Company and Group, as well as significant events.

The Company income statement for the reviewed period includes the data of the merged companies Puntizela d.o.o. for the period following the merger, i.e. as of 1 April 2017, and Elafiti Babin Kuk d.o.o. as of 29 December 2017.

The Group income statement for the reviewed period includes the data of companies Hoteli Makarska d.d. and Valamar A GmbH as from 1 August 2018. The Group balance sheet for the reviewed period, as at 30 September 2018, includes data of Hoteli Makarska d.d. and Valamar A GmbH. Please note that 2018 data cannot be entirely compared to data from the previous period, as the latter do not include data for the company Hoteli Makarska d.d. and Valamar A GmbH.

⁹ EV refers to enterprise value; calculated as market capitalization + net debt.

¹⁰ Average daily rate is recorded on the basis of board revenues (accommodation and board's food and beverage revenues).

¹¹ The change in the number of accommodation units and beds is mostly due to the acquisition of Hoteli Makarska (726 additional accommodation units, or 1,416 beds) and decrease in capacity resulting from investment in the San Marino Camping Resort by Valamar 4* (the conversion of 3 camping plot zones into a parking lot and the installation of premium mobile homes), as well as the conversion of camping plots into premium mobile homes in the other campsites undergoing investment. The capacity of Matthias Aichmann, that owns Petersbühel Hotel 4*, is not included since the start of the consolidation is October 2018 (82 accommodation units).

Overnights and ADR

Revenues and accommodation units sold

Valamar Riviera Group continues achieving record-breaking results. During the first nine months of 2018, operations were marked by double-digit growth in sales revenue and operating earnings (EBITDA). Steered by social responsibility, the concept of sustainable growth and development is the key driver of Valamar Riviera's success. It is reflected in: i) the continual portfolio investments (over HRK 700 million were invested in the preparation for this year's tourist season, while planned investments for the forthcoming year amount to more than HRK 750 million), ii) acquisitions and partnerships (46.93% of Hoteli Makarska's share capital was acquired in the course of the current year, and 100% stake in Matthias Aichmann GmbH in Austria) and iii) the development of our employees and destinations.

Revenues

In the first nine months of 2018, total revenues were HRK 1,921.0 million, up by 10.4% (+HRK 181.1 million) and resulting from the following:

i) strong growth in sales revenues, up by 11.1% (+HRK 184.6 million) to HRK 1,849.7 million, mainly driven by board revenues (+11.5%; +HRK 159.7 million) and extra F&B (+9%). All the marketing segments grew in the January-March period of the current year, individuals and allotments in particular. Although Easter holidays occurred in March, strong growth was reported in April as well, especially in the individual and M.I.C.E.¹² segment. Due to the earlier occurrence of holidays in the DACH¹³ market, an expected growth was reported in all the segments in May. The active management of channels and prices drove the strong market feedback reported by all the channels in June, except for O.T.A.¹⁴, which maintained a controlled growth. During peak season (July-September), growth in board revenues was mainly due to high growth rates in the direct sales channel, along with controlled decrease of the O.T.A. sales channel's share. The first nine months of 2018 saw 6,149,502 overnights (+3.8% as compared to 2017), while the average daily rate grew by 5.1% to HRK 584.

Domestic sales revenues were HRK 157.5 million and represented 8.2% of total revenues (7.5% in 2017). They grew by 20.8% in relation to the previous comparable period. International sales revenues were HRK 1,534.7 million, up by HRK 157.5 million and represented 88.1% of total revenues (88.2% in 2017).

ii) other operating revenues grew by 21.1% (+HRK 3.3 million) to HRK 19.1 million, mainly due to the cancelling of long-term provisions for Imperial's litigations.

iii) financial income fell by -11.5% (-HRK 6.8 million) to HRK 52.3 million, mainly due to a lower appreciation of HRK vs. EUR in 1H 2018 in relation to last year's comparable period.

iv) consolidation of Hoteli Makarska with a 2% contribution to the Group's total revenues.

Other operating and financial income represented 3.7% of total revenues (4.3% in 2017).

Total operating expenses

Total operating expenses were HRK 1,308.1 million and grew by 11.6% (+HRK 136.4 million). Excepting the operations of Hoteli Makarska for reasons of comparability, total operating expenses grew by 10%. The breakdown of total operating expenses is the following:

i) material costs represented 35.4% (36.6% in 2017), up by 8.1% (+HRK 34.7 million) to HRK 463.0 million due to the increase in direct costs of raw materials and consumables (especially food and beverage costs and energy consumption costs) driven by a larger business volume and consolidation of Hoteli Makarska.

ii) staff costs represented 31.6% in the current year (their share in total operating expenses slightly decreased from 31.7% in the first nine months of 2017). They grew by 11.2% (+HRK 41.5 million) to HRK 413.1 million due to the consolidation of Hoteli Makarska which accounts for 2% of growth, and due to the efforts invested in securing competitive salaries and other material and non-material work conditions as well as the new staff hired to ensure service quality at the new Premium and Upscale products. Valamar Riviera is thus the first company in Croatia guaranteeing a minimum net income between HRK 5,000 and 7,500 to all its employees.

iii) amortization costs represented 22.7% (22.5% in 2017), up by 12.6% (+HRK 33.2 million) to HRK 296.4 million due to

the earlier large investment cycle and consolidation of Hoteli Makarska's operations.

iv) other costs represented 9.4% (8.7% in 2017), up by 20.5% (+HRK 20.9 million) to HRK 122.9 million, partly due to i) the increase in costs of lodging and meals for employees, ii) the increase in insurance costs, and iii) consolidation of Hoteli Makarska's operations.

v) provisions and value adjustments represented 0.01% (0.01% in 2017) and were HRK 84,000 (+HRK 14,000 vs. 2017).

vi) other operating expenses represented 1.0% (0.6% in 2017). They grew by HRK 6.0 million to HRK 12.6 million mainly due to higher operating expenses from previous years.

Operating costs¹⁶

Operating costs were HRK 1,000.2 million. Pressure on growth of operating costs was successfully reduced by a high level of operative efficiency. Their controlled increase by 10.8% was due to i) the increase in material costs driven by larger business volume, ii) the increase in other costs (explained earlier), iii) the increase in staff costs (explained earlier), and iv) consolidation of Hoteli Makarska. Excepting the operations of Hoteli Makarska for reasons of comparability, operating costs grew by 9%.

EBITDA and EBT

Unadjusted EBITDA, marked by strong double-digit growth, reached HRK 857.1 million (HRK 772.4 million in 2017). The EBITDA increase by HRK 84.7 million (+11.0%) results from the continuation of the large investment cycle focused on improving competitiveness and the quality of properties and services, the acquisition of Hoteli Makarska in Makarska, active operating efficiency management, and optimization of the distribution and price management in line with increased demand, particularly for properties for which new investments were made. As from August of the current year, consolidation of Hoteli Makarska accounts for 2% of growth. Stronger operating results were also reflected in the adjusted EBITDA¹⁷ that soared by 10.7% to HRK 854.8 million.

In relation to last year's comparable period, profit before tax grew by HRK 52.8 million to a high HRK 552.8 million. The strong 10.6% growth was achieved despite higher amortization costs (explained earlier), due to excellent operating results. Operating profit grew by 10.1% to HRK 560.6 million, while the EBT margin fell by 10 basis points to 29.6% (29.7% in 2017).

¹⁵ Classified according to the Quarterly Financial Statement (TFI POD-RDG).

¹⁶ Operating costs include material costs, staff costs, other costs, and other operating costs reduced by extraordinary expenses and one-off items.

¹⁷ Adjustments were made for (i) extraordinary income (in the amount of HRK 15.8 million in 2018, and HRK 6.2 million in 2017), (ii) extraordinary expenses (in the amount of HRK 12.7 million in 2018, and HRK 5.2 million in 2017), and (iii)

termination benefit costs (in the amount of HRK 0.8 million in 2018, and HRK 0.6 million in 2017).

Financial income and expenses

Net debt ¹⁸

Financial result

In the first nine months of 2018, the Group reported a financial result of -HRK 7.9 million (-HRK 9.2 million in 2017). The financial result, stronger by HRK 1.3 million in relation to the previous comparable period, is mainly due to: i) lower negative foreign exchange differences, ii) a lower positive fair value of FX forwards that fell by HRK 2.4 million due to the lower appreciation of HRK vs. EUR in relation to last year's comparable period, and iii) the net effect of the HRK 4.2 million increase in financial expenses related to interest on long-term loans for financing large investments.

Financial income

In the first nine months of 2018, financial income was HRK 52.3 million, down by HRK 6.8 million vs. last year's comparable period. Foreign exchange differences and other financial income were HRK 44.5 million, down by HRK 4.6 million due to the lower HRK appreciation in 1H 2018 in relation to last year's comparable period. Unrealized gains (income) from financial assets were HRK 4.7 million and fell by HRK 2.4 million due to a lower positive fair value of FX forwards compared to the same period last year due to the lower appreciation of HRK vs. EUR in 1H 2018. Other financial income was HRK 2.4 million.

Financial expenses

The Group's financial expenses were HRK 60.1 million and, in relation to the previous comparable period, they fell by HRK 8.2 million. Negative foreign exchange differences were down by HRK 11.6 million due to lower HRK depreciation in the third quarter in relation to last year's comparable period. Due to an increase in credit liabilities for the financing of the large investment cycles in 2017 and 2018, financial expenses related to interest grew by HRK 4.2 million to HRK 36.4 million. Unrealized expenses from financial assets decreased by HRK 0.9 million, driven by decreased liabilities related to the fair value of interest rate swaps.

¹⁸ Net debt: non-current and current liabilities to banks and other financial institutions + liabilities for loans, deposits and other – cash and cash equivalents – long-term

and short-term investments in securities – current loans given, deposits, etc.

Assets and liabilities

As at 30 September 2018, the total value of the Group's assets was HRK 5,952.7 million, up by 19.1% compared to 31 December 2017.

Total share capital and reserves grew by 23.7% and totaled HRK 3,111.3 million. Total long-term liabilities grew from HRK 1,915.7 million to HRK 2,310.8 million due to loans contracted to finance this year's investment cycle and, to a smaller part, as a result of consolidation of Hoteli Makarska. Almost the entire loan portfolio is comprised of long-term fixed interest loans or, respectively, loans hedged by a derivative instrument (IRS) for protection against interest rate risk.

Total short-term liabilities were HRK 338.6 million, down by 16.0% compared to 31 December 2017. This is mainly due to i) the current repayment of long-term debt (HRK 144.3 million decrease), ii) the typically lower trade payables (HRK 31.4 million decrease), iii) liabilities related to advance payments from customers (HRK 52.6 million increase) te iv) liabilities to employees (HRK 22.6 million growth due to a larger consolidation scope and the increased number of employees compared to 31 December 2017).

Cash and cash equivalents as at 30 September 2018 grew by 58.3% to HRK 455.7 million. The contracted credit lines for investments and the strong cash potential from business activities secure a smooth continuation of future investments and potential acquisitions.

Hotels and resorts reported a strong 11.4% growth (+HRK 120.0 million) and achieved HRK 1,171.2 million in board revenues. The high increase resulted from the earlier large investment cycle, the optimization of the marketing mix and prices, as well as the demand-driven larger number of operating days, especially in the Premium and Upscale segment, and acquisition of Hoteli Makarska.

Premium hotels and resorts

Premium hotels and resorts reported a 30.3% increase in board revenues that totaled HRK 335.3 million. The HRK 78.0 million growth was mostly driven by the following properties: i) larger number of operating days of the Valamar Collection Girandella Family Hotel 4*, taking into account last year's investment, ii) the newly opened Valamar Collection Girandella Maro Suites 5*, iii) excellent placement of preseason events and growth in all segments, especially in the individual channel in peak season at the Valamar Collection Isabella Island Resort 4*/5*, iv) earlier opening and increase in the direct and group channels at the Valamar Collection Dubrovnik President Hotel 5*, especially M.I.C.E. and groups, v) stable growth in M.I.C.E. and increase in the direct and allotment channels at the Valamar Lacroma Dubrovnik Hotel 4*, and vi) repositioning of the Valamar Collection Imperial Hotel 4* into the Premium segment.

Upscale hotels and resorts

Upscale hotels and resorts reported HRK 322.3 million in board revenues. The strong growth (HRK 22.8 million) was primarily driven by larger volumes, i.e. 715,890 overnights achieved (+6.0%). The drivers of 7.6% growth in board revenues were: i) larger number of operating days of the TUI Family Life Bellevue Resort 4* as a result of last year's investment, ii) successful placement of groups and good feedback by the individual channel at the Valamar Tamaris Resort 4*, iii) increased physical volumes at the Valamar Zagreb Hotel 4*, iv) the Valamar Argosy Hotel 4* due to very strong feedback by the individual channel and very successful placement of groups and M.I.C.E., and v) the Valamar Padova Hotel 4*, due to excellent feedback by the direct channel resulting from the synergic effects of Valamar Riviera's sales management.

Midscale hotels and resorts

The midscale segment reported HRK 385.0 million in board revenues and is mostly influenced by the repositioning of the Valamar Collection Imperial Hotel 4* as Premium accommodation, and consolidation of the Valamar Meteor Hotel 4* and the Dalmacija Sunny Hotel by Valamar 3* in Makarska as from August 2018. If we exclude the results achieved by these facilities, board revenues went up by 3.5%. The drivers of growth were: i) better operating results of the

Valamar Club Dubrovnik Hotel 3*, especially in the individual segment, ii) increase of the average price and accommodation units sold at the Corinthia Baška Sunny Hotel by Valamar 3*, iii) the Valamar Crystal Hotel 4*, primarily due to increased physical volumes, iv) stronger market feedback received by the allotment and M.I.C.E. channels at the Valamar Diamant Hotel 4*, v) growth in the allotment channel at the Valamar Rubin Hotel 3* and the Valamar Pinia Hotel 3*, and vi) increase in all channels, except for the group channel, at the Valamar Zvonimir Hotel 4*, the Valamar Atrium Baška Residence 4*/5* and the Valamar Villa Adria 4*.

Economy hotels and resorts

Economy hotels and resorts achieved HRK 128.6 million in board revenues. Operations of the Economy segment were influenced by consolidation of the Rivijera Sunny Resort by Valamar 2* in Makarska as from August 2018. If we exclude business results of the above mentioned facilities, the Economy segment shows a decrease by 6.3%, primarily due to the conversion of Pical apartments into accommodation for employees.

Camping resorts achieved a total of HRK 375.1 million in board revenues. Successful optimization of the average rate for mobile homes and camping pitches (+11.2%) resulted in a strong growth in total board revenues by 11.8% (+HRK 39.7 million).

Premium camping resorts

Premium camping resorts reported HRK 187.6 million in board revenues, up by 41.6% (+HRK 55.1 million) and driven by ADR (HRK 396, +14.8%) and 473,442 accommodation units sold (+23.4%). The high growth rates in physical indicators and ADR are mainly due to: i) excellent business results reported by the Lanterna Premium Camping Resort by Valamar 4* (17% higher board revenues, also due to strong market feedback received by this year's investments in new products and guest amenities, especially mobile homes), and ii) the Ježevac

Premium Camping Resort by Valamar 4* going from Upscale to Premium. The rest of the growth is attributed to the strong performance of the Krk Premium Camping Resort by Valamar 5*.

Upscale camping resorts

Upscale camping resorts reported HRK 83.4 million in board revenues, up by 59.0%, because: i) the Ježevac Premium Camping Resort by Valamar 4* went from Upscale to Premium, ii) the San Marino Camping Resort by Valamar 4* went from Midscale to Upscale, and iii) the Zablaće Camping Resort by Valamar 4* went from Midscale to Upscale. Excluding the influence of the segmentation shift for the said campsites, the comparable growth was 7% because two campsites reported better operating results: the Marina Camping Resort by Valamar 4* and the Bunculuka Camping Resort by Valamar 4*.

Midscale camping resorts

Midscale campsites reported a 38.3% decrease to HRK 73.7 million because the San Marino Camping Resort by Valamar 4* and the Zablaće Camping Resort by Valamar 4* went from Midscale to Upscale. The comparable growth in board revenues was 5% thanks to the stronger results achieved by the other Midscale camping resorts.

Economy camping resorts

Economy campsites reported HRK 30.5 million in board revenues. The drop by HRK 0.5 million is primarily due to earlier closure of Istra Sunny Camping by Valamar 2* because of investment in its repositioning to Premium.

²⁰ Decrease in capacity is mainly due to investment in the San Marino Camping Resort by Valamar 4* (the conversion of 3 camping plot zones into a parking lot

and the installation of premium mobile homes), as well as the conversion of camping plots into premium mobile homes in the other campsites undergoing investment.

Destination Poreč

Destination Poreč reported HRK 639.8 million in board revenues. The HRK 34.0 million increase in board revenues was mostly due to the strong performance of the Valamar Collection Isabella Island Resort 4*/5*, the Valamar Tamaris Resort 4*, the Valamar Zagreb Hotel 4* and the Lanterna Premium Camping Resort by Valamar 4*.

Destination Rabac

Destination Rabac reported HRK 240.3 million in board revenues. The 8.8% growth was mostly driven by: i) earlier opening of the Valamar Collection Girandella Family Hotel 4* and the TUI Family Life Bellevue Resort 4* as regards last year's investments, and ii) the newly opened Valamar Collection Girandella Maro Suites 5*.

Destination Krk Island

This destination reported HRK 207.1 million in board revenues that were driven by 1,070,344 overnights achieved, and the average daily rate going up by 6.9% to HRK 468. The main contributors to the total growth are the destination's campsites, especially the Krk Premium Camping Resort by Valamar 5*, the Ježevac Premium Camping Resort by Valamar 4* and the Zablaće Camping Resort by Valamar 4*, along with the Corinthia Baška Sunny Hotel by Valamar 3*.

Destination Rab Island

Although the Valamar Collection Imperial Hotel 4* had fewer operating days because of the investments, board revenues in the first nine months of 2018 grew by HRK 15.6 million to HRK 143.0 million. Most of the growth was driven by the Valamar Padova Hotel 4* due to successful feedback of the group and

direct channels, and by the San Marino Camping Resort by Valamar 3* and the Padova Camping Resort by Valamar 3*.

Destination Dubrovnik

Destination Dubrovnik reported HRK 288.0 million in board revenues that went up by HRK 14.3 million mostly due to stronger operating results reported by the Valamar Collection Dubrovnik President Hotel 5*, the Valamar Lacroma Dubrovnik Hotel 4*, and the Valamar Argosy Hotel 4*.

Destination Makarska

This year's hotel and resort consolidation in Makarska during August and September contributes HRK 28.1 million to board revenues. In comparison to the comparable previous year period, Makarska reported an increase by almost 5% in board revenues.

²¹ According to the classification under the USALI international standard for reporting in hotel industry (Uniform System of Accounts for the Lodging

Industry). Puntizela - Pula business is included in destination Poreč. A detailed comparison of the new portfolio segmentation can be found on page 18.

Over the years Valamar Riviera has consolidated its portfolio in order to clearly differentiate, develop and reposition its hospitality products. A precise definition of market segments, the innovative development of service concepts, active brand management, profitability increase and return-on-investment optimization demanded a revised segmentation of the portfolio of hospitality properties. Over time, the brand architecture was supplemented and modified, adapting to the changes within the Company, and in 2016, the process of redefining the existing brand strategy was launched; the process was completed and implemented in the second half of 2018. The new brand strategy enables us to increase market reach, improve product and service compatibility with specific market segments, increase guest loyalty and, ultimately, increase the key business indicators. Key changes:

- i) The key core values of the Valamar All you can holiday umbrella brand, which are linked to all the brands in the system, have been defined.
- ii) The existing Valamar brand architecture undergoes reshaping from a system with two main product brands to a system with five main product brands closely linked to Valamar's core culture and values.
- ii) The system of communication for the standardized Valamar signature programs has been defined, alongside their application to the compatible Valamar product brands.
- iv) Each property in the portfolio is linked to one of the product brands and has had specific positioning, USPs, target markets and sales channels defined specifically for it.
- v) Valamar Collection and Valamar Collection Resorts are brands of strategic importance and are the closest to Valamar's core values; they include the best products in the portfolio.
- vi) Valamar Hotels & Resorts is a brand covering the largest portion of the Company's capacities and includes both upscale and midscale properties; specific labels will be introduced through this brand, depending on the special characteristics of each individual product.
- vii) Sunny by Valamar is the economy brand that includes both midscale and economy portions of the portfolios
- viii) Camping Adriatic by Valamar will be lifted to a higher level and be more strongly linked to the Valamar brand; additionally, it has been divided into three categories, using the same principle as for hotels and resorts – Premium Resorts, Resorts and Sunny.

2018 OUTLOOK

Valamar Riviera announces the expected range of 2018 consolidated operating revenues and EBITDA.

In the business year 2018, the Group expects to achieve consolidated operating revenues ranging between HRK 1,960 million and HRK 1,980 million (HRK 1,778 million in 2017) with expected growth ranging between 10.2% and 11.3%.

In the business year 2018, expected EBITDA will range between HRK 690 million and HRK 700 million (HRK 606 million in 2017) representing an increase ranging between 13.9% and 15.5%. Expected EBITDA margin will range between 34.8% and 35.7% compared to 34.1% in 2017.

Our outlook is based on (i) results achieved in the first nine months of 2018; (ii) operating revenues achieved by 19 October 2018; (iii) recorded bookings (representing 98.5% of the realized and expected 2018 accommodation revenues recorded in the books); (iv) 4Q business results forecast; and (v) the absence of significant negative effects of the risks to which the Company and the Group are exposed.

Outlook statements are based on currently available information, current assumptions, forward-looking expectations and projections. This outlook is not a guarantee of future results and is subject to future events, risks, and uncertainties, many of which are beyond the control of, or currently unknown to Valamar Riviera, as well as potentially incorrect assumptions that could cause the actual results to materially differ from the said expectations and forecasts. Risks and uncertainties include, but are not limited to those described in the chapter "Risks of the Company and the Group".

Materially significant deviations from the 2018 outlook may arise from changes in circumstances, assumptions not being realized, as well as other risks, uncertainties, and factors, including:

- Macro-economic trends in the Republic of Croatia and in the source markets, including currency exchange rates fluctuations and prices of goods and services, deflation and inflation, unemployment, trends in the gross domestic product and industrial production, as well as other trends having a direct or indirect impact on the purchasing power of Valamar Riviera's guests;
- Economic conditions, security and political conditions, trends and events in the capital markets of the Republic of Croatia and Valamar Riviera's source markets;
- Spending and disposable income of guests, as well as guests' preferences, trust in and satisfaction with Valamar Riviera's products and services;
- Trends in the number of overnights, bookings, and average daily rates of accommodation at Valamar Riviera's properties;
- Trends in the Croatian Kuna exchange rate in relation to world currencies (primarily the Euro), change in market interest rates and the price of equity securities, and other financial risks to which Valamar Riviera is exposed;
- Labor force availability and costs, transport, energy, and utilities costs, selling prices of fuel and other goods and services, as well as supply chain disruptions;
- Changes in accounting policies and findings of financial report audits, as well as findings of tax and other business audits;
- Outcomes and costs of judicial proceedings to which Valamar Riviera is a party;

Valamar Collection Imperial Hotel, Rab Island

- Loss of competitive strength and reduced demand for products and services of Croatian tourism and Valamar Riviera under the impact of weather conditions and seasonal movements;
- Reliability of IT business solutions and cyber security of Valamar Riviera's business operations, as well as related costs;
- Changes of tax and other regulations and laws, trade restrictions, and rates of customs duty;
- Adverse climatic events and environmental risks.

Should materially significant changes to the stated outlook for the business year 2018 occur, Valamar Riviera shall immediately inform the public thereof, in compliance with Article 459 of the Capital Market Act. The given outlook statements are not an outright recommendation to buy, hold or sell Valamar Riviera's shares.

RESULTS OF THE COMPANY

It should be underlined that the data provided in the current year's financial statements are not fully comparable to prior year's data because of the mergers reported below. Current and prior period items up to the time of the merger, i.e. until 31 March 2017, do not include Puntizela d.o.o. Elafiti Babin kuk d.o.o. until 29 December 2017 are excluded as well.

In the period from 1 January 2018 to 30 September 2018, total revenues grew by HRK 133.3 million and totaled HRK 1.731.3 million. Total sales revenues totaled HRK 1.664.0 million and represented 96% of total revenues (96% in 2017). Compared to the same period last year, they grew by HRK 134.4 million. Sales revenues between undertakings in the Group were HRK 14.1 million (HRK 9.4 million in 2017), and mainly represented the management fee for Imperial's properties on Rab Island. Sales revenues outside of the Group were HRK 1,649.9 million (HRK 1.520.2 million in 2017). Domestic sales revenues were HRK 135.8 million, i.e. 7.8% of total revenues (7.3% in 2017), up by 16.1% in relation to the previous comparable period. International sales revenues were HRK 1.528,2 million and represented 88.3% of total revenues (88.4% in 2017). They grew by 8.2% in relation to the previous comparable period. Other operating revenues fell by 7% and totaled HRK 11.8 million, representing 1% of total revenues (1% in 2017). Other operating and financial income represented 4% of total revenues (4% in 2017).

Material costs totaled HRK 422.7 million and represented 36% of operating expenses (39% in 2017). They grew by HRK 4.1 million due to the increased costs of raw material (direct food and beverages costs and costs of energy sources and water) due to increased business volumes. Staff costs totaled HRK 377.9 million, representing 32% of

operating expenses (32% in 2017). Compared to the same period last year, they grew by HRK 33.4 million, mainly due to the efforts invested in securing competitive salaries and other material and non-material work conditions, as well as new hiring necessary to ensure service quality for the new Premium and Upscale products. Valamar Riviera is therefore the first company in Croatia guaranteeing a minimum net salary between HRK 5,000 and 7,500 to all of its employees. Amortization represented 22% of operating expenses (20% in 2017) and totaled HRK 253.7 million (HRK 215.6 million in 2017). The 18% growth is the result of earlier large investment cycle that had been carried out. Other costs totaled HRK 113.6 million. The 19% growth is mainly due to i) increased costs of lodging and meals of employees, and ii) increased costs of insurance. Value adjustments and provisions are HRK 83,600. Other operating expenses totaled HRK 4.2 million, down by HRK 1.8 million.

During the first nine months of the current year, financial income totaled HRK 55.4 million, a drop by HRK 0.2 million in relation to last year's comparable period. The biggest individual item of the decrease are foreign exchange differences and other financial income, down by HRK 3.3 million due to a lower appreciation of HRK vs. EUR in 1H 2018 in relation to last year's comparable period. The highest individual growth in the first nine months of 2018 is reported by income from investment in stakes (shares) of undertakings in the Group amounting to HRK 6.1 million, related to payout of Imperial shares. Unrealized gains from financial assets fell by HRK 2.4 million, mainly due to due to a lower positive fair value of FX forwards compared to the same period last year.

The Company's financial expenses were HRK 55.5 million, a HRK 11.9 million drop in relation to last year's comparable

period. The biggest individual item of the decrease are foreign currency differences and other expenses, down by HRK 10.7 million due to the lower HRK vs. EUR depreciation in the third quarter of 2018 in relation to last year's comparable period. Interest expenses and similar expenses were HRK 33.2 million, up by HRK 5.2 million due to financial leverage used for intensive investment cycles in 2017 and 2018.

Operative profit rose by HRK 41.6 million to HRK 503.6 million, driven by the large investment cycle focused on improving competitiveness and quality of properties and services, as well as active operating efficiency management and demand-driven optimization of prices, marketing mix and sales channels, particularly for properties for which new investments were made. In relation to last year's comparable period, profit before tax grew by 12% to 503.5 million. The Company's gross margin was 30.0% (29.2% in 2017).

As of 30 September 2018, the total company assets amounted to HRK 5,275.2 million and increased by 14% compared to 31 December 2017.

2018 INVESTMENTS

Valamar is one of the largest investors in Croatian tourism. We carried out new large investments worth HRK 705 million²² in 2018, as part of our strategy to invest HRK 2 billion by 2020. This year's investment cycle was part of our strategy focused on further double-digit business growth and encompasses all of our five destinations, while Valamar's success and growth is based on sustainable and socially responsible investments in products, employees and destinations.

Our investment cycle in 2018 followed our strategy to reposition our portfolio towards top quality products and services, while the investments include the modernization of existing properties and the addition of new ones. Last year's opening of the two new resorts in Rabac represented the largest investment in Croatia's tourism. In this year, we completed Valamar Collection Girandella Resort 4*/5* (392 rooms) in Rabac by opening the first Kinderhotel in our portfolio - Valamar Collection Girandella Maro Suites 5* (149 rooms). Besides this key project in Rabac, other large investments were carried out at other destinations as well as investments in premium camping.

The investment cycle carried out by Imperial this year is one of the largest in the history of the company. The investments were aimed at improving the quality of properties and services and the competitiveness of the whole destination. The reconstruction and repositioning of Valamar Collection Imperial Hotel 4* as "adults only" accommodation was the largest investment on Rab Island.

Destination Poreč

Investments at Lanterna Premium Camping Resort by Valamar 4* were focused on improving accommodation and overall quality, including the reconstruction of the main

road with footpaths and cycling paths. In the 2018 season, the resort included a large number of new features: the brand new family- friendly Maro Premium Village with 86 mobile homes, 9 glamping tents and other amenities (two swimming pools and children's playgrounds); 18 new mobile homes at Marbello Premium Village; 14 new glamping tents and improved beach at Glamping Village; a new zone for sports, recreation and entertainment –V Sport Park with Terra Magica adventure mini golf and numerous other amenities.

The repositioning of Istra Sunny Camping by Valamar 2* as premium accommodation is divided in three phases, and the first phase was performed for 2018. It included the reconstruction of the municipal infrastructure (electrical and water supply, drainage, optical network, wireless network and the construction of a new main road). It also covered the improvement of several beaches and the reconstruction of the present 117 pitches in the southern part of the camping pitch zone and a new sanitary block.

Destination Rabac

We opened our first Kinderhotel, Valamar Collection Girandella Maro Suites 5*. The accommodation, services and amenities at Valamar Collection Girandella Maro Suites 5* are tailored according to the needs of families with children of different ages: from spacious family rooms with children's accessories, indoor and outdoor swimming pools with water attractions and slides, to entertainment activities at the Maro clubs and the Teen Hangout zone. The restaurant includes a children's buffet serving soft drinks and afternoon snacks such as salads, soups and cakes and there is also a play lounge with an indoor playground. There are 50 Kinderhotels in Europe, and this is the third Kinderhotel in Croatia. By the hotel opening was completed the investments in Rabac where Valamar invested around HRK 600 million in the previous period and Rabac is repositioned as leading high-end holiday destination. Valamar Collection Girandella Maro Suites 5* created 150 new jobs at this destination.

Destination Krk Island

The upgrade of Zablaće Camping Resort by Valamar from 3* to 4* was performed. The investment included 35 new mobile homes, the construction of a new sanitary block and other amenities, landscaping work, infrastructural improvements of camping pitches and the introduction of energy-saving LED lighting.

Investments in Ježevac Premium Camping Resort by Valamar 4* represented a new pool zone featuring a sundeck and slides, a new children's playground, 31 new mobile homes and the replacement of 18 existing mobile homes with new ones. In the 2018 season, the campsite featured an EV charging station and upgraded services in line with premium campsite standards.

Škrila Sunny Camping by Valamar 3* featured a new shopping area, redesigned landscape, new mobile homes and energy-saving LED lighting.

Investments at Bunculuka Camping Resort by Valamar 4* were focused on the installation of solar panels and the redesign of the campsite entrance area.

After a four-year investment cycle, in 2016 Krk Premium Camping Resort by Valamar became the first 5-star campsite in Croatia. The investments focused on improving a number of features: overall quality, beach services, landscape, sanitary block and now it also includes an EV charging station.

Destination Rab Island

In May was the opening of the repositioned Valamar Collection Imperial Hotel 4* on Rab Island: the new adults-only luxury hotel included 136 keys, modern double rooms, a premium restaurant and other improved amenities.

Investments in campsites on Rab Island were focused on Lopar Garden Village at San Marino Camping Resort by Valamar 4* that offers new mobile homes.

Moreover, numerous new features were introduced at Padova Camping Resort by Valamar 3*: from the new Marine Premium Village to the introduction of innovative camping concepts such as the spacious "camping suites" and "romantic camping chalets" for couples.

Destination Dubrovnik

Investments in Dubrovnik were focused on repositioning hotel accommodation and developing high-quality products and services. The Valamar Argosy Hotel 4* opened the 2018 season offering upgraded service quality and new improved amenities such as the new outdoor pool featuring a new snack bar and terraces, landscape improvements, the total refurbishment of the 308 rooms, reception, lobby and restaurant and the redesign of the common areas.

2019 INVESTMENTS

The planned large investment cycle in the forthcoming 2019 is worth HRK 752 million (the final investment amount will be decided within this year). It represents the continuation of strategical investments to reposition the portfolio towards products and services with high added value while focusing on premium camping in Istria and on Krk and Rab islands. Plans include the second of the three investment phases at Istra Sunny Camping by Valamar 2* in Funtana. The investments will focus on upgrading the quality of accommodation and beaches and include the reconstruction of sanitary blocks and the building of a central zone with numerous features: reception, Maro amenities for children, film projection/show area, pool complex with slides, Piazza and supermarket.

The construction of a new luxury hotel is planned at the location of the present Pinia apartments in Poreč: The Valamar Collection Marea Suites 5* is a hotel designed for families with children and it will expand the family-friendly portfolio segment in Poreč. It will offer numerous features: V level services, sea view and beach, pools, restaurants, Maro amenities for children and other premium services. At Lanterna Premium Camping Resort by Valamar 4* the development of premium accommodation will continue with the introduction of a new themed mobile home zone and with projects to improve the quality of amenities and beaches. Investments at Ježevac Premium Camping Resort by Valamar 4* focus on improving the quality of accommodation, restaurants, Piazza and beaches.

Valamar Riviera actively cares for its employees and keeps investing significantly in improving the quality of accommodation for seasonal employees in 2019. The plans also include numerous other investments in products and

Valamar Marea Suites, Poreč (vizualization)

guest amenities to increase competitiveness and quality as well as energy efficiency projects.

The planned value of Imperial's investments for 2019 is HRK 135 million. Along with numerous projects to improve the quality of properties and services for guests, the new investment cycle includes the reconstruction and repositioning of Valamar Carolina Hotel & Residence 4* and the further upgrade of Padova Camping Resort by Valamar 3* towards the premium segment.

As stated in our strategic goals, by continuously raising the quality of the portfolio properties and services, we create added value both for our guests and all company stakeholders. However, numerous factors reduce the competitiveness of Croatian tourism and hinder further investment potential: VAT (one of the highest rates in the Mediterranean), the rate of total contributions to salaries, the still unresolved issue of tourism land, skilled labor shortages, the likely introduction of property tax and tourist tax increase.

While global trends report low interest rates and market demand focuses on safe tourist destinations, Croatia has the opportunity to reposition its tourism by incentivizing investments in products and services with high added value that stimulate employment and economic growth.

Unfortunately, tourism is still not sufficiently recognized as an opportunity for the Croatian economy. Current financing programs supporting tourism growth are insufficient, therefore other measures need to be systematically implemented to significantly increase the growth pace and level Croatia's position with other destinations in the Mediterranean.

THE RISKS OF THE COMPANY AND THE GROUP

Tourism is a global industry, closely connected with the real and financial economy, geopolitical position and environmental sustainability. The integrity of this industry will determine its future growth. Given the importance of tourism and its overall impact on society, the Company and the Group monitor and assess risks at micro and macro levels. Moreover, when defining the strategy, particular attention is given to the short and medium-term risk impact in order to maintain business sustainability over time.

When monitoring and assessing risks the Company and Group use a proactive approach thus assessing the potential impact of each individual risk. The Company and Group consider risk management to be a key factor of differentiation among competitors. Risk management aims at creating sustainable value, thus offering reliability and security to numerous stakeholders.

There are five key steps in a risk management process:

- 1) Identifying potential risks;
- 2) Assessing identified risks;
- 3) Determining actions and responsibilities for efficient risk management;
- 4) Monitoring and overseeing preventive actions;
- 5) Exchanging information on risk management results conducted by the Management board.

The different types of risks facing Valamar Riviera can be classified into the following groups:

- Financial risks
 - related to financial variables, can have a negative impact on meeting liabilities for the company and the Group, liquidity, debt management etc.;
- Business risks
 - related to the way company business is conducted in terms of supply and demand, competition, adapting to market trends, investments, growth etc.;
- Operational risks
 - can arise from inadequate use of information, errors in business operations, non-compliance with internal procedures, human error, IT system, financial reporting and related risks, etc.;
- Global risks
 - can arise from natural disasters, pandemics, food shortage, social unrest, wars and other force majeure events beyond Valamar Riviera's control;
- Compliance risks
 - can arise from failure to comply with state laws and local regulations; risks related to changes in tax and other regulations.

Financial risks

In their day-to-day business activities, the Company and Group face a number of financial threats, especially:

- 1) Foreign exchange risk;
- 2) Interest rate risk;
- 3) Credit risk;
- 4) Price risk;
- 5) Liquidity risk;
- 6) Share-related risks.

The Company and Group have a proactive approach in mitigating interest rate and foreign exchange risks, by employing available market instruments. Internal risk management goals and policies aim at protecting foreign

currency inflows during seasonal activity and partial interest hedging of the principal loan amount.

1) Foreign exchange risk

The Company and Group conduct their business operations across national borders and are exposed to foreign exchange risks. They mainly result from changes in the euro/ kuna exchange rate. Foreign exchange risk arises from future commercial transactions and recognized assets and liabilities. Most of the sales revenue generated abroad is denominated in euros, and so is the major part of long-term debt. Hence, for the most part the Company and Group are naturally hedged from exchange rate risks. Since some liabilities are denominated in kunas, the Company and Group actively manage risks by using derivative instruments available on the financial market. The instruments are used according to operating assessments and expected market trends. In this way the assets, liabilities and cash flow are protected from the risk impact.

2) Interest rate risk

Variable rate loans expose the Company and Group to cash flow interest rate risk. Actively, the Company and Group resort to derivative instruments in order to hedge cash flow and interest rate by applying interest rate swaps. The economic effect of such swaps is the conversion of variable interest rate loans into fixed interest rate loans for a pre-committed hedged part of the loan principal. Therefore, almost the entire loan portfolio is comprised of long-term fixed interest loans or, respectively, loans hedged by a derivative instrument (IRS). The Company and Group have interest-bearing assets (cash assets and deposits) so their revenue and cash flow depend on changes in market interest rates. This becomes evident especially during the season when the Company and Group have significant cash surpluses at their disposal.

3) Credit risk

Credit risk arises from cash assets, time deposits and receivables. According to the Company and Group sales policy, business transactions are conducted only with

customers with suitable credit history, i.e. by agreeing advances, bank securities and (for individual customers) payments made through major credit card companies. The Company and Group continuously strive to monitor their exposure towards other parties and their credit rating as well as obtain security instruments (bills of exchange, promissory notes) in order to reduce bad debt risks related to services provided.

4) Price risk

The Company and Group hold equity securities and are exposed to equity price risk due to security price volatility. Valamar Riviera is not an active participant in the market trade in terms of trading in equity and debt securities. However, with investments in buying Imperial and Hoteli Makarska shares, the company is exposed to the said risk to a certain extent.

5) Liquidity risk

The Company and Group have a sound liquidity risk management. Sufficient funds for meeting liabilities are available at any given moment through adequate amounts from contracted credit lines and by ensuring credit line availability in the future. Liquidity risk is managed by generating strong positive net operating cash flows, while capital investments are financed by credit lines. All the credit lines in 2018 have already been arranged with financial institutions. The repayment of the major credit lines coincides with periods of strong cash inflows from operations. The Company and Group monitor the level of available funds through daily cash and debt reports. Long-term cash flow forecasts as well as annual (monthly) forecasts are based on the set budget. After meeting the needs of working capital management the surplus is deposited in the treasury. From there the funds are invested in interest-bearing current accounts, time deposits, money market deposit accounts and marketable securities. Only instruments with suitable maturities and sufficient liquidity are selected, according to the forecast needs for liquid funds.

6) Share-related risks

The market value of shares is the riskiest asset class due to its

volatility resulting from the volatile nature of the whole capital market, macroeconomic trends on markets where the Company and Group operate and discrepancies between the expectations of financial analysts and the actual results. Furthermore, other contributing factors are also changes in the dividend policy, various activities in the segment of consolidations, mergers, acquisitions and forming of strategic partnership, the instability of the business model of the Company and Group as well as the fluctuations in the financial results for the Company and Group. In case any negative implications happen to be associated with these factors there is a considerable risk of market value drop that will in turn prevent investors from selling their shares at a fair market price.

Business risk

The Company and Group are constantly exposed to risks threatening its competitiveness and future stability. Since the Company and Group own real estate, this business model requires a large amount of capital in order to maintain high product and service standards. Various large capital investments in the upgrade of products and services can surpass budget expectations, delay the end of construction works, as well as the town-planning regulations and fiscal policy may be changed. These risks can increase costs for the Company and Group, and have a negative impact on the cash flow and revenues. In the previous period, the company and Group's business decisions improved their results and operating efficiency in the demanding Mediterranean market. These positive trends are expected to continue in the future through a prudent long-term strategic management.

Over 95% of Valamar Riviera's guests come from other countries and they are very careful when choosing their vacation destination in the competitive Mediterranean environment. Stable domicile countries macroeconomic

indicators are important decision-making factors especially those relating to exchange rates and the price of goods and services because they directly affect the guests' purchasing power. However small, the share of domestic guests is also important; it is a segment directly influenced by various other macroeconomic indicators: employment/unemployment rate, GNP rise/fall, industrial production and others. They all have a direct impact not only on the purchasing power of Croatian residents but they also determine whether they will choose to spend their vacation on the Adriatic.

When considering risks related to the tourism and hospitality industry, in previous years, the Croatian economy has been afflicted by the consequences of a global financial crisis and economic standstill. In this period, the tourism and hospitality industry has been among the rare growing industries in Croatia. Moreover, the marked seasonality of this industry leads to insufficient use of the Company and Group's resources. After joining the European Union, the Croatian market became part of a large European market, while safety risks decreased after joining the NATO. The Croatian Tourism Development strategy until 2020 (a government document published in the Official Gazette no. 55/13) defines the kind of tourism Croatia wants and needs to develop using the country's comparative advantages and expertise in order to improve the competitiveness of Croatian tourism. Maintaining the current tourism growth rates in the following years is of vital importance. It can be achieved by strategically developing tourism products and investing in the creation of additional values, which will help distinguish Croatian tourism from its competitors by emphasizing its uniqueness, appeal and quality.

Good management of human resources is vital for the future growth of the Company and Group. Risks related to shortages of specific skills, expertise and jobs are

connected with the opening and expansion of the labor market. Valamar Riviera is one of the largest and most desirable employers in tourism. The active approach towards HR management develops key talents and supports investments in training opportunities (over HRK 2 million invested in training and professional development during the first nine months of 2018). We determine the needs for new skills and expertise by following emerging global trends in tourism. In this way, we are able to respond to challenges effectively. Through a continual dialogue with our social partners, we have ensured a high level of workers' rights in terms of competitive salaries, reward systems, career development, employees' wellbeing and cooperation with training institutions from all parts of Croatia.

Operational risks

Operational risks are risks connected with direct or indirect losses that arise from inadequate or wrong internal or external processes within the Company and the Group. They include the creation and analysis of financial reporting data (also known as "financial reporting risk") and also the potential insufficient and inadequate internal and external information sharing. When implementing the system of

operational risk management, the Company and Group focused on its continuity and complexity due to the size of the organization. The benefits of the system include i) defining and identifying the Company and Group risk profile in relation to the operating risk ii) identifying and managing the known risk occurrences in order to decrease the Company and Group costs and iii) data analysis which indicates the business trends for the Company and Group and trends in the domestic economy.

The Company and Group are aware of the reliability of IT business solutions and safety in the cyber world. Hence, they continually upgrade, develop and implement new technologies in everyday business operations. A special focus is given to providing sufficient resources for the development and implementation of new technologies related to ICT, data protection, and upgrade of the current business systems and implementation of new ones.

Global risks

Despite improved security and political conditions, which have encouraged to a certain extent investments into tourism and hospitality, there are challenges that the Croatian tourism has to face, such as:

- Periods of global financial crisis which reduce the purchasing power of the travelling-prone population;
- Security and political issues related to globally escalating terrorism threats;
- Security and political instability in the immediate environment of the neighboring countries.

Environmental risks can also have an adverse effect on the Company and Group's business results, primarily in terms of customer satisfaction with the whole experience while staying at one of Valamar's properties and this can affect the number of arrivals. The possible risks can include: sea pollution (caused by oil or chemical spillage), but also long-term water quality reduction and

Valamar Collection Girandella Resort, Rabac

coast pollution due to inadequate waste disposal and waste water treatment as well as extensive use of agricultural fertilizers. Other environmental conditions typical for climate changes such as long drought periods or long rainy periods can directly influence the guests' length of stay in the hotels and campsites as well as increasing the operating costs. A number of other natural disasters and calamities (earthquakes, fires, floods and rainstorms), air pollution caused by toxic gas emissions from industrial plants and vehicles, as well as excessive urbanization and the introduction of invasive species should also be taken into consideration.

Compliance risks

Changes in tax laws and other regulations pose a very serious threat and represent a demanding segment in risk management because in this particular situation the possibilities for the Company and Group are limited. In previous years, there has been a number of important changes in tax and non-tax charging regulations, which have adversely affected the Company and Group profitability:

- In March 2012 the standard VAT rate grew from 23% to 25%, in January 2013 a new 10% VAT rate was introduced only to be replaced within a year by a 13% VAT rate applicable to the tourism and hospitality industry (January 2014), while

Villa Polesini, Poreč

in January 2017 a new 25% VAT rate was introduced for F&B (a la carte) services;

- In May 2012 the health insurance employer contribution rate fell from 15% to 13% and then in April 2014 it grew back to 15%;
- Frequent increases in various fees and charges regarding water distribution and the like;
- Tourist tax increase in 2018 ranging between HRK 2.5 and HRK 8.0 per person per overnight, depending on the class of the destination and utilization period (August 2017).

Such frequent changes in laws regulating taxes and parafiscal charges often take place only after the business policy and budget for the next financial year have been approved and commercial terms and conditions with partners agreed. All this jeopardizes the Company and Group financial position and future investment plans as well as credibility towards shareholders. The Company and Group are also threatened by changes in regulations governing concession fees for maritime domain and tourism land use, the latter still presenting unresolved legal issues. Given the nature of the Company and Group's business, the right to use parts of the maritime domain as well as land for tourism purposes is of vital importance for future growth, especially for campsite-related operations.

CORPORATE GOVERNANCE

The Company and the Group continuously strive to develop and operate according to good practices of corporate governance. The business strategy, corporate policy, key corporate regulations and business practice are all geared towards creating a transparent and efficient business operation while forging solid bonds with the local community. In order to foster further growth and set high corporate governance standards, the Company adopted its own Corporate Governance Code in 2008 and the Management Board fully complies with its provisions. After the company was listed on the Official market of the Zagreb Stock Exchange, the Company has also complied with the Zagreb Stock Exchange Governance Code. The Company respects and implements the prescribed corporate governance measures (as reported in detail in the prescribed annual questionnaire and published as prescribed on the Zagreb Stock Exchange and Valamar Riviera websites).

The major direct shareholders according to the Central Depository and Clearing Company data are presented in the overview in the "Valamar Riviera Share" section.

The Company defined the process of preparing and disclosing financial reports in a detailed internal document. With this, the financial reporting procedure is set within a system of internal review and risk management. Moreover, in order to monitor and mitigate the financial reporting risk, the Company uses the measures described in "The Risks of the Company and the Group".

The Companies Act and the Company Statute define the General Assembly's authority and prescribe how it meets

and works. The meeting invitation, proposals and the adopted resolutions are made public according to the provisions of the Companies Act, Capital Market Act and the Zagreb Stock Exchange Rules. There is a time limit related to the voting right at the General Assembly: according to the provisions of the Croatian Companies Act, shareholders are required to register their participation within the prescribed time limit in order to attend the General Assembly. Under no circumstances can the financial right arising from securities be separated from holding the securities. There are no securities with special control rights nor are there any limitations to voting rights at the Company (one share, one vote). The Company Statute complies with the Croatian Companies Act and defines the procedure of appointing and recalling members of the Management Board and Supervisory Board. There are no limitations based on gender, age, education, profession or similar. According to the General Assembly's decision dated 17 November 2014, the Company can acquire its own shares. The Companies Act determines any amendments to the Company Statute, without any additional limitations. The Management Board members' authority fully complies with the regulations prescribed by the Companies Act.

The Company's Corporate Bodies Are:

Management Board: Mr. Željko Kukurin, President of the Management Board, and Mr. Marko Čižmek, Member of the Management Board.

Pursuant to the provisions of the Capital Market Act and Regulation (EU) no. 596/2014, the Company has determined its senior management, consisting of the key company management: four vice presidents (Alen Benković, Davor

INVESTORS DAY, NEW BRANDING AND THE 2017 INTEGRATED ANNUAL REPORT AND CORPORATE SOCIAL RESPONSIBILITY

Rab was the destination chosen to host the third Investors Day on 12 June 2018. As customary, Valamar's formula of sustainable and socially responsible investments in employees, products and destinations was presented to institutional investors by Management Board President Željko Kukurin and Management Board Member Marko Čizmek. This event was also an opportunity to present the new brand strategy that will serve as a framework for business development in the forthcoming period. Valamar's new brand identity features the "All you can holiday" business concept to create the perfect holiday for each individual guest as well as five new product brands that will be used to differentiate Valamar's portfolio of hotels, resorts and campsites. The new brand strategy sets a clear path and guidelines for the Valamar brand and sub-brands on which the company builds its future growth and development. It will increase market reach, improve the compatibility of products and services with specific market segments, increase guest loyalty and boost key business indicators.

On this occasion, the 2017 Integrated annual report and corporate social responsibility was presented to the investors. The report was prepared following G4 GRI guidelines and aims to present a strategic and long-term insight into Valamar's business to all key stakeholders, including shareholders, employees, partners, guests and the community, with special focus on corporate social responsibility that represents the foundation of the company's sustainable business and future development. The report can be found on the Zagreb Stock Exchange website and www.valamar-riviera.com.
